PREDICTS GIGANTIC SEA ACTIVITY SOON

Berne, April 16.—The military critic of the Basel Nachrichten believes that the entrance into the war of the United States fleet will sooner or later lead to a revival of an aggressive sea policy against Germany and will probably culminate in a gigantic battle, which will put the Dardanelles fight in the shade.

The writer says that the Allied fleets will find behind the German coast defenses "an opponent who knows what disastrous results the success of such an Anglo-American undertaking would have for his fatherland."

This observer further believes that if America attempts to transport troops to Europe, Germany will abandon her submarine campaign in the Mediterranean and mass all available U-boats against the American transports. He is dubious of the present value of America as a military aid and says that the

German People Share the Blame

Yale Professor Attacks The Obscurantists

Some Things To Remember

Citizen Soldiers Who Commit Atrocities Cannot Shift Blame to the Kaiser

Compliments of Mr. Samuel Taylor Coleridge to "those self-obscurantists whose faith dwells in the Land of the Shadow of Darkness," and will our enemies to the South take notice of a few words uttered in season by Prof. George Trumbull Ladd, a leading professor and publicist, in a lecture before the American nation of Yale to war with one eye open; that it does not have in mind all the facts, and that on this account, it may be victimized now or later by those who desire to darken counsel. Therefore, he appeals to his countrymen to wake up, to mentally retrace the steps that have been taken in the war, and to keep fresh and burning the wrongs they have suffered, and the wrongs civilization has suffered from the Hun. A somewhat similar note is struck in the New York Times by James M. Beck, the leading war publicist of the United States, when he says that if President Wilson's message had immediately followed the sinking of the Lusitania it would have found the United States in a better state of "spiritual preparedness."

The Real Facts.

Prof. Ladd says: "Lest we forget," then, and with all our talk about "Americanism" and "preparations" find ourselves in the days of supreme trial victims of an obscurantist policy, let us face anew, and face steadily and without flinching, the following facts:

First—Germany deliberately brought on this war in accordance with its settled policy of extending its empire by force of its arms and navy. For this it has built up a powerful navy and land forces, stored gold and munitions of war, invented new horrors of destruction, established a universal system of espionage and propaganda, coquetted with the Turk, bullied China, repressed Socialist movements and all efforts at a more liberal government, and fostered in its youth and children suspicion, contempt and hatred of all foreign nations and forms of culture that seemed likely to stand in its way.

Lest We Forget.

It was Germany that backed up, if it did not set on, Austria to make demands on Serbia, which it shrewdly calculated would inevitably result in war. It was Germany that refused every offer of various plans for arbitration, and hastily entered on the acts of war which made all further attempts at arbitration impossible. It set the honor of the world on a pedestal, and arrogantly proclaimed its "rightfulness" in its "Before, At and After 1914." The triumph of Germany would mean, then, the triumph of force over reason, of prompt aggression over slow efforts at delay in hope of reconciliation.

Germany Willed the War.

Second—Germany began and has throughout conducted the war with the most ruthless disregard of international law and of all previous attempts to mitigate the horrors of war by any species of humane regulation of its usages. This has been true of its armies on all its various fronts, as well as of its naval operations. Much of this conduct has been deliberate and in accordance with its policy of "rightfulness." It should be forgotten that the instruments of its cruelty were not adopted in the frenzied effort to avoid overwhelming defeat and the threatened invasion of the Fatherland. Zeppelins and submarines were devised and perfected for the very purpose for which they have been put to use. German boys have been for years playing games of dropping bombs from toy zeppelins on the coast towns of England. The poisonous gases were compounded and tested, the liquid fire invented and proved worthy, years before the war began.

Kaiser and the People One.

There is nothing new in what Prof. Ladd says; but the need of the people of the United States is not to find some thing new, more than that is the need in Canada, but to remember that which is past. It is not likely that Germany can invent in store other horrors, or worse attacks upon the liberties of the human race. It is important that the American nation should not enter the war under the hallucination that clutch-

A SPRING TONIC

Old Reliable Hood's Sarsaparilla is Pleasant and Efficient

In the spring your blood is impure and weak, eruptions appear on your face and body, you lack vitality, strength and animation, your appetite is poor and you feel all tired out.

Get Hood's Sarsaparilla from any druggist. It combines just the roots, barks, herbs and other substances that you need.

It purifies and strengthens the blood—makes the rich, red blood that you must have to feel well, look well, eat and sleep well. This is confirmed by thousands of letters from people in all parts of the country.

Hood's Sarsaparilla is the best spring medicine, but is not a stimulant or spring medicine—it is an all-the-year-round blood purifier and tonic. Remember, it has stood the test of forty years. Be sure to get Hood's, and get it today.

ed certain British and Canadian publicists, namely that our war is not being made on the German people, but on a German theory, but by a German torpedo; it was not discharged by a German junker or professor, but by a German officer. Belgium was not ravaged by Treitschke or by the German Crown Prince, but by tens of thousands of German soldiers, German agriculturists, German tradesmen, German mechanics, German lawyers and German preachers. After the German armies are defeated we must be on our guard against the obscurantists, whether knowingly pro-German or not. It is to be hoped that before the end of the war the theorists who are quieting the hearts of the German people and their Kaiser will have met the same fate as the German trenches.

MORE STRENGTH FOR FEEBLE OLD PEOPLE

If all the old people in St. John realized what Vinol will do for them, we would not be able to get enough of it to supply the demand. We quote from a recent letter received from Mrs. A. E. Carson of Kingston, N.Y.

She says:—"I am 69 years of age, and had been ailing for a long time with indigestion. I got run-down, was weak and dizzy and could not sleep at night. I consulted two doctors who said I had hardening of the arteries and at my age I should not be strong again. My daughter would give me no peace until I tried Vinol, as it had done so much for her. I have taken five bottles and feel like a new woman. My strength has come back so I am able to do all the housework for my family of four, and I am recommending Vinol to all my friends."

The reason Vinol is so beneficial to the old people is because it contains the very elements needed to replace declining strength with renewed vigor. It contains cod liver oil, iron and manganese peptonates, glycerophosphates, and a mild tonic wine.

CANADIAN WOUNDED REACHING LONDON

Injuries Are Slight, But Needed Rest After Experience at the Front—Stories of Vimy Fight

London, April 16.—A dozen Canadians, survivors mostly from shrapnel wounds, arrived in the hospital outside London, straight from Monday's great fight. They were met by a committee of the Red Cross in the morning. Before nightfall they were comfortably on the way to England, with hundreds of others. Their wounds were not serious. There were a few Russian among them.

Their wounds, as wounds go, are slight. What they want just now is a complete rest and quiet after the bitter and awful experience of Monday. None look upon their experience as light matter. The work of our army in the front line was something which even the strongest veterans cannot easily get over.

At the moment our ambulance men, along with the Medical Corps, worked like demons. There was plenty for them to do. Even before daylight some of them had been put into the cages, brought out cigarettes. They were mighty glad to be out of that outfit at Vimy. Some of them had not been there long. I heard one man who used to work in England say he had been sent to the western front a fortnight before. He had served previously entirely near Berlin. They were a fair looking lot of chaps, what I saw. Their uniforms were quite good, and they appeared well fed. Perhaps it is no wonder the others came out of their dugouts and awaited to be rounded up until our officers pointed out the way for them. Our chaps went with them to the rear.

Even before daylight some of them had been put into the cages, brought out cigarettes. They were mighty glad to be out of that outfit at Vimy. Some of them had not been there long. I heard one man who used to work in England say he had been sent to the western front a fortnight before. He had served previously entirely near Berlin. They were a fair looking lot of chaps, what I saw. Their uniforms were quite good, and they appeared well fed. Perhaps it is no wonder the others came out of their dugouts and awaited to be rounded up until our officers pointed out the way for them. Our chaps went with them to the rear.

Good Medical Service.

All the more our ambulance men, along with the Medical Corps, worked like demons. There was plenty for them to do.
