ARRIVAL OF THE COLUMBIA.

The Steam ship Columbia, arrived at Hal-

in London, general sympathy was evinced for the distressed, and in three days alterwards, £10,000 were subscribed and sent to their relief. Her Majesty generously subscribed £200, and Prince Albert £100.

The Herald states that trade continues dreadfully depressed, but that money was superabundant. It reckons on a speedy change for the better, and a period of pros-perity after the reverse; but laments the mi-sery and demoralisation which are meantime produced.

The subscription for the relief of Paisley had amounted to nearly £25,000. Increase liberality was still required

The Paisley race committee have resolved on making this a blank year. The great distress now felt in the town and neighborhood,

until the same are called in, will be forth-with issued by the Provincial Treasurer, in payment of the Appropriations of the last Session for the Ordinary and Miscellaneous Services already performed, and for the Great Roads; and notice of the amounts as they become payable, with the names of the parties, will be given in the Gazette.

THE AMARANTH for June, is received, and he happy to show a volume of this work to any person desirous of subscribing for it. There is not so cheap a Magazine published in the Colonies.—Terms 8s. 3d. per annum.

LOVE THE POLYPHONIST .- Mr. Love has been exhibiting his wonderful powers of Ven-triloquism before the Inhabitants in St. John. The New-Brunswicker speaks in the most flattering terms of his performance. This an is highly recommended by the Has just received, ex British Queen, from leading English, American, West Indian, and Canadian Journals.

The New-York Sun states that whilst the British Queen was rounding in the East River to go into her berth, she got aground or the rocks off the foot of Walnut-street, and was still last when last heard from.
