Rioting and Bloodshed at Prague, Bohemia.

CZECHS ATTACK GERMANS.

Three Hundred of the Latter Are in the Hospitals.

The Trouble Arose Over the Proposal to Make the Teaching of German in the Schools Obligatory—Anyone Heard Speaking the German Language Was Sure to be Attacked—The Disturbance Amounts Almost to an Open Rebellion—Cable News.

Prague, Dec. 1.—As a result of the riots and disorders of the last twenty-four hours the authorities have proclaimed the city under martial law. The chief of police, who is a Czech, was discovered encouraging rioters and has been suspended from office. It is now known that the number of injured Germans reached 300. They are being cared for at the various hospitals.

The disturbances to-day have amounted almost to a rebellion. Thousands of Czech miners streamed into Prague this evening from the surrounding villages to assist the rioters. The scientific instruments in the German university and high school have been destroyed, and valuable archives preserved for a long time at the Kinsky Palace, the largest in the Altstadt, have been burned.

Two special sufferers from the riots are Baron von Achenthal, a representative of the German land-owners in the Reichsrath, and Count von Salla. Baron von Achenthal's palace is on the Wenzelsplatz. The mob smashed the windows and tore out the window frames, and threw large stones at the windows. Similar outrages were committed in other parts of the city.

On the night the Achenthal palace was boarded up, but the rioters soon returned and threw large stones into the luxuriously furnished rooms, smashing valuable objects of art and costly furniture. Damage to the amount of many thousands of dollars had been done to the palace. The rioters also destroyed the German property of the German proprietors or patrons. No performers were given at the German theatre to-night.

The constant cry of the rioters was "Down with the Jews!" Ladies venturing on the street were obliged to be accompanied by men in order to avoid being attacked. German military officers are being hastily recruited. Nobody dares to utter a word in favor of the rioters. The rioters destroyed the furniture, which was thrown through the windows. The rioters also destroyed the German property of the German proprietors or patrons.

Another Gold Brick Turned out by the Hammond Ref Gold Mining Co. with the Hammond Ref Gold Mining Company Working Seventy-seven Ounces.

The stamp mill of the Hammond Ref Gold Mining Co. has turned out a second gold brick weighing 77 ounces. Two hundred and four tons of ore were crushed, producing \$8.54 per ton, or about \$1320 in all. The brick is on its way east from Bonaventure Station. The ore from which it was crushed was taken from locations 327 and 328 X. The ore which produced the brick formerly reported came from location 326 X. As the reef is immense in extent and the ore is rich, these results are very encouraging.

The latter are said to have evacuated Meehem previous to its occupation by the Anglo-Egyptian troops. Meehem is less than 150 miles from Omdurman.

War Cloud Looming Up. Probably that Germany and the celestials may have come to blows. London, Dec. 1.—A special despatch from Shanghai says that the Japanese newspapers are discussing the probability of war between Germany and China, as the result of the occupation of Kiaochow and the German Bay by the German fleet. It is reported in the street that the German fleet is in the bay, and will hold 100,000 yards.
