Hazen's Clear-Cut Announcement of Policy Cheered by Opposition—Murphy Hin ts That Mysterious Yacht Helped Conservatives to Carry By-Election in Cha-

ottawa, Feb. 2. — The house spent practically all of today in committee of supply. The opposition was not at all truculent and the civil government estimates, never very contentious, were pretty well disposed of. E. M. Macdonald, the Liberal member for Pictou, N.S., denounced the recent cruise of the revenue cutter "Alert" as something worse than the famous trip of the "Minnie M," and Hon. Charles Murphy talked of a mysterious yacht which appeared in the River St. Lawrence during the Chateauguay contest and mysterious. mittee of supply. The opposition was not at all truculent and the civil ter "Alert" as something worse than the famous trip of the "Minnie M," Chateauguay contest and mysteriously disappeared in the government shippard at Prescott. Mr. Murphy failed to explain the connection between the mysterious boat and the by-election and the government, tho Hon. Dr. Reid denied all knoweldge of the unchristened craft. Made-in-Canada Ships. Hon. J. D. Hazen, minister of

marine, was heartily applauded by all the members, irrespective party, when he announced that all vessels for his department would be built in Canada so long as he was minister. He thought that Canadian ship building should be encouraged, but it was impossible to encourage it by imposing tariff duties against British vessels, and he was not certain that public opinion would favor the payment of bounties to Canadian ship builders.

"Obscene" Literature.

When the orders of the day were called, Hon. Rodolphe Lemieux complained that obscene literature was being distributed thru the house of commons postoffice to the members without being either stamped or franked.

Postmaster-General Pelletier denied alknowledge of the matter, but protested that he had no jurisdiction ever the postoffice of the house.

Mr. Speaker Sproule said the literature had not come under his observation, but that he would immediately investigate the matter.

the matter.

It appears that copies of a small paper or leaflet called "The Liberator," published in Ottawa, had been placed in the postoffice boxes of the members. The matter complained of is contained in an article attacking the confessional.

The house then got into supply after hearing another complaint from Mr. Hughes (Kings, P.E.I.), respecting the increased freight rates upon the Prince Edward Island Railway, and an objection from Mr. Martin (Montreal) that the estimates were not printed in the French language.

Replying to a suggestion that government vessels should be built in Canade Hon. J. D. Hazen, minister of marin announced the policy of his department All tenders calling for the constructio of vessels for the marine and fisheric department required the vessels to built in Canada. The Canadian ship building industry in his opinion had great deal to contend with. No tarif protection could be afforded them be cause we could not exclude ships of Brish register from Canadian waters.

Ships built in Britain not only cam in duty free, but so did all their equipment, even to china and glasswar Wages and material were cheaper in England than in Canada, and the department

the bureau of municipal research on the civic finances was issued yester-day. It finds that there is a lack of adequate supervision over the admin-istration of finances and that debenment for investigation and that such action would be taken as seemed appropriate.

Men the customs estimates were under review, E. M. Macdonaid (Pictou) threatened to obstruct supply unless some satisfactory explanation was given respecting the recent voyage of the revenue cutter "Alert" from Sydney to Victoria County, C.B., where a by-election was in progress. He repeated the charge recently made by Mr. Carrol (South Cape Breton) that the government vessel had been used by the Conservative candidate and organibers for election purposes, and that these gentlemen had been carried to the scene of action, together with a considerable amount of fluor intended for distribution among the electorate. He said that it was a much worse case than that of the famous "Minnie M."

Hon. J. D. Reid, minister of customs, promised an immediate investigation. If there had been any misconduct it had been committed by the local officials without any direction from Ottawa. He could not undo what had been done, but he would deal with the matter as the facts of the case could be ascertained.

Low, Raktsh Craft,

Hon. Charles Murphy (Russell) created a mild sensation by describing a mysterious yacht which put in port at Valleyfield, Que., while the Chateaugusy by election was in progress.
