These 800 Acres Were the First Claims Staked in the Rich Larder Lake Field

Last summer, before any staking had been done in the Larder Lake region, our experts located TWENTY gold-bearing claims, amounting to eight hundred acres, two miles north of Wilson's Bay of Larder Lake. (You can have a map of the property for the asking). On some of the claims there are wide reefs that assay from \$7 50 to \$18 a ton. We have assays on file that show as much as \$1,800 a ton. There is no richer property in the country—and Larder Lake is as RICH AS THE FAMOUS RAND of South Africa. All our heldings are in ONE BLOCK, which means economy in working the claims. The ore on these properties is FREE-MILLING—we have our own waterpower on the property. We have an abundance of wood and water-every item that counts in the economical operation of gold mines. Our expenses will be far lower, and our assays are higher than those of mines which have paid seventy million in dividends—and our ore will grade far higher.

We have nothing to hide, nothing to lie about. We ask you to learn the simple facts, and we are ready to put them before you and to prove to you that

STOCK MARKETS. TORONTO.

Toronto Junction, May 20.—Trade was only fairly brisk at the Union stockyards today. The run consisted of 100 carloads, containing 2,092 cattle, 55 sheep and 47 calves. The demand was rather slow, on account of the large run, and also on account of the longshoremen's strike, which causes a delay to the shippers in getting their cattle embarked. The cattle were of good quality, and some very fine cattle were of good quality, and some very fine cattle were of fered. Prices were firm for the better grades of cattle, but were off for Lepoiters' cattle held their prices well. Prices ranged from \$5 10 to \$6 40, with a few extra choice loads going at 5c and \$5 25 and \$5 35. Bulls sold at \$4 15 to \$4 40.

Publications at Second-Class Rates.

Washington, May 21. - Through Postmaster-General Lemieux, the Government of Canada has notified the postoffice department here that it will e impossible for the Canadian postal department to handle second-class mail matter sent to that country from the United States, by either express or freight, and mailed there.

Some time ago a commission was disturbances began. sent to Canada, to adjust, if possible, the differences between the two countries, respecting the handling of secwards, American publishers suggested venge unchecked. from the United States to Canada, The tragedy which led to rioting was either by express or by freight, and as follows: While the superintendent

matter up with the Canadian officials, the office and hurried away. The maurging strongly that the suggested ar-chine exploded almost immediately afrangement be made. The Canadian terwards, killing the chief of police and postal department, however, repiled the two chief detectives of this city.

Meyer explained today that as soon as a specific case of refusal on the part of the Canadian Government to handle Canadian second-class is called to his attention, he will be forced, in the cirterly hated by the ferrorists one of cumstances, to issue an order that States cannot be handled at the second-class rate.

SLATER HAS SERIOUS FALL oners.

Collapse of Platform Causes Injuries That May Prove Fatal.

William Crayston, a slater employed in the erection of the new All Saints' Church, fell a distance of 30 feet yesterday afternoon, and sustained serious injuries, which may result in his death.

Crayston, who is a young man, and single, was working on a scaffold on a small porch, about 30 feet from the ground, when the plank on which he was standing collapsed. Dr. English was called, and had the injured man removed to Victoria Hospital, where it was found that he had sustained broken ankle, a broken nose, and in ternal injuries the extent - of which

cannot yet be learned. The scaffold on which Crayston was working when he fell had previously been used by two carpenters, and was thought to be safe. It is thought that the unfortunate man piled too much slate, which he was about to use, on

the planks. The injured man is in a critical condition, but it is hoped that he will recover.

CONNERS AND HEARST OUT

Former Is Also "Out" \$68,000 Spent Trying to Elect Publisher.

Buffalo, N. Y., May 20.-William J. Connors, Democratic state chairman, has broken with William R. Hearst. Aside from the political complications involved, is a question of some \$68,000. Mr. Conners has not yet denounced Mr. Hearst in his papers, but

Mr. Conners is sore.

Mrs. Winslow's Soothing Syrup

icanisms is the use of "limb" for "branch." "Limb" for "leg" has always been accepted as an American prudary, but what is the matter with "branch"? Careful Angiophile writers are beginning now to reintroduce this latter word, but "limb" has hitherto been the transatiantic word with all authors. ways been accepted as an American

Assassination of Three Police Officials.

Odessa, May 20.—Following the assassination of three police officials here today, serious rioting occurred, and this evening the "black hundreds" were running wild through the streets, mercilessly beating people, particularly Jews, more than a hundred of whom were seriously injured soon after the

Odessa, May 21. - Fifty-three persons were taken to the hospitals suffering from broken heads or limbs, or otherwise dangerously injured, as a result of the outbreak of the Black Hundreds here yesterday, following the assassination of three police officers. In addition about a hundred persons were less seriously injured. The victims included women, children and students. It is alleged that, but of revenge for the assassination of the three officers, whom the Jews had nicknamed "the three heroes of the anti-Jewish riots," the police turned the Black Hundreds loose, armed with clubs and rubber sticks. Jewish pedestrians were brutally beaten, and many houses in the Jewish quarter were looted, and their occupants assaulted. The disorders lasted for some hours, the police making no attempt to suppress it. Further outrages are expected.

CRIME TO AID SCIENCE?

France May Use Murderers in Medical and Surgical Experiments.

Paris, May 20.—Pasteur's famous remark made twenty years ago when experimenting with the prophylactic serum of rabies upon animals that if he were king, emperor, or president of the republic he would reprieve prisoners condemned to death on condition that they underwent inoculation tests has been revived this week by a Parisian doctor, who sees in the idea the solution of the problem of what to do

with the murderers. The situation in France in this respect is a peculiar one. Since July, 1906, to the present time, nearly thirty murderers in France and the colonies have been condemned to death and he no longer says nice things about none executed. It is generally supposed the sentences were not carried out It is understood that last fall Con- because the budget commission of the ners asked Hearst for some money for chamber of deputies last year threw the state committee and received as- out the appropriation for working the surances that the paltry sum demand- guillotine, but this is not the cause, for ed, some \$100,000, would be forthcom- the deputies later voted the usual fund ing.
