The business of making Fur Garments with us has grown beyond our greatest hopes. Four factories were working overtime last week to keep up with our orders, but this week finds us prepared to handle your order with despatch.

FACTORY NO. 1 is devoted entirely to the making of Alaska Seal and Persian Lamb Jackets. It is here that the pelts are sorted, treated and cut into garments under the supervision of two Parisian overseers. Special fitters and designers are employed to look after the balance of the work.

FACTORY NO. 2-All descriptions of Ties, Scarfs, Ruffs, Muffs and small garments are manufactured here, and great care is essential by those in charge in matching the skins and completing the garments.

ACTORY NO. 3-For the making of Men's All-Fur and Fur-Lined Overcoats. These coats are made by expert tailors-only men are employed in this factory, and the designing and cutting is under the direction of three experts.

FACTORY NO. 4-Here we make only Ladies' Fur-Lined Coats, and in this factory, as in others, great care is exercised in selecting and matching fur, also in the cutting and finishing of the cloth.

You will notice that all these factories have individual cutters who have been trained specially for the work. The showroom is a complete storeroom in itself. Here ladies may select the fur to be used, the linings and, in the case of fur-lined coats and capes, the cloth. Don't leave your order any later. Call today or write for a catalogue.

liam Mortimer Clark on Saturday af-ternoon officially opened "Marcello Hall," the handsome new building recently erected in connection with the Alexandra Industrial Home. His honor briefly reviewed the his-

tory of the institution and declared that the founding of institutions of a like nature had wrought incalculable good. He expressed hearty sympathy with the movement.

President Falconer conveyed kindly greetings and paid a glowing tribute to the self-sacrificing work of the directors and management generally. The influence of a true, manly and womanly life, as shown in these de voted friends, permeating the boys and girls of Alexandra and Mimico Industrial Homes, would go far toward cultivating the highest and best types

of citizenship. J. J. Kelso, Dr. R. W. Bruce Smith, Inspector Archibald, Beverly Jones, Ald. Bengough and Col. Denison spoke briefly

"I have been for 30 years police 850 magistrate of the City of Toronto," said the latter, "and I want to say right here that my purpose in coming here to-night is to bear tribute to the mighty influence which the Alexandra and Mimico Industrial schools and the Children's Shelter have exercised. The work has been of the highest charac-ter, and in view of the cry in some cuarters for a change in the general management, I want to bear testimony caring for the new arrivals, and proto the excellence of the work."

The cost is \$35,000. There are at present in the home altogether some between the ages of 10 and 16, girls and the bright, happy faces of the children, coupled with the thrift and

order everywhere apparent, reflects the greatest credit on the superintendent, Miss Parratt, and the other members of the staff

Among the visitors were Dr. J. L. Harper, superintendent of Protestant school in Quebec; W. C. Wilkinson, secretary board of education; Dr. Sisley, and many others.

## \* PUBLIC **OPINION** AGAINST THE BAR

The lot of the retail seller of liquor is not a happy one. Public opinion is now against his business on one side, and the brewers grind him down on the other. He should welcome LOCAL OPTION as a means of exit from a trade that is injurious to himself and his fellowmen. York Township voters can help the thirteen unlucky men up to a higher and better life.

of friends of the institution Sir W. Rockefeller to-day, gave the University of Chicago \$600,000 to erect the memorial library that the university will dedicate to William Rainey Harper, first president of the institu-This gift makes Mr. Rockefeller's total donation aggregate \$28,000,000. Work on the Harper Library will be begun next spring.
