

on otherwise healthy women. The new canal is prepared and plugged with iodoform gauze till its inner surface is covered with healthy granulations, and is then lined either by several single flaps which are kept in position by a tampon, or a lining is formed by sewing a number of flaps together round a Cusco speculum, and introduced with its wounded surface external into the granulating canal, and fixed by a tampon, which in either case is not removed for eight or ten days.—*Brit. Med. Jour.*

“MR. S. H. KENNEDY, Dear Sir,—Your remedies are certainly par excellence in diarrhoea, especially the *old army diarrhoea*, as I treated an old soldier with it who told me he had tried all the professors in New Jersey and Philadelphia, and never till I gave him your “*Quercus Alba*” did it tell him anything, and I have quite a run on chronic diarrhoea of army

life. Yours, etc., D. A. STUBBS, M.D., Graduate of the Jefferson Medical College, Philadelphia, Pa., Class of 1876.”

Oxford, Pa., July 24th, 1896.

PATIENT—What, doctor! One dollar a visit! Physician—Why, that's not much. It's less than most of my patients pay. Patient—That may be, doctor, but remember it was I who brought the fever into the neighborhood.

SANMETTO IN BRIGHT'S DISEASE.—Dr. C. E. Stafford, Trigg, Va., writing, says: “I have used Sanmetto with the very best results. I succeeded in making a case of Bright's disease much more comfortable by the use of Sanmetto, and am satisfied it should be used oftener in this disease. I regard Sanmetto as an efficient and elegant remedy for diseases of the genito-urinary organs.”

## BLAUD'S PILL CAPSULES

Equal to 1, 2 or 3 Blaud's  
Pills, and Capsules of

In boxes of two doz.  
and one hundred

## BLAUD'S PILL with ARSENIC

These far surpass Blaud's Pills in efficacy,  
as they neither oxidize nor harden
