Mayor Church Suggests New Method of City Treasury Administration.

SOLICITOR TO OTTAWA

Official Sent to Watch City's Interests Against Detrimental Legislation.

A matter of considerable importance in connection with the city's financial business was introduced by Mayor Church, at the board of contral meeting, held yesterday. He brought forward a resolution which suggested that a commissioner of finance be appointed as head of the treasury department, to take control and conduct the financial arrangements. Deputy City Treasurer Black was mentioned as deputy commissioner, and the may-or stated that he had a man in view

for the executive head. Controllers Cameron and Foster, the only other members of the board present, concurred in the principle, but believed the matter too big to be hurried thru, and as a consequence the matter was held over until today, when it is expected a full board will be on

Serious consideration arose over the prospect that bills detrimental to the city might be passed by the Ottawa parliament, and as some come up today,it was decided that City Solicitor Johnston should leave last night to watch the progress made and guard the city's interests. "The whole board should go down," commented the may cr. "because this is the most important business we have to deal with.

Committee Will Plan How to At tract Big Industries and Increase Population.

On January 13 the board of control uthorized Mayor Church to arrange a conference between representatives of the city council, harbor board of trade. Canadian National Exibition, and the Trades and Labor Council, the purpose being to report on a publicity campaign for Toronto with a view of obtaining more industries and extending Toronto's trade.

A meeting was held in the mayor's ffice yesterday, those present besides the mayor being Arthur Hewitt, president of the board of trade; Richards, president of the Trades and Labor Council: Alex. Lewis, secretary of the harbor board; Geo. Wright of the Walker House; and Jos. Hay, publicity agent for the Canadian Na-

ional Exhibition. Mayor Church gave it as his opinion that the city had great possibili-ties, and that the idea of the confernce was to arrange for some kind of publicity campaign for the city with view to attracting industries and extending the trade of the city. "In times of peace there is a national policy of protection and conservation, but in these war times it has fallen down," declared the mayor, who stated that Cleveland had received contracts for war munitions to the extent of twenty-seven million dollars, while Toronto had only re-ceived about twenty-five millions. Geo. Wright stated that in the City of Detroit they had been able to se

cure 300 conventions in one year with an expenditure of about \$10,000. Mr. Hewitt urged the getting of a big and influential man to do the work of trying to get new industries.

In order to get the work started a sub-committee was appointed to outline a course of action, those on the committee being Messrs. Hewitt, Richards, Hay, Wright, R. S. Gourlay, Controller Cameron and Ald. Maguire, the latter as chairman.

A 10 Days Flesh Building Test For Thin Men and Women Who Want to Increase Weight

Most thin, run-down men and women would probably be glad to increase their weight with ten to twenty-five pounds of good, firm, solid, healthy, stay-there flesh and fat if they believed it possible to accomplish such result by merely making the flesh-making materials in their daily meals do a little more work than they are doing now

If you are ten pounds or more under weight and believe this can't be done in your case, here is a simple, inexpensive and really harmless test that is well worth try-First weigh yourself. Then with each meal for ten days and each night as you go to bed take a single Sargol tablet. Then weigh yourself again and let the scales tell

Report Gains at Rate of Three to Five
Pounds a Week in Many Instances.
Full Directions Given.

Most thin, run-down men and women would probably be glad to increase their weight with ten to twenty-five pounds of the purpose of making it easier for your blood to accept their strength, flesh and fat-making nourishment and turn it into strength, flesh and fat upon your body.

A great many people have gladiy told that it succeeds. There are many reports like the following: "I have increased 18 pounds in less than a month," wrote a man

The tablets are small, easily swallowed, produce no disagreeable effects, contain no habit drugs, are harmless and not at all expensive, as compared with results said to be obtained.

# spent last year.

This is said to be the chief reason why most thin people do stay under weight. They are so constituted that they fail to fully assimilate the mourishment of their food, a great deal of which passes from the body as waste. Increase assimilation to normal and normal weight follows as a matter of course.

If you are ten pounds or more under

First weigh yourself. Then with each meal for ten days and each night as you go to bed take a single Sargol tablet. Then weigh yourself again and let the scales tell the story.

Sargol may not increase your weight as much as one pound a day, but with whatever increase in your weight may be shown you can decide what its continued use for a few weeks further may be able to do for you. Sargol does not of itself make fat,
