FIFTH YEAR.

LASHING THE PARTY WHIP

HOW REBELS' FRENCH MEMBERS WERE BROUGHT TO TIME.

Debate on the C. P. R. Resolutions Resumed—The Opposition's Amendment—Half Hour of Routine.

Special Despatch to the World.

OTTAWA, Feb. 18.—Half an hour was consumed in discussing of routine business before the resumption of the debate on the Canadian Pacific railway resolutions. A message was received from the judges of the supreme court confirming the return of Mr. Dugas for Montreal, whose election had been appealed against.

Sir John Macdonald, replying to a question by Mr. Baker, said it was not the intention of the government to detail a troop of mounted police for service in the Rocky mountains in view of the recent troubles with the Metlakala Indians. By the present law the functions of the Northwest mounted police are confined to the Northwest territory and until the law was changed the government could do nothing.

Sir Hector Langvin replying to Mr. Baker said it was the intention of the government to erect emigrant sheds at Victoria, B. C., for the temporary accommodation of the increased number of emigrants who will arrive there next spring.

Replying to Mr. Holton, Sir Leonard Tilley said he was advised by the minister of justice that the crown was by law entitled to proceed against Senator Ogilvie to secure repayment of the \$100,000 advanced to the Exchange bank on his letter of guarantee. Instructions had already been given to enforce that right, and unless the government was fully re-paid, Ogilvie would be called upon to pay the amount.

Sir John Macdonald, answering Mr. Irvine, said the government intended making an allowance to the inspectors appointed under the liquor license act of 1883 in counties which have adopted the Canada temperance act or the Dunkin act.

Sir John Macdonald, replying to Mr. Casgrain, said it was not the intention of the government to retain Hector Fabre as Canada commissioner at Paris after next year.

Mr. Fabre was engaged by the Quebec government, with the consent of the Dominion government for a term of three years at \$2000 a year.

Sir Leonard Tilley, replying to Mr. Lister, said it was the intention of the government to introduce this session legislation affecting benefit mutual insurance societies.

On Wednesday next Sir Leonard Tilley will move the house into committee of the whole on a resolution that it is expedient to amend the consolidated insurance act of 1877 with respect to companies transacting business of life insurance under the title of co-operative insurance companies, mutual benefit associations and the like.

Mr. Costigan will move the house into committee of the whole Friday to consider a resolution that it is expedient to provide that all contracts for the sale and delivery of coal shall be made by weight, and that all sales shall be by weight. He will also introduce Friday a bill to amend and consolidate as amended the several acts relating to the adulteration of food and drugs.

Sir Leonard Tilley has given notice of the introduction of a bill to define certain offences against persons employed in factories.

Mr. Casgrain is evidently on the scent of a mare's nest, for he is moving for a commission appointing Messrs. Belleau, Canon, Letellier and Kibbittell, lieut. governors of Quebec.

Messrs. Lister and Cameron, of the opposition, spoke against the Canadian Pacific railway resolutions to-day and Messrs. Orton and Rykert harangued in their favor.

After speaking three hours on the Canadian Pacific railway resolutions, Mr. Cameron moved an amendment that before parliament is called upon to grant aid to the Canadian Pacific, a searching investigation of the affairs of the company should be made by a special committee appointed for that purpose.

Mr. Rykert continued the debate, speaking on the amendment.

Mr. Armstrong followed Mr. Rykert in a very temperate and sensible speech, declaring his personal leaning towards the Canadian Pacific railroad, but in the interest of the country he must vote against the resolutions.

Mr. Wood (Westmorland) moved the adjournment of the debate.

A caucus of French supporters of the government was held this afternoon. It is understood all agreed to vote for the resolutions except Amyot and Oimnet. Dissatisfaction has again entered the ranks.

Another caucus had to be held, and the party whip was cracked lively over their heads by Chapeau, Langvin and Caron. It is now thought they will go all right. Sir John says the vote must be reached at the next sitting of the house.

Parliamentary Points.

OTTAWA, Feb. 18.—The public accounts committee met this morning, when Mr. Somerville's report, moved for the vouchers connected with the various suspicious-looking charges in the public accounts of last year, including statements of expenses incurred in the Dominion elections in Hamilton and North and South Westworth in 1882, and details of the alleged expenditure of \$1500 by Sir Charles Tupper for immigration purposes in addition to his expenses and contingencies as high commissioner.

A Liberal M. P. Denounces Gladstone—The Irish Party Against Him.

LONDON, Feb. 18.—Gladstone, replying to an inquiry by Northcote regarding Gordon's action, said the appointment of El Mahdi as sultan of Kordofan and the removal of taxes were within Gordon's powers the true meaning of the order regarding the revival of slavery.

In the debate this evening on Northcote's motion, censuring the government, W. T. Morrison (Liberal) violently attacked the government, accusing it of vacillation and inconsistency. He declared the government had lost the confidence of the country and the liberal party. The truth of this he would test by voting for Northcote's motion, and then resigning his seat in the house and offering himself for re-election. The debate was adjourned.

The Irish parliamentary party this evening decided to vote against the government in the division in the house of commons tomorrow on the motion venturing the government.

Gen. Lord Walsley has ordered the expedition to Tokar to finish in three weeks, within which time the troops are to return to Cairo. Gordon has telegraphed that the people of Khartoum had received him well. He also said that El Mahdi would not yet advance. He was trying to raise the tribes, but would not succeed, the general thought, if concessions were made them.

BLOWN UP AND BURNED.

A LONDON HARDWARE HOUSE DESTROYED BY GUNPOWDER.

One Man Killed and Two Fatally Injured—How the Explosion Happened—A Heavy Loss—Tremendous Shock.

LONDON, Ont., Feb. 18.—At twenty minutes to ten o'clock this forenoon an explosion occurred in the wholesale establishment of Hobbs, Osborne & Hobbs, Richmond street, which shook the business portion of the city for 300 yards around. The cause is assigned to the ignition of about twenty pounds of gunpowder. From what can be learned, it is feared that the explosion was occasioned by some employees of the firm who, in order to enjoy a smoke, had left the office and ascended to the top story. They were Percy Ince, the short-hand writer, and Frank Shaw, the assistant book-keeper. They met there Donald Smith, the clerk who had charge of the stock in the flat, and that is all that can be ascertained of their doings, as the latter is dead, and the other two are so seriously injured as to be beyond the hope of recovery.

Next came the hurrying of the front of the two story into the street, accompanied by a terrific noise which resembled the explosion of a steam boiler, and which was heard for miles around. The buildings adjoining—Robinson, Little & Co.'s and Burns & Lewis—were badly shattered, and across the street, the entire length of a block, every vestige of glass was smashed to pieces. The firemen were quickly on hand, but they were apparently misdirected, and when they did get to work a length of hose burst and retarded their exertions.

In the meantime the three men named previously were burning to death among the debris in the fourth story, and a few succeeding witnesses testified to similar treatment had regarding the reign of terror prevailing in Capital county.

Mr. Ince, the short-hand writer, was badly injured, and his body was recovered, and in twenty minutes more Shaw was extricated from the debris. Both were more dead than alive. Ince's legs were burned off to about the ankle. His eyes were burned badly, and much of the clothing from his body. He and Shaw were taken to the general hospital.

The building was owned by the firm, but the insurance, if any, cannot be ascertained at present. The shock produced a decided sensation throughout the city. Donald Smith, the young man who was in charge of the flat, has been taken out dead. His hands and wrists were burned to a crisp, his body was badly burned and his legs broken. He was about 20 years of age, and had recently come out from Scotland. Shaw is burned and crushed with the falling bricks. His injuries are dangerous. His legs are broken in several places, and his chest is severely injured. Some loss is roughly estimated at \$50,000 or \$60,000. The building is valued at \$15,000, and the stock on hand is estimated to be worth \$70,000. The insurance is \$70,000.

MISERABLE DEATH.

A LONDON FAMILY ASPHYXIATED—PROVING TO START THE UNITED MILLS TO-DAY WAS A FAILURE.

LONDON, Ont., Feb. 18.—On Saturday evening a family named Hilton living on South street had a narrow escape from asphyxiation. On retiring to rest they neglected to open the dampers of the coal store and the gas generated escaped into the room. The shock produced a decided sensation throughout the city. Donald Smith, the young man who was in charge of the flat, has been taken out dead. His hands and wrists were burned to a crisp, his body was badly burned and his legs broken. He was about 20 years of age, and had recently come out from Scotland. Shaw is burned and crushed with the falling bricks. His injuries are dangerous. To members of the masonic order she represented her husband as a mason and succeeded in swindling them out of various sums. All her stories turn out to be false. SYSTEMATIC SWINDLING.

THE LITTLE GAME OF A VICTORIA STREET MAN EXPOSED.

How he Got Money From His Victims—Trying to Cheat an Old Lady Out of a Valuable Patent.

A swindle in giant form has been practiced on the people of this city during the past four months. All this time the perpetrator has been permitted to go on unmolested as his victims were not positive that they had been cheated. Now, however, they have determined to bring his misdeeds to light.

Ames, the swindler, was a man of 73, Duke street, west, who was anxious to tell his story and do anything to have vengeance on the swindler.

Mr. Murray of 165 Bathurst street was the first to tell his story. He stated that he advertised in the Telegram last August for a situation as yardman, and in reply he received a letter from Ames, who had a situation for him. On replying to 75 Duke street, Murray was informed by Ames that he was put off with a man to take charge of his office, and pack coffee runs which he manufactured.

Ames then asked that if he would require \$50, Murray gave him something to his advantage. Thither he went and was told by Ames that if he would put \$100 into his business he would employ him at the rate of \$15 a week. Freeman accepted his offer and was told by Ames that it would not be necessary for him to come to the office until arranged. Ames then was put off with a man to take charge of his office, and pack coffee runs which he manufactured.
