THE ROMANCE OF TARZAN TONIGHT

Imperial Will Show the Sequel To "Tarzan of the Apes" on Tomorrow and Saturday

Possibly no picture booked for the imperial in a year has created so much advance comment as the film above mentioned which is receiving its premiere at the big King Square theatre this afternoon and tonight. Its predecessor, "Tarzan of the Apes," was such a successful surprise, so different and strange, that thousands were delighted to know that it had a sequel. Now comes this new and sensational conclusion to the famous Edgar Rice Burroughs' fiction. The showings will be at 2.30 in the afternoon and 7 and 8.45 at night today, Friday and Saturday.

The suppression of industry under Bolshevism is supported by so much evidence that additional proof is hardly required, but in the Economic Supplement of the Review of the Foreign Press issued by the general staff of the British War Office, there is an extract from the "Izvestiya," one of the two daily papers whose publication has been permitted in Moscow and which is edited by leading Bolshevists. The statement, which deals with the economic situation, reads: "With a very few exceptions the great mass of our employees are inert, apathetic and uninterested in any initiative and creative labor. Socialization and the requisition of the factories have led to absolute chaos in the timber and paper manufacturing industries."

How bad the workers' situation is, is shown by a resolution carried in France, which reads in part as follows: "Since the middle of June no bread has been issued in the government. The workers have not the strength to go on starving. We protest against the policy of the central power which has brought the working classes in this government to the verge of death by starvation."

SURVEY AT THE UNION DEPOT

Some Signs of Building of New Railway Station

It begins to look as though the promise made by D. B. Hanna of the C. N. R. on a visit to St. John a while ago might soon be reality—that the city is at last to have a new railway station. Work has been begun on the survey of the ground about the Union depot under direction of Mr. Crowdsell of the government surveys, Moncton.

Workers are engaged at present in removing the walls of the interior but they have orders not to do any such work on the outer shed as the understanding is that it is soon to be torn down. When this has been done a temporary structure, known as a "butterfly covering," will be erected, but the belief is held in local railway circles that work will be begun this year on the erection of the new station.

While there has been objection to the building of a new station at the Mill street site it has been due largely to the pressure of traffic in such a confined area. It is said that the plans for the new station will provide for a non-interference with the street traffic so that the present blockades which have been a source of annoyance will be done away with.

MEET OLD FRIENDS ON VISIT TO DETROIT

Hon. J. G. Forbes Home After Attending Presbyterian Assembly

Hon. J. G. Forbes has returned after a most interesting trip which included attendance at the Presbyterian general assembly in Hamilton, Ont., and visits to other Canadian cities and also to Detroit.

He was particularly struck by the rapid development of Detroit and the splendid view in which the streets are laid out and kept in order. Among the former friends whom he met in Detroit was Mr. Carson, manager of the great Cadillac automobile works, whom he remembered not so many years ago when the latter was serving his time as a blacksmith's apprentice in Durham, N. S. Mr. Adams, whom he met there, occupying the position of chief engineer of another motor car works, also is a Nova Scotian. Another old friend met there was Mr. Cameron, minister of the Reformed church, of whose congregation seven-eighths are Canadians. At a luncheon at which he was a guest the twenty men Dominion Express wagon were there from all parts of the Dominion.

While in Ottawa Judge Forbes conferred with leaders of the Order of the Victorian Order of Nurses and made strong representations on behalf of the N. S. branch.

He was much interested in the negotiations which were in progress for the purchase of the New Brunswick railway by the federal government. The amount which was to be paid to the city in compensation for the railway was mentioned as \$2,000,000 and he was inclined to think that this was more correct than the \$2,000,000 amount now mentioned.
