

a fight we may have to put up to
conserve our Canadian lakes.

If Chicago wins the case they drain us
of water belonging to the 5^{th} lake system.
& under present scheme propose to take
 $2\frac{1}{2}$ times the amount they are already
taking which has now lowered the lakes
already $3\frac{1}{2}$ feet.

Canada's only alternative then w^d be
appeal to the Hague; & would this be worth
while; could League of Nations enforce
& would USA abide by decision of
Hague or arbitrations?

He definitely opposes the international
Canalization of S^t Lawrence, & says in the
interests of Canada let each build
