

leaving yesterday morning, while on board the steamer *Satellite*, still huddled together without any protection for their bodies, a shower of large tin cans were thrown at them from the ship by the mate and crew, severely injuring several of the passengers. Two women were so badly hurt as to require aid to walk, their heads being cut and bruised to a fearful extent. This was a matter that, one would suppose called for investigation by the Emigrant commission but we have looked in vain for any action upon it. Until a radical change be effected in the constitution of the Board, it is useless to expect anything like a display of active interest in the welfare of the multitudes who are, by the law of the State, committed to its care before they can set foot on the soil of New York. In this connection, it will not be irrelevant to ask, what has become of the Irish Emigrant Society? We know that it still maintains a money order office for the safe transmission of the funds of emigrants to the old world. But that was not the sole object for which the Society was established, as any one acquainted with its workings during the lifetime of the lamented Gregory Dillon must be aware. An active organization, working for the benefit and protection of our poor countrymen and countrywomen, daily arriving in hundreds, was never more needed than at present. Cannot the Irish Emigrant Society be made such? or must we look for the establishment of another?—N. Y. Irish American.

THE VAGARIES OF PROTESTANTISM.—In a small neighborhood in Geauga county, Ohio, lived three deacons. The first is a Methodist, the second a Presbyterian, and the third a Baptist. All live quite a distance from their respective meeting-houses, and as the travelling is excessively bad at this time of the year, they concluded to hold meetings in the little red school-house in the neighborhood. The question then arose which denomination should hold the first meeting. The Methodist claimed the privilege of opening the ball. The Presbyterian demanded it. The Baptist insisted upon it. Here was a "fix." They wrangled over the matter until the dander of each deacon arose to fever heat and each vowed he would hold a meeting at the red school-house the very next evening, which happened to be Friday last, and on that evening at early candlelight the school-house was crowded with Methodists, Presbyterians, Baptists, and several world's people. The Presbyterian commenced reading a catechism. The Baptist at the same time arose and commenced reading a tract on immersion. The Methodist at the same time struck up an old-fashioned hymn, shouting it forth at the top of his lungs. The effect was ludicrous. It apparently struck the mixed congregation so, for all commenced laughing; The Baptist was wheezy. He sunk exhausted into his seat, while the Presbyterian and Methodist continued. All at once the ludicrousness of the scene struck the Baptist, and he indulged in a protracted horse-laugh.— This displeased the Presbyterian, and forgetting himself, he dealt the Baptist a stunning blow under the right ear. The Methodist threw his hymn book down and rushed to the Baptist's rescue. He arrived just in time to receive the Presbyterian's iron fist between his eyes. The Baptist and Methodist rallied, and together attacked the Presbyterian, but he was too much for them. The scene that ensued beggars description. Chairs were overturned.— Window glass was broken. Women shrieked. Men yelled. We have no wish to make fun of an affair which has caused profound regret among the religious people of Geauga. We merely relate the facts. The matter is in litigation.—Cleveland Plaindealer.

The cattle disease still prevails to an alarming extent in parts of Massachusetts.

From all parts of New England, we hear complaints of the long-continued drought.

THE JAPANESE AT WASHINGTON.—Whether drawing is natural to the Japanese or whether the delegation sent out have been selected for their ability in art, is not stated, but their expertness in sketches and drawings of everything which they see, and the rapidity with which they execute the work is matter of surprise to all spectators. On their arrival at Washington they would not land until the historian of the Embassy had written an account of the events of the moment, and till the draftsman could complete their sketches of the interesting scenes around them. The historian had his bronze inkstand hanging to his dress, and a roll of paper some yards in length, indeed of indefinite length. This was the opening of a new chapter. He slipped a small brush out of the handle of the ink-stand, and commenced writing with great diligence and rapidity and neatness. Great importance was evidently attached to this record, and no doubt it is under positive instructions. The personnel of the Japanese party is striking. They are in appearance effeminate, and very like the better looking squaws of our Indian tribes. They do not look as though they could fight, though they might run. They are but Oriental foxes among Anglo-Saxon wolves. Every body is struck by their apparent good nature and their polite manners. The Washington correspondent of the *Journal of Commerce* says:—"The chief envoy replied to the Mayor's address, in words interpreted to mean, 'I thank you for the honor and the compliment.' A rude platform was prepared for the Japanese and their escort of naval officers in full uniform. On one side they passed by the military, while on the other was a long and bright array of women and children. Carriages were not admitted into the yard, and therefore the ladies formed a line opposite the military. First came the Treaty Box, in red, three or four feet square, carried on the shoulders of several men. Behind this walked the chief envoy, in a rich dress, and alone, keeping his eyes steadily fixed on the Treaty Box. He walked lightly and gracefully, and only a glimpse could be had of his features. Following him at short distances, passed, too, quickly the other Envoys and officers of the Embassy, each accompanied by naval officers in full uniform. The principal men walked with one or two naval officers. Some of the Japanese suite walked two and two with an officer as an escort. What a contrast between the small, slight, feminine Asiatic, and the tall, broad-breasted and broad-shouldered European-American. Some of the Japanese appear to be very observant and intelligent and all wore a cheerful aspect. There are wags among them, that is certain. I saw one of them nudge the other, with a sly wink, when they approached a bevy of beautiful and laughing girls. The Japanese both immediately hid covered their faces with their fans."—Boston Traveller, Monday.

OCCASION.—We are indebted to Joseph Burnett & Co., of Boston, for the gift of this new and really superior preparation for the hair, and after a thorough trial, upon our own caput, and the top-knots of the barbers, we have no hesitation in expressing our humble conviction that it is the finest hair dressing liquid of which we have any knowledge.—Norwalk Gazette.

Coughs, Colds, Bronchitis, Asthma, Croup, Whooping Cough, Diseases of the Throat and Lungs, and Pulmonary Affections of the severest type, are quickly cured by that long tried and faithful remedy,

DR. WISTAR'S BALSAM OF WILD CHERRY. Says a well known Editor:—"This is truly a Balsam and a blessing to invalids. It contains the true balsamic principle of Wild Cherry, the balsamic properties of tar and of pine. Its ingredients, which are mingled after the true principle of chemistry, are all balsamic, and therefore it is safe and sure in effect. Coughs, Colds, Consumption, and Bronchial troubles disappear under its balsamic influence as though charmed away. Probably no medicine has ever attained so extended a sale or accomplished so much good as this renowned Balsam."

Cassville, Ga., February 26, 1858. Messrs. Seth W. Fowle & Co., Boston, Mass. Gentlemen,—At the request of your Travelling Agent, I give you a statement of my experience in the use of Dr. Wistar's Balsam of Wild Cherry. I have been using it for two years in my family, for Coughs and Colds, and have found it the most efficacious remedy that I have ever tried.

For Coughs and Colds in children I know it to be an excellent medium. Respectfully yours, JOHN H. RICE.

BY THE LATE FOREIGN MAILS.

Rev. Francis Mason writes from Tongoo, China.— "There is no medicine in so constant demand as the PAIN KILLER, and I cannot fancy the limit to its sale, did I always have it on hand. Please send me forty-eight boxes without delay." Rev. G. P. Watrous, writing from Shwaygyeen, Burmah says:—"There is a great demand for your PAIN KILLER at this station. We consider it almost one of the necessities of life. Please forward twelve boxes (via Calcutta), by first opportunity. I enclosed a draft on Treas. A. B. M. Union for the amount." Rev. B. C. Thomas writes from Henthada—"I am sorry to say that I have no PAIN KILLER now on hand, and have not had for a month past. By some combination of circumstances two boxes reached me at once; I then thought it would be difficult to dispose of so much, but it is all gone, and I had ordered some from Ragoon, but failed to get it. The fact is the PAIN KILLER is becoming popular in these parts not only among the natives, but also among the British officers and residents. More has been bought by the natives of late than usual, for the reason the cholera has been prevalent.

AYER'S CATHARTIC PILLS. Are you sick, feeble, and complaining? Are you out of order, with your system deranged, and your feelings unquiet? These symptoms are often the prelude to serious illness. Some of sickness is creeping upon you, and should be averted by a timely use of the right remedy. Take Ayer's Pills, and cleanse out the disordered humors—purify the blood, and let the system move on unobstructed in health again. They stimulate the functions of the body into vigorous activity, purify the system from the obstructions which make disease. A cold settles somewhere in the body, and obstructs its natural functions. These, if not relieved, react upon themselves and the surrounding organs, producing cerebral congestion, and disease. While in this condition, oppressed by the derangements, take Ayer's Pills, and see how directly they restore the natural action of the system, and with it the buoyant feeling of health. These are true and so apparent in the mind and common complaint, is also true in many of the deep-seated and dangerous distempers. The same purgative effect expels them. Caused by similar obstructions and derangements of the natural functions of the body, they mean. None who know the virtues of these pills, will neglect to employ them when suffering from the disorders they cure.

Statements from leading physicians in some of the principal cities, and from other well known public persons. From a Forwarding Merchant of St. Louis, Feb. 4, 1856. DR. AYER'S Pills are the paragon of all that is great in medicine. They have cured my little daughter of her colic, and her mother has been long and grievously afflicted with blotches and pimples on her skin and in her hair. After our child was cured, she also tried your Pills, and they have cured her.

As a Family Physic. From Dr. E. W. Cartwright, New Orleans. Your Pills are the prince of purges. Their excellent qualities surpass any cathartic we possess. They are very mild, but very certain and effectual in their action on the bowels, which makes them invaluable to us in the daily treatment of disease.

Headache, Sick Headache, Foul Stomach. From Dr. Edward Boyd, Baltimore. DEAR BRO. AYER: I cannot answer you what complaints I have cured with your Pills better than to say all that we ever treat with a purgative medicine. I place great dependence on an efficient cathartic in my daily contest with disease, and believing as I do that your Pills afford us the best we have, I of course value them highly.

PITTSBURG, Pa., May 1, 1855. DR. J. C. AYER. Sir: I have been repeatedly cured of the worst headache any body can have, by a dose or two of your Pills. It seems to arise from a foul stomach, which they cleanse at once. Yours with great respect, ED. W. PREBLE, Clerk of Steamer Clarion.

Bilious Disorders—Liver Complaints. From Dr. Theodore Bell, of New York City. Not only are your Pills admirably adapted to their purpose as an aperient, but I find their beneficial effects upon the liver very marked indeed. They have in my practice proved more effectual for the cure of bilious complaints than any other remedy I can mention. I sincerely rejoice that we have at length a purgative which is worthy the confidence of the profession and the people.

DEPARTMENT OF THE ARMY. Washington, D. C., 7th Feb. 1856. SIR: I have used your Pills in my general and hospital practice ever since you made them, and do not hesitate to say they are the best cathartic we employ. Their regulating action on the liver is quick and decided, and frequently they are an admirable remedy for derangements of that organ. Indeed, I have seldom found a case of bilious disease so obstinate that it did not readily yield to them. Fraternalty yours, ALONZO HALL, M. D., Physician of the Marine Hospital.

Dysentery, Diarrhea, Relax, Worms. From Dr. J. G. Green, of Chicago. Your Pills have had a long trial in my practice, and I hold them to be one of the best agents I have ever found. Their alterative effect upon the liver makes them an excellent remedy, when given in small doses for bilious dysentery and diarrhoea. Their sugar-coating makes them very palatable and convenient for the use of women and children.

Dyspepsia, Impurity of the Blood. From Rev. J. V. Himes, Pastor of Advent Church, Boston. DR. AYER: I have used your Pills with extraordinary success in my family and among those I am called to visit in distress. To regulate the organs of digestion and purify the blood, they are the very best remedy I have ever known, and I can confidently recommend them to my friends. Yours, J. V. HIMES.

ARSAW, Wyoming Co., N. Y., Oct. 24, 1855. DEAR SIR: I used your Cathartic Pills in my practice, and find them an excellent purgative to cleanse the system and purify the fountains of the blood. JOHN G. MEACHAM, M. D. Constipation, Costiveness, Suppression, Rheumatism, Gout, Neuralgia, Dropsy, Paralysis, &c.

From Dr. J. P. Vaughn, Montreal, Canada. Too much cannot be said of your Pills for the cure of costiveness. If others of our fraternity have found them as efficacious as I have, they should join me in proclaiming it for the benefit of the multitudes who suffer from that complaint, which, although bad enough in itself, is the precursor of others that are worse. I believe costiveness to originate in the liver, but your Pills affect that organ and cure the disease.

From Mrs. E. Stuart, Physician and Midwife, Boston. I find one or two large doses of your Pills, taken at the proper time, are excellent promotives of the natural secretion when wholly or partially suppressed, and also very effectual to cleanse the stomach and expel worms. They are so much the best physic we have that I recommend no other to my patients.

From the Rev. Dr. Hughes, of the Methodist Epis. Church. PULASKI HOUSE, Savannah, Ga., Jan. 6, 1855. HONORED SIR: I should be ungrateful for the relief your skill has brought me if I did not report my case to you. A cold settled in my limbs and brought on excruciating neuralgic pains, which ended in chronic rheumatism. Notwithstanding I had the best of physicians the disease grew worse and worse, until by the advice of your excellent agent in Baltimore, Dr. Mackenzie, I tried your Pills. Their effects were slow but sure. By persevering in the use of them, I am now entirely well.

SENARS, Canton, Baton Rouge, La., 5 Dec., 1855. DR. AYER: I have been entirely cured by your Pills, of Rheumatic Gout—a painful disease that had afflicted me for years. VINCENT SLIDELL.

Price, 25 cents per Box, or 5 Boxes for \$1. Prepared by Dr. J. C. AYER & CO., Lowell, Mass. Lyman, Savage, & Co., at Wholesale and Retail; and by all the Druggists in Montreal, and throughout Upper and Lower Canada.
