Prohibitionists Expect Final Figures To Reach 200,000.

April 20 .- With 48 electoral ts out of 51 heard from and returns from these centres only partly complete prohibition leaders this morning estimate that Ontario had declared for a bone-dry province by a majority of 113,645 votes, on the compilation ade to date.

They claim that only 60 per cent of the total vote of approximately 750,000 liss been heard from, and point out that the majority will reach 200,000 when complete returns are available, as it is inderstood that the remaining subdivi sions to be heard from are essentially dry districts.

Rev. Dr. A. S. Grant of the Ontario referendum committee today discoun senanced reports to the effect that a court hearing relative to deciding the constitutionality of the referendum would affect the time limit for the inauguration of the Sandy bill, prohibi ing interprovincial traffic and reiterated his former statements that Ontario ould be bone dry after July 18.

Dr. Grant, commenting on the fact that all Ontario electors did not exercise their franchise, said that the or-ganized opposition, the "wets" were sure to vote, and added that every vote that was not cast would be with the majority.
