Obviously anything that benefits the future citizens of a community—benefits that community. This is an aspect of Scouting frequently overlooked. It may also be pointed out that the Boy Scouts' Association is not concerned merely in the creation of Boy Scout Troops; that the organization of a Troop is not the only end sought. The position of the Association is that of standing neady to provide any community with a tried and proven means of solving the community boy problem. When also called upon, Provincial Headquarters of the Boy Scouts Association will, furnish the information, literature and general guidance nicessary, to the carrying out of this tried and successful programme.

shall see how intelligently our nor there meighbor has set about doing something that we are doing badly or not at all.

"Considering that Canada was in the war foun years, that the national debt per capita is very great in Canada, that relatively Canada has had a far larger numben of men to care for, there is something reassauring in prompt extension of credit of more than \$80,000,000 to the boys who fought to get them properly cared for as farmers. This is in perfect keeping with the general Canadian policy."
