CZAR: STILL HOLDS AUTOCRATIC POWER

SO PREMIER WITTE INFORMED DELEGATION

He Expects Manchuria Army Will Give Valuable Assistance in Restoring Order in Russia.

St. Petersburg, Jan. 11.-Premier Witte, according to the Novoe Vremya, at his reception yesterday of the delefron, headed by the mayor of St. Petersburg, which called on him to rethe interest of the electoral campaign, declared emphatically that the government would not go an inch beyond the Imperial manifesto in the question of transforming the national assembly Prof. Jenks Will Greet Distinguished into a constituent assembly for the purpose of formulating a constitution, and will not tolerate any attempt to do so which would make it a revolutionary assembly and subject to dissolu-

ion by the Emperor. The Novoe Vremya also claims that the premier announced that the Emeror had not abrogated autocratic wer, and could still, by imperial anifesto, bridge and even abolish the rights granted to the people.

Continuing, the paper quotes Prenier Witte as saying that much is expected of the Manchurian army in the estoration of order in Russia. Only he rear forces, otherwise the reserves posing the larger percentage of the army, are demoralized. The remainder are in splendid condition.

The demonstration of mourning plan ed to commemorate January 22nd, 'Red' Sunday," includes the calling of two days general strike, beginning noon, January 21st. The "Reds" of Petersburg are striving to force a flict and a repetition of the Moscow barricades of streets and other feaares of the rebellion there. The aurities are ready to declare martial aw at a moment's notice, and scout he idea of serious trouble.

According to the Slovo, the complete report of Count Verontozoff Dashkoff, iceroy of the Caucasus, shows that situation in trans-Caucasus is nuch more alarming than that out ned in the published statement on the ubject. Portions of the report indicate that the problem presented consists practically of re-conquering the hole country south of the mountains. It also contains an urgent appeal for reinforcements.

who arrived on the transport Mongolia from Vladivostock told a story of horror along the Siberian railway as it had come to them from stories told stations blocked by mutineers, who looted and burned everything in sight. Many of those who started for Russia have turned back. Trains have been seized and turned on a backward ourse, and great gaps exist in the e of the European Russian frontier. According to the refugees there has been a general uprising in Siberian Russia which will stop operations of the railway for the winter at least, sidering the difficulties of maintain-

ng the line in winter weather. The stories of privation and horror told by the refugees from the Vladistock station confirm in the worst degree the small bits of news that have leaked out from St. Petersburg of the cutting of the railway and the rebellion in the Manchurian army.
