MADRID, June 27 .- In the Cortes three Republican members were warned that their presence in the Chamber was permitted as an act of patriotism, but that they could not be tolerated as accomplices in a scheme for establishing a Republic. Brest, June 27.—Up to last evening the Great Eastern had made 678 knots from Brest, and paid out 775 knots of cable. No fault has been found in the cable; the interruption noted a few days since is now supposed to have been owing to imperfect land communications. The signals are now perfect and all well.

LONDON, June 28 .- The House of Commons passed the Bankruptcy Bill to a third reading. In the House of Lords to-night, Baron Westbury gave notice of an amendment to the Irish Church Bill, granting out of the present revenue £2,000,000 to Catholics; £1,000,000 to the Presbyterians, and the balance to the Irish Church.

Paris, June 28 .- The Emperor visited the city of Beauvais yesterday. The Mayor and Bishop of the city met the Emperor at the gates 'and conducted him to the Hotel de Ville, when they presented an address of welcome, His Majesty, in reply to the Mayor's speech, returned thanks for the welcome he had received from the Municipality and the people, and reminded the Mayor of his presence in the city at the inauguration of the statue of the heroic Jean Touget la Hatchette. He was pleased to see the progress which the city and the Department of which it was the capital, had made in agriculture and industry, and declared that their prosperity was mainly due to the order which, for seventeen years past, has existed in France; and he was certain that this condition of order would never be seriously disturbed.

London, 29-The Star to-day, in commenting upon the departure from New York of Col. Ryan's expedition, brings the circumstances to bear on the question of the claims now pending between the United States and Great Brigain. It says we are interested in the conduct of the United States Government in this matter. The neutrafity laws must be thoroughly enforced or the Americans will lose all they have gained in public opinion, which instues a fair consideration of the Alabama claims. The Alabama escaped with an ordinary merchantman's crew on board; we are justly held to have incurred a high degree of responsibility for the consequences of her parture. The departure of eight hundre men from New York harbor, as far as can be judged from present accounts of the affair, appears to be an infraction of the neutrality laws just as flagrant as the escape of Alabama, and one which would have been much more easily prevented.

DUBLIN, June 28-Large meetings were held yesterday in various parts of Ireland by those in favor of the release of the Fenian prisoners. At the Cork meeting 5000 persons were present. At Dublin, 2000. Similar meetings were held at Limerick and Drogbeda. In all cases strong resolutions were passed

Dast evening urged on the government the revease of the Feniacs, nearly 4000 persons were present. Butts, a prominent lawyer made a speech in which he said all the true Irish ought to bide their time, put their trust in God and keep their powder dry. If the British Government persisted in keeping these men incarcerated in its prisons, concilliation would be useless. Williams, of Dungarven, made an impassioned speech ; he declared that Fenian prisoners would not accept mercy; they demanded ju tice from the Ministers, the latter refused it; let their blood be upon their own heads. He would not, however, adcocate a resort to the sword.

Washington, June 29 .- Surveyor-General Babcock, of Kansas, says that more than 30 persons had been killed by Indians at the time of the outbreak from different surveying parties in the field, all of whom have returned. One party was attacked by a small band, who fled after being fired upon by the surveying party. All the surveying parties are alarmed and decline to return to the field at present, The Indians are not combined, and do not apparently intend to bring on a regular war. # English Mail Summary.

It would seem that the journey of the Viceroy of Egypt to Europe was not without an object; he finds that has raised a Frankenstein in the Suez Canal and goes to autrope to ask the great Powers to take it off his hands (i. e.) to guarantee its neutrality. In this he has partially succeeded-Austria, Prussia and England assenting, but France objecting. If the enterprise turns out to be really all that is claimed for it, it may yet become a plentiful source of diplomatic hot water. The new Chancellor of the Exchequer has undertaken a rather difficult task. He is endeavoring to we had no business to interfere in the matter

to Mr. Lowe have been making violent

efforts to swallow his logic, but have

serious riot took place at Mold in Flintshire when the populace attempted to rescue eight colliers who had been convicted of an assault upon the manager, The soldiers and police were pelted with stones, causing injuries which are likely to prove fatal in one case at least. After a great deal of forbearance on the part of the authorities the Riot Act was read and after a round of blank cartridge, ball were used which caused the death of three or four persons, the mob dispersed. The Garden of Eden has at length been found, according to Si: Henry Rawlinson and it turns out to be Babylon. It is said that extremes meet, Chemists extract the most delicious perfumes from the most disgusting and bad smelling compounds. It may be possible to prove that the greatest amount of virtue, by some chemicomoral tronsformation, became the cocentration of vice. Sir Henry finds the geography quite correct, but had been unable to discover the tree of life. The weather in England has been most unseasonable -much rain, very low temperature, and absence of sunshine. The corn-jobbers are beginning to look lively in anticipation of a short harvest; appearances indicate unfavorably of the yield this year. This, combined with scarcity elsewhere, may send breadstuffs up to a very high price We dont think we shall be much affected here. The aristocratic taste for amateur Stage-Coaching, prevalent some 50 years since, appears to be reviving. Lord Cirrington has started and frequently drives a stage from London to Windsor, and a similar enterprise has been commenced by another amateur on another road. A boat belonging to one of Her Majesty's ships lying at Malta, was capsized and eight seamen and boys were drowned. The Elections in France have conveyed an important hint to Nas poleon, which is that, notwithstanding all he has done for France since he ascended the throne, he has not attracted to his side a single friend. Surely no surprise can be felt at his distrclination to relax the bonds by which he holds the people, when he knows, without an xcuse for a doubt, that they would hurry him to the guillotine to-morrow if possible, and establish a Socialist Republic. The only friends that remain to the Emperor are the soldiers, and they are beginning to be lukewarm in consoquence of inactivity and the lack of chance for promotion. No one knows better than the Emperor how dangerous and costly a war would be, but no one knows better how necessary a condition it is to him who would occupy the throne of France. The Italians have not yet found a good prime minister; the changes in their government within the last few months have been frequent enough in all conscience to have given them a chance of selecting the right man; but fate is against them. A second Cavour at this time would be of incalculable value to Italy, bu', alas! Cavours are scarce. Caeadian Mail Summary.

William Gleason, manager of a gold mine at Lawrencetown, shot his wife with a revolver at their residence near the Mechanics' Institute, Dartmouth. The parti s had been on bad terms for some time, but no immediate cause is assigned for the act. The ball entered the left side, below the heart. Dr Weeks was called in and attended the woman. TAYLOR BROTHERS LONDON.

THR COCOA (OR CACAO) OF MARAVILLA is the true THEOGROMA LINNÆUS. Cocoa
is indigenous to South America, of which Maravilla is a
favored portion. TAYLOR BROTHERS having secured
the exclusive supply of this unrivalled Cocoa, have, by
the skilful application of their soluble principle and
elaborate machinery, produced what is so undeniably
the perfection of prepared Cocoa, that it has not only
secured the preference of homosopaths and cocoa-drinkers
generally, but many who had hitherto not found any preparat on to suit them, have after one trial, adopted the
Maravilla Cocoa as their constant beverage for breakfast,
luncheon, &c.

### "AN UNPRECEDENTED SUCCESS." See following Extract from the Globe of May 14. 1868.

May 14. 1868.

"Various importers and manufacturers have attempted to attain a reputation for their prepared tocoas, but we doubt whether any thorough success had been achieved until Messrs Taylor Brothers discovered the extraerdinary qualities of "Maravilla" Cocoa.

Adapung their perfect system of preparation to this the finest of all species of the Theobroma, they have produced an article which supersedes every other Cocoa in the market. Intire solubility, a delicate aroma and a rare concentration of the purest elements of nutrition, distinguish the Maravilla Cocoa above all others. For Homeopaths and invalids we could not recommend a more agreeable or valuable beverage."
