ANOTHER LETTER.

WINDMILL, Feb 10th 1897

Messrs. Gould, Shapley & Muir Co., Ltd., Brantford, Ont
 Gentlemen—The 14 ft "Ideal" Steel Wind Mill and "Maple Leaf" Grinder purchased from your agent, T. H. Toes, Wingham, is giving good satisfaction; in fact I think it will do more than you claim for it in a strong wind. I have ground 35 bushels of peas and oats mixed in an hour, and it will cut feed faster than a man can feed it. It is far ahead of horse power or any other power for farm work. The roller and ball bearings are a great improvement on windmills and grinders, they do away with all the friction caused by the cut pressure, and consequently the mill runs easier than other mills. Your method of operating the mill is the best I have ever seen. I can recommend the mill to any farmer wanting power.
