Two Horses

We supply a first-class Governor when required with our Tread Power. Most governors cause friction and thus consume a great deal of power unnecessarily.

We make Powers any width to suit customers and keep three widths of 2-Horse Powers in stock. Do not buy a 3-Horse Tread Power if you are going to use only two horses on it; you are wasting your money and losing power both at the same time.

Extract from Annual Report for 1897

of the Consulting Chemist of the ROYAL AGRICULTURAL SOCIETY OF ENGLAND, published in their Journal, 31st December, 1897, page 732:

"It has been necessary to call attention to the fact that under the name of 'slag' and sometimes even under that of 'basic slag' have been sold refuse materials of a very different character, and having little or no manual value. These have not been the product of the now well-known 'Basic' or THOMAS process of iron or steel-making, and have contained little or no phosphoric acid such as basic phosphate has. In several instances the purchasers believed that they were buying the true basic slag. It behoves one, therefore, to be careful to stipulate for THOMAS-PHOSPHATE, and to have a guarantee of phosphoric acid contained, and of freedom of division."

We handle the only true . . .

Thomas-Phosphate Powder

sold in Canada; and to be sure of genuine material, see that the bags have our name and address.
