MALTINE WITH CREOSOTE

This formula has been employed successfully by thousands of physicians, and we have been urged to place such a combination upon the market, in order that a uniform and properly prepared product should be available under all circumstances. The vehicle—Maltine Plain—is particularly indicated, by reason of its great food and digestive value, in all conditions in which Creosote is so universally employed

It will give us pleasure to send sample of this preparation to any physician who wishes to satisfy himself of its therapeutic value.
