COMPARATIVE WORTH OF BAKING POWDERS.

REPORTS OF GOVERNMENT CHEMISTS As to Purity and Wholesomeness of the Roya! Baking Powder.

"I have tested a package of Royal Baking Powder, which I purchased in the open market, and find it composed of pure and wholesome ingredients. It is a cream of tartar powder of a high degree of merit, and does not contain either alum or phosphates, or other injurious substances.

E. G. Love, Ph.D."

"It is a scientific fact that the Royal Baking Powder is absolutely pure.
"H. A. Morr, Ph.D."

"I have examined a package of Royal Baking Powder, purchased by myself in the market. I find it entirely free from alum, terra alba, or any other injurious sub-stance. Hener Morron, Ph.D., President of Stevens Institute of Technology."

"I have analyzed a package of Royal Baking Powder. The materials of which it is composed are pure and wholesome. S. Dana Hayes, State Assayer, Mass."

The Royal Baking Powder received the highest award over all competitors at the Vienna World's Exposition, 1873, at the Centenniai, Philadelphia, 1876; at the American Institute, New York, and at State Fairs throughout the country.

No other article of human foud has over received such high, emphatic, and universal endorsement from eminent chemists, physicians, scientists, and Boards of Health all over the world.

Note-The above Diagram illustrates the comparative worth of various Baking Note—The above Diagram illustrates the comparative worth of various Baking Powders, as shown by Chemical Analysis and experiments made by Prof. Schedler. A pound can of each powder was taken, the total leavening power or volume in each can calculated, the result being as indicated. This practical test for worth by Prof. Schedler only proves what every observant consumer of the Royal Baking Powder knows by practical experience, that, while it costs a few cents per pound more than ordinary kinds, it is far more economical, and, besides, affords the advantage of better work. A single trial of the Royal Baking Powder will convince any fair minded person of these facts.

* While the diagram shows some of the alum powders to be of a higher degree of strength than other powders ranked below them, it is not to be taken as indicating that they have any value. All alum powders, no matter how high their strength, are to be avoided as dangerous.

THE GLOBE, TORONTO. ADDRESS,

DISORDERS SUMMER

which prove so FATAL TO CHILDREN at this season of the year have to be fought largely by supplying

HIGHLY NUTRITIOUS FOOD

that the WEAKEST Stomach can retain, and that will SUSTAIN THE STRENGTH against the drain upon the system.

THIS IS EXACTLY WHAT

The most DELICATE INFANT or INVALID can take it and thoroughly digest it and its wonderful strength giving properities have been in the experience of thousands.

IT IS EASILY PREPARED, PALATABLE, HIGHLY NUTRITIOUS, READILY DIGESTED,

And is the best food for young and old during the hot weather.

BUTCHER'S ANTISEPTIC INHALER AND INHALATIONS. An Unrivalled Remedy for the Treatment and Actual Cure of Catarrh, Catarrhal Deafness, Hay Fever, Asthma. Bronchitis, Relaxed Throat, Hoarseness, Difficult and Fetid Expectoration.

Endorsed by the leading Physicians of Canada and the United States.

Dr. E. H. Trenholm, of Montreal says: "I have used the Inhaler in very many cases and with uniform success, and be lieve it the best yet invented for diseases of the Nose and Throat."

Dr. Barnaby, of Bridgetown, in a letter to the Company, says: "In my opinion it is just what is required in this Province in the treatment of Catarth, Asthma, Bronchitis and Consumption, in fact, in all diseases of the respiratory organs. The principle involved is sound, and this system of treatment s bound to come into universal use in the near future."

Dr. Fitzhenry Campbell, ex-Surgeon to the British Army, ays: "I feel confident the Inhaler possesses the true principle y which medication can be carried directly to a diseased memrane of the respiratory tract."
