Professor W.H. Hatcher, Ph.D.,  
Department of Chemistry,  
McGill University.

Dear Dr. Hatcher,-

I regret very much the delay in responding to your request for the enclosed schedules. We have a secretary for only half-time, and there was already work on hand which it was essential that she complete before these schedules could be typed. I also regret very much that I was not in the office at the time that you were good enough to call on us. I should like some time to have a chat with you.

Hoping that this delay has not caused you any inconvenience, I am

Yours sincerely,

*Bertha Harmer*  
Director.
