I lost money in this burglary, my character was at stake, and in order to protect myself I placed the case in the hands of the police, and neither the railway nor any one else had the right to interfere between us. The police, however, allowed the railway to take the case away from them, hush up the crime and fasten the odium upon me.

LAW ONLY SAFEGUARD.

The law, our only safeguard, is supposed to protect the citizen as well as the corporation. Neither should be permitted to use it as an engine of destruction against the other, yet this is what has happened in my case.

But in Canada, the government itself is not above the law. It has no right to interfere with the course of justice, neither can it confer that right upon employes of the railway—whence then do they derive their power?

I demand that you instruct the police to do their duty with regard to this crime, that I may not be forced to carry it to the Supreme Court of New Brunswick, as in a former case.

Sincerely yours,

GEORGE CARVILL.

A run down body is an easy prey to colds, influenza, pneumonia and other winter ills. If you let yourself get run down, you will find that the slightest exposure to a draught or dampness will often bring on a severe cold or even dreaded pneumonia.

Medical research has definitely proved that one of the causes of a run down condition of the body is a shortage of certain mineral elements, including iron, potassium, calcium, sodium and phosphorus, and until a sufficient supply of these minerals is restored to the body, good health is impossible.
