# GRAY DORT

**Value is Satisfaction**

The value of a motor car cannot be measured by its price alone. It must be judged by the length of service it gives. The satisfaction you get is the deciding factor, and in the Gray Dort satisfaction is 100%.

Satisfaction with the performance of this sturdy light car—with its economy—with its comfort—with its beauty.

You get this satisfaction from the Gray Dort for more years than from any other car at anywhere near the Gray Dort price.

The touring car is \$1245; the Gray Dort Special—the car with added refinements and extra equipment, is \$135 extra; there are also a coupe, and a sedan. All prices f.o.b. Chatham and are subject to change without notice.

At the beginning of the pelting season in 1917 the number of foxes on the ranches of Prince Edward Island was approximately 10,000. From December 1st, 1917, to January 31st, 1918, 2,500 foxes were killed and their skins sold. In 1918 there was a pup production of 3,500, thus making the number of foxes at the opening of the last pelting season 11,000. Allowing for a kill of 3,500 during the past season and the shipment of a small number abroad the season of 1919 will open for ranch breeding with about 7,000 selected foxes as a breeding stock.

Good silver fox furs are of great value. They are worn by real queens and movie queens. When the daughter of the Duke of Devonshire was married not long ago a silver fox fur was one of the most prized gifts she received.

One of the best known fox ranches has a central passage through which is carried the feed to the hard earth, which is known as hard-pan. The walls are nine or ten feet high and have overhangs of netting extending two feet on either side of perpendicular walls to prevent the foxes from getting out or other foxes getting in. The latest model fox house is a twin-house, one being the den and the other the living room with a chute connecting and another chute for entrance from outside to the living room. These houses are each about four feet long, two feet wide and eighteen inches high with hinged

**LIFT CORNS OR CALLUSES OFF**

Doesn't hurt! Lift any corn or callus off with fingers

Don't suffer! A tiny bottle of Freezone costs but a few cents at any drug store. Apply a few drops on the corns and "hard skin" on bottom of feet, then lift them off.

When Freezone removes corns from the toes or calluses from the bottom of feet, the skin beneath is left pink and healthy and never sore, tender or irritated.

roof to enable cleaning and catching foxes. Americans bought 253 island foxes in 1918. Japanese and Norwegians are entering the fox breeding industry. Japan took 34 island foxes last year and Norway took 24. Good pups were realized, averaging about \$100 each.

A good time to visit a fox ranch is in the spring when the pups are usually looking their best. In April, mature to full growth by following November and produce young in the succeeding spring.
