

TWO WOMEN TESTIFY

What Lydia E. Pinkham's Vegetable Compound Did For Their Health—Their Own Statements Follow.

Halliburton, P.E.I.:—"I had a doctor examine me and he said I had falling of the womb, so I have been taking Lydia E. Pinkham's Vegetable Compound and it has done me a lot of good. All the bearing-down pains have vanished. I have gained ten pounds in weight, the discharge is all gone, and I feel better than I have for a long time. I think any woman is foolish to suffer as I did for the sake of a few dollars.

"You can use my letter as a testimonial. It may encourage other poor women who suffer as I did to use your Vegetable Compound."—Mrs. GEO. COLLICURTY, Halliburton, Lot 7, P.E.I.

Read What This Woman Says:
New Moorefield, Ohio.—"I take great pleasure in thanking you for what your Vegetable Compound has done for me. I had bearing down pains, was dizzy and weak, had pains in lower back and could not be upon my feet long enough to get a meal. As long as I laid on my back I would feel better, but when I would get up those bearing down pains would come back, and the doctor said I had female trouble. Lydia E. Pinkham's Vegetable Compound was the only medicine that helped me and I have been growing stronger ever since I commenced to take it. I hope it will help other suffering women as it has me. You can use this letter."—Mrs. CASSIE LLOYD, New Moorefield, Clark Co., Ohio.

HARRIS & CO. PROPRIETORS
WATFORD, JULY 26, 1912.

NOTE AND COMMENT.

The Hamilton Herald says, "there are some people who didn't go to church yesterday because it threatened rain, but who went to the race-track Saturday through a rain storm that had all the ear-marks of a cloud-burst." Probably they were afraid the building Inspector had not given proper attention to the edifice, while they could only get wet anyway in going to the races. Besides, they might make a V even though getting soaked; while the Sunday dinner might have been late had they not remained home to superintend it. There are always some extenuating circumstances if one will only stop to consider them in all their various phases and ramifications.

The Brussels Post man thus gives advice about Leap Year: Pick out a fat man. They wear better in the long run and then too they are easier to land. A fat man is tender hearted and simply cannot refuse an offer of marriage. Never mind the looks. Don't wait until you find a Greek God. Grab off a homely one while the grabbing is good, the home-

ly ones are the ones who bring home the pork chops. If you cannot support the young man in the manner to which he has been accustomed, be straightforward and honest about it, and tell him so. Never lie to the young man, for when he learns the truth there is apt to be trouble. Be sure that your approach is all that it should be. Everything depends upon that. When you ask a young man to marry you don't go about it as though you were ordering a ham sandwich in a one-armed restaurant, but be pleasant about it. Approach him with tact and let him find out your true nature after it is too late for him to back out.

Ministers and Tobacco.

Discussing the motion passed by the London Methodist Conference regarding the growing of tobacco, the Woodstock Sentinel-Review recalls that tobacco was not always under the ban of the church of this continent, and that in the early history of Virginia, for instance, ministers of the gospel were accustomed to receive their salaries in tobacco, the amount being fixed by law. The law provided that the yearly salary of a minister should be 16,000 pounds of tobacco. For a funeral sermon the amount was 400 pounds, and a marriage license 200 pounds. From one of the old books of the early days of Virginia we learn that the religious life of the country depended very largely on the quality of the tobacco grown. In some districts where the quality of the tobacco was notoriously poor, we are told that it was impossible to get orthodox ministers to stay.

\$100 Reward, \$100.

The readers of this paper will be pleased to learn that there is at least one dreaded disease that science has been able to cure in all its stages, and that is Catarrh. Hall's Catarrh Cure is the only positive cure now known to the medical fraternity. Catarrh being a constitutional disease requires a constitutional treatment. Hall's Catarrh Cure is taken internally, acting directly upon the blood and mucous surfaces of the system, thereby destroying the foundation of the disease, and giving the patient strength by building up the constitution and assisting nature in doing its work. The proprietors have so much faith in its curative powers that they offer One Hundred Dollars for any case that it fails to cure. Send for list of testimonials.

Address: F. J. CHENEY & CO., Toledo, O.

Take Hall's Family Pills for constipation.

Public Library Institute Meeting

The Public Library Institute meeting for Essex, Kent, Lambton and West Elgin was held in Chatham on Monday and Tuesday of last week. W. E. Fitzgerald, of this place, took part in the program, and delivered two addresses, one on library co-operation and extension along county lines and the other on the selection and purchase of library books. Mr. Andrew Denholme, of Blenheim, ex-warden of Kent County, also delivered an address on the first mentioned subject. Resolutions were then passed asking the Ontario Government to enact legislation, carrying out the ideas of these addresses in establishing libraries in each municipality throughout the county so that the farming community would more fully be benefited and the County Council help to contribute to the support of each library as well as the local municipality. Several other interesting papers and addresses were given.

The following officers were elected—President—J. A. Short, of the town of Essex; Secretary—W. J. Elliott, of the Town of Kingsville.
Executive Committee—Dr. C. R. Charters, Chatham; J. W. Hamilton, Sarnia; W. E. Fitzgerald, Watford; Dr. A. Voaden, St. Thomas, and Andrew Denholme, Blenheim.
St. Thomas was selected as the next place of meeting.

His Orders.

"Ticket, sir," said a collector at a railway station to a gentleman, who, having been a season-ticket holder for some time, believed his face was so well known that there was no need for him to show his ticket. "My face is my ticket," replied the gentleman, a little annoyed. "Indeed!" said the collector, rolling back his wrist bands and displaying a most powerful fist. "Well, my orders are to punch all tickets passing on this platform."

The only difference between a rut and a grave is the length and breadth.
When all other corn-preparations fail, try Holloway's Corn Cure. No pain whatever, and no inconvenience in using it.

Something like half a century ago there was a boom in Kansas similar to that which is now prevailing in the Canadian West. While Kansas is in a prosperous state today, as a result of real agricultural development, no less than 2,300 Kansas towns, some of them having at one time a population of 5,000 or more, were completely wiped out of existence when the boom collapsed.

Spelling Simplification.

Nova Scotia has for over thirty years been associated with the endeavor to reform the spelling of the English language. The first step in that direction was taken in 1880, when Dr. David Allison, ex-president of Mount Allison University, then superintendent of education for the province, invited the principal of the Pictou Academy to write a paper for the Provincial Education Association's meeting in Truro. Since then this very necessary reform has been kept steadily in view by the educational authorities of Nova Scotia and statements in its support have appeared in various numbers of The Journal of Education, which forms the semi-annual supplement to the report of the superintendent of education.

This is only one of many agencies quietly working in the direction of spelling reform. Yearly many educators and men of letters enlist in the ranks and help forward a cause which rests squarely on its own merits. All the weight of argument and experience is on the side of simplified spelling. The present illogical, intricate and absurd system wastes from one to two years of our school children's time, and offers a serious obstruction to the acquisition of a practical knowledge of the English language by foreigners. Those who regard English as the coming world language and oppose spelling reform are doing their best to present that expectation from being realized.

Germany has introduced consistency into the spelling of the German language, with the result that the children of the fatherland are age for age far in advance of the children in English-speaking countries. Every hour in the formative years that is spent needlessly forms a handicap during the remainder of life, which affects not the individual only but the nation. After all it is no revolutionary theory that is advanced by the advocates of spelling reform, but in many cases a reversion to the spelling sanctioned by the greatest names in English literature.

Wool Wanted.

Will pay a fancy price for wool thirteen inches long and upwards. No matter if you have only one fleece it will pay you to investigate. Send sample and state about how much you expect to have.
