NO USE FOR NEW GLAND YET, SAYS CLEMENCEAU, 83

Spurns Specialist's Offer to Rejuvenate Him—Seems to Get Younger Day by Day.

Paris, Feb. 14.—"Every day in every way I am getting younger and younger," seems to be the thought of former Premier Clemenceau when he does not say it. The dose of American energy he imbued during his recent trip has enabled him to attack the almost stultifying philosophical work he is engaged in writing with renewed zest. No one who sees and talks with him now, but imagine Clemenceau in his eighty-third year.

That just as soon as opportunity offers his community is expected to put forth its best efforts in his behalf. There is marked sympathy for him, and Dr. Dandall Marshall, Netherland, according to statistics given out at the Bureau of Customs.

TEN MEMBERS MORE IN THE NEXT COMMONS

Redistribution Bill Presented in the House—Nova Scotia Loses Two, New Brunswick Same Number.

(Canadian Press Despatch.) Ottawa, Feb. 13.—Canada's next House of Commons will consist of 246 members, an increase of ten over the present representation. This afternoon Premier King presented the redistribution bill in the long-awaited redistribution bill. Under its provisions—based in turn on the 1921 census—the Maritime Provinces lost two members, both in Nova Scotia—the prairie provinces gain eleven—four going to Alberta, one to Saskatchewan and two to Manitoba and British Columbia gains one. The other provinces remain as at present, except the representation of Yukon Territory. The net increase in representation for the whole Dominion is therefore ten.

Premier King said it was the constitutional duty of the government to introduce such a bill after each decennial census. The British North America Act provided that after each census a bill to readjust the representation in the House of Commons should be introduced. The Prime Minister read a list of the years in which redistribution had taken place in the past, opening with the first readjustment in 1872 and closing with the last, which took place in 1917.

The bill was given first reading and stands for second reading at the next sitting of the House.

Agrees to Loan to Vancouver Harbor Commission. After somewhat extended discussion, the House of Commons today passed a resolution providing for a loan of \$500,000 to the Vancouver Harbor Commission for development of Vancouver harbor and gave first reading to a bill based thereon.

West, thought the estimates will be a very moderate one. He believed that anything which promised to make the shipping facilities for Western farmers should have every support. The resolution was then carried and a bill based thereon given first reading.

New House Committee Proposed. It is not expected that there will be many changes in the membership of the standing committees of the House of Commons this year. Two of last year's chairmen, however, are not in the House at present and will have to be replaced. These are Hon. O. Tupper of Gloucester, N. B., who has been elevated to the Senate, and Hon. M. J. Denison, of St. John's, who has been appointed to the bench.

Turgeon was chairman of the committee on forests, waterways and water powers, while Mr. Demers had charge of that on privileges and elections.

An additional committee has already been announced for the present session. This body will have to deal with investigating agricultural problems, such as the mixing and marketing of grain and the development of the livestock industry.

Hydro Question. Ottawa, Feb. 14.—(Canadian Press.)—No legal agreement or options have been made by the Dominion Government in respect of the proposed Toronto suburban railway between Guelph and Toronto to the Hydro Electric Commission of Ontario.

This answer was given by Hon. G. P. Graham, acting minister of railways and canals, in the House of Commons last night, to a question by T. L. Church, Conservative member for North Toronto.

It is now assured, that the estimates will be brought down on Thursday.

Gold Storage Bill Up. Ottawa, Feb. 14.—(Canadian Press.)—Second reading was given by the House of Commons last night to four bills introduced by Hon. W. R. Motherwell, Minister of Agriculture. One so amends the cold storage act as to make subsidies for cold storage available for co-operative societies, the others amend the acts respecting livestock, the sale and inspection of fruit and fruit containers and the testing, inspection and sale of seeds.

On the cold storage bill, Hon. A. R. MacLean, (Liberal, Halifax) said his experience of Government aided cold storage plants had not been such as to make him enthusiastic. There was plenty of private enterprise to take care of the demands. He thought that the present might be a good time to abandon the cold storage act altogether.

L. H. Martell, (Liberal, Hants) also supported this committee. John Morrison, (Progressive, Westport) opposed the bill, saying that it would mean loans at low interest to those persons desirous of establishing cold storage warehouses. He also opposed the bill.

No Session Today. Ottawa, Feb. 14.—(Canadian Press.)—In the House of Commons today there will be no session on account of it being Ash Wednesday.
