HAY PRICES VERY FIRM SUPPLY RATHER SHORT

Sold at From \$14.50 to \$15 a Ton-Oats Were Plentiful at \$1.20 to \$1.30.

There was only a very small market this morning, even hay, which has been the staple for some time, being very little in evidence, in spite of a consistently strong demand. The price remained very firm, \$15 being paid for all the first-class stuff offered, while a few loads went stuff offered, while only a few loads went for less than \$14 50. Oats were fairly plentiful though the

lemand was steady and they were read-ly disposed of. The price varied from \$1 20 to \$1 30, the latter price being in the predominance. There was some wheat offered at \$1 08 that was very readily sold. It is expected that there will be a very good market tomorrow to make up for the time when the markets have been poor, owing to the inclement weather and the heavy condition of the roads.
