

Red Rose Tea costs more than other teas. It costs us more, costs the grocer more and costs you more. It should be better than other teas.

LONDON AUTO SHOW OPENS AT ARMORIES

Mayor Little Conducts Initial Formalities Before Crowd of 2,000 Visitors—Wondrous Array of Cars, Trucks and Automobile Accessories—Closed Cars Are Outstanding Feature of Exhibition.

With music and speeches and a wondrous array of automobiles, the 1st annual London Motor Show, held under the auspices of the London Automotive Retailers' Association and the London Chamber of Commerce, opened on Monday night in the armories. Before a crowd, estimated by the officials to be at 2,000, scattered amid a maze of cars, Mayor Little and Alderman John Bridge conducted the opening formalities from the balcony.

To one used to the more or less luxury car of the war years the sight of so many richly-built and beautifully-lined motor cars was a revelation, and to say the least, somewhat bewildering. Luxury and beauty of finish seemed to be the keynote of the whole exhibition, for these qualities were incorporated even in cars built for the most practical purposes. The cars clearly show an evolution which carbuilding is evidently passing.

Closed Cars a Feature. Of the 75 cars gracing the main floor of the armories, closed cars play a prominent part. In fact, it was roughly estimated by the directors of the show that this class of automobile formed 50 per cent of the total exhibits. This fact, they claim, indicates much to those who are in touch with the automobile business. The car of the future would be the closed car, was the prophecy of T. C. Kirby, manager of the show. A few years ago, he claimed, the closed car formed a small percentage of the total output. Today it is 40 closed to 50 open cars. In the near future there will be a far greater demand for closed cars of every description.

Although closed cars form such a large part of the exhibits, the exhibit of open touring cars and roadsters of every style and color imaginable is an extraordinary spectacle. The great feature of this class of cars is the number of new ideas introduced generally.

The cars on exhibition involve an enormous amount of money, for they range in value from the homely car at \$500 to the luxuriously-appointed creation valued at \$12,000. With the average placed at \$4,000, the total value of the exhibit will run well over \$300,000.

Trucks Big Exhibit. Besides the pleasure car, the commercial truck plays an important part in the exhibition. Among the different exhibits, trucks of all descriptions are scattered and a room at one end of the building is utilized entirely as a truck showroom.

Along one side of the main room, automobile accessories, tires, garage equipment, demonstrations of shock absorbers, non-glare lenses and bicycles have been put on exhibition by London merchants. The most unfavorable conditions. He told of the havoc the luxury and war cars had wrought with the automobile trade, and how as a result many dealers and firms had been forced to close. He said that the tax was most unfair, and that it

ASK THAT WOODMAN AVENUE BE EXTENDED

Petition To Be Presented to No. 2 Committee.

MORE GRAVEL ROADS

And Provision for Relieving Unemployment Will Also Be Discussed.

Opening Woodman avenue from the city council at its meeting tonight. The present street, which is located between Quebec and Charlotte streets, is only one block long, extending from Dundas street to Queen's avenue. Residents of the little thoroughfare claim that comparatively few changes would be necessary to extend the street another two blocks. They will present a petition to this effect to the committee tonight.

Provision for relieving unemployment by authorizing further public works will be another matter for consideration. A report from the acting city engineer on the advisability of laying a number of gravel roads is expected. A report from the acting city engineer on the advisability of laying a number of gravel roads is expected. A report from the acting city engineer on the advisability of laying a number of gravel roads is expected.

MANY DELEGATES TO ATTEND PROVINCIAL "DRY" CONVENTION

London Churches and Organizations to Send Representatives.

Every organization in the city that is interested in temperance will send one or more delegates to the Ontario provincial prohibition convention, which will be held in Massey Hall, Toronto, on February 22, 23 and 24. The meeting is an annual one, but has been called at this date expressly for the purpose of discussing the campaign in which every society and organization in the province is working for prohibition. It will take an active part, Professor James H. Bowman, chairman of the county temperance organization, announced.

The objects of the convention, Professor Bowman stated, were to win decisively in the coming campaign to prohibit liquor importation, to continue education for propaganda to establish and improve laws and to maintain organized efforts for effective law enforcement. The convention will also discuss the various methods of enforcing the law, and will appoint delegates to the convention to be held some time prior to this date.

STEPPED OFF MOVING CAR; HEAD BADLY CUT

Newton Snowden Hurt at Hamilton Road and Adelaide Street.

Newton Snowden, 563 Grey street, was taken to Victoria Hospital in the police ambulance about 10 o'clock last night, suffering from a severe head gash. Harold Blackburn, a street-railway conductor, who was waiting with Snowden at the Hamilton road and Adelaide street when the ambulance arrived, stated that Snowden stepped off Oxford car No. 57, while it was in motion. The car continued the trip with the motor-man in charge, the conductor summoning aid for the injured man. After Snowden's wound had been dressed by Dr. Douglas, house surgeon at the hospital, he was taken to his home.

To Cure a Cold in One Day Take GROVE'S Laxative BROMO QUININE tablets. The genuine bears the signature of E. W. Grove. (Be sure you get BROMO.) 20c

DRURY SCORES FACTORY MONGER

Says Those Who Stir Up Ill-Feeling Are Disloyal to Nation.

Ottawa, Jan. 31.—Premier Drury was the principal speaker at the annual meeting and dinner of the Ottawa Board of Trade tonight. The premier said that since he had been brought in daily contact with the not head hunters, but hide hunters, he was losing some of his agricultural gentleness. The speaker, however, made scarcely any further reference to provincial politics dwelling instead on national ideals and the need of citizens getting into their minds a clear definition of what the nation stands for. The first thing they must recognize was the value of the human factor, he said. That they were doing this was shown in the enactment of legislation which was impossible twenty-five years ago. He inquired mothers' pensions in Ontario. In that law they recognized a new principle, that the little children were the most valuable asset they had, and that the best person to look after them was the mother. They were recognizing the human value. Nor was it class legislation. He did not believe in class legislation.

Better Understanding. They must have a little better understanding between farmers and those who were not farmers. They had to realize that they were dealing with men of flesh and blood, who think the same as they do. "And the people on the farms do a lot of mighty sound thinking," he said. They had the same life bearable for the women. They had heard of the farms being undermined. More often than not they were undermined.

Mr. Drury then turned to the other great problem if they were to have a nation built up on justice and humanitarianism—the labor problem. The solution of that problem depended on understanding it. Men say that labor is the cause of the trouble. That was not true, but there was a real and lamentable development of class consciousness on the part of both labor and capital of late through failure to understand the situation. They had to recognize the value of the man; that he was not a mere machine but a human being and a citizen. If they didn't they were going to turn him into something dangerous, and he was not normally so. He did not know whether that solution did not exist in the revival of the small workshop.

Turning to the Ontario Government, Mr. Drury said that its actions spoke for the fact that they did not believe in class legislation. They could not ever build up a stable nation group interests. They had first to build up a nation of citizens, who could think of themselves not as individuals or as a class but as a nation.

No Room for Class. "There is no room in this country," he said, "for any class or clique who think they can get away with anything by oppressing their fellows. For was there any room for racial division. The French and the English, the Irish and the Scotch, they had better make the best of each other. It was easy to get a following by preying on men's love of faction. When they stirred up faction feeling, however, reason departed. They in Canada had another great opportunity—the opportunity to solidify the English-speaking world."

"The man who stirs up ill-feeling between Canada and the United States," said Premier Drury, "is disloyal to Canada. The patriot is not he who gets up and shouts loudly, but he who gets down and thinks clearly."

Their greatest hope lay in the fact that the people were beginning to think. National wisdom did not lie in the compromise of newspaper editors nor was it all in the professional politician. It lay in the people themselves, and their lives to make their thoughts come true.

The provincial premier was given a great reception, the audience heartily cheering him. The premier made a speech. Hon. Dr. Tolmie, federal minister of agriculture, moved a vote of appreciation, which was carried with enthusiasm.

G. B. Greene was elected president of the board of directors of the Ontario Agricultural Association, succeeding John Bingham, who retired.

SEES NO EVIDENCE OF CANCER CURE

The special committee of the Academy of Medicine, named to investigate the claims of a cure for cancer, has submitted an interim report, stating that there is no evidence of "warranted hope that a specific cure for cancer has been discovered. Picture is of Dr. Glover.

TAKE CARE OF THAT COUGH Some people get a nasty cough and don't pay much attention to it, saying, "Oh, it will wear away in a short time," but while it may wear off, serious injury may have been done to the lungs and respiratory organs, the prolonged, harsh, racking coughing.

On the first sign of a cough or cold get a bottle of Dr. Wood's Norway Pine Syrup. It will stop that nasty, troublesome cough, ease the tightness across the chest, and loosen the phlegm.

Mrs. Wm. Earnshaw, Apsley, Ont., writes: "Last winter I caught a bad cold, had a sore throat and a terrible hacking cough that I could not get rid of. I could not sleep at night. I tried quite a few remedies, but they did not do me much good until I got Dr. Wood's Norway Pine Syrup. By the time I had taken two bottles, my cough was all gone. I feel that 'Dr. Wood's' has no equal."

When you get Dr. Wood's Norway Pine Syrup, you are not experimenting with new and untried remedies, but one that has a reputation extending over thirty years.

Put up in a yellow wrapper; three pine trees the trade mark; price 35c and 60c a bottle, manufactured only by The T. M. Milburn Company, Limited, Toronto, Ont.

All Carpets, Rugs and Linoleums At February Sale Prices

If you have been putting off renewing your floor coverings—the living-room, dining-room, bedrooms, halls or kitchen—on account of the constantly increasing prices during the past few years, now is your opportunity to get our standard qualities at February sale prices, in an extensive assortment of patterns.

At a 10 per cent reduction on everything in this section, and many lines reduced to a much greater extent.

All Carpets, Rugs and Linoleums In the February Sale At Reduced Prices

CROSSLEY'S ENGLISH VELVET RUGS—February Sale Prices: 9x9 feet, \$49; 9x10 feet 6 inches, sale price, \$65; 9x12 feet, sale price, \$75; 10 feet 6 inches by 12 feet, sale price, \$99.

WILTON RUGS.

Size 6 feet 9 inches by 9 feet, February Sale prices, \$49.50, \$54, \$65.70 and \$72.

HIS MASTER'S VOICE Daily Concerts—Victrola Department Third Floor.

JOINT CONTROL OF LAKE LEVELS

Premiers of Ontario and Manitoba Agree on Lake of Woods.

[Special to The Advertiser.]

Ottawa, Jan. 31.—At a conference today between members of the Federal, Ontario and Manitoba Governments, and officials of the water powers branch of the department of the interior, an agreement was reached by which it is hoped all interests may be protected in the matter of the water powers of the Winnipeg and English Rivers. Under the arrangement, a joint board of control, consisting of two Federal and two Ontario representatives will be created. This board will have the power:

1. To control the level of the Lake of the Woods between certain elevations fixed by the International Joint Waterways Commission.

2. To control the levels of Lac Seul, between certain elevations fixed by the two governments.

3. To control the flow of the Winnipeg River between the Lake of the

Woods and its junction with the English River.

4. To control the flow of the English River between its junction with the Winnipeg River and Lac Seul.

At the conclusion Premier Mitchell and Sir James Louchard declared that all difficulties would be satisfactorily overcome by this arrangement, which would shortly be ratified by concurrent legislation of the Federal and Ontario legislative bodies.

Manitoba apparently is satisfied with the protection promised, and will have no representative on the control board. "Questioned as to the result of the conference Premier Drury had 'nothing to say'."

SAY MILK PRODUCERS GENEROUS TO BUYERS

Toronto, Feb. 1.—Ontario milk producers have been treating the consumer with great generosity, according to a report presented to the Ontario department of agriculture, by the committee on milk production costs, which was appointed some time ago by the Government to investigate the price of producing milk.

The report states that between September 1st and January 1st, 1921, the cost of producing 100 pounds of milk declined 31½ cents. Last fall the producers reduced their prices 35 cents per eight-gallon can, which was equivalent to a reduction of about 45 cents per 100 pounds.

While there is an indication that the cost of labor will decrease, there is no evidence of reduction as yet, according to the report. Wages remain up, but the cost of feeding cows has dropped about 25 per cent.

E. S. Archibald is chairman of the committee.

WORKED ALL NIGHT TO GET LIQUOR OUT

Regina, Sask., Jan. 31.—Twenty employees of the Dominion Express worked all night last night loading the last shipment of liquor to be sent from Regina prior to the coming into force of prohibition of import. The shipment consisted of 5,000 cases of liquor, valued at \$250,000, which is consigned in case lots to individual purchasers in Manitoba.

HOPES SESSION WILL BE OVER BEFORE EASTER

Toronto, Jan. 31.—The Drury Government hopes that the present session of the Ontario Legislature will be over before Easter. In order to bring this about, it is likely that night sessions will be started at an early date, probably this week.

lent to a reduction of about 45 cents per 100 pounds.

STRIKE FREE GOLD IN MANITOBA MINE

The Pas, Man., Jan. 31.—A strike of free gold in the shaft of the Pas mine, at Herb Lake, at the depth of 215 feet, is reported. Samples of the ore have been received, with it is claimed, gold showing through generously.

PRESENTED WITH BIBLE.

An enjoyable surprise party gathered at the home of Mrs. Thomas Roe, 25 Carlton avenue, last evening, when Jack Pruin, was presented by his fellow-members in the Gladiators' class of Maitland Street Baptist Church with a Bible. Games, music and refreshments were items in a pleasant social evening.

OLD FOLKS' COUGHS, CATARRH, BRONCHITIS QUICKLY RELIEVED

This Tells of a Method That Relieves Without Using Drugs.

Elderly people take cold easily. Unlike young folks, they recover slowly. That is why so many people past middle life die of pneumonia.

Cough Syrup seldom does much good because they upset digestion. Any doctor knows that a much more effective treatment is "CATARRHOZONE," which heals and soothes the irritated surfaces of the throat.

In using Catarrhozone you do not take medicine into the stomach—your simply breathe into the throat, nose and lungs rich, piney, balsamic vapor, so full of healing power that colds, catarrh and bronchitis disappear almost instantly.

The germ-killing balsamic vapor with the Catarrhozone, descends through the throat, down the bronchial tubes, and finally reaches the deepest air cells in the lungs. Parts are soothed, and the piney, medicinal essences, whereas with a syrup the affected parts could not be reached and harm would result through burning the stomach with drugs.

A Catarrhozone inhaler in your pocket or purse enables you to stop a cold with the first sneeze. Large size costs \$1.00 and supplies treatment for two months, small size, 50c; trial size, 25c; all storekeepers and druggists, or The Catarrhozone Company, Kingston, Canada.

STARTLING FACTS BROUGHT TO LIGHT

Great interest is being aroused by the lectures given at the University of Toronto by Professor J. C. McLennan and E. F. Burton, Toronto, and Professor Silberstein of Rome University, and further development of recent discoveries will revolutionize certain industries. The age-old search for the secret of the transmutation of metals may soon prove successful. Professor McLennan inferred that investigations indicate that all substances are built up from elementary atoms of hydrogen. Photo shows, left to right, Professors Silberstein, McLennan and Burton.

TAKE CARE OF THAT COUGH
