bright as such places always are in

Germany, wherther you see them in private houses or in public institutions

When the children arrive in the morning, at 7.30, they have a first breakfast

of gries-suppe, a sort of warm milk porridge, or of bread and milk. Later

ly than we should; the next day it was to be nudel-suppe and beef. There is

no space in this article to explain

nudel-suppe to an ignorant British pub

lic, but every German knows that it is good enough to deserve an article to itself. At 4 o'clock the children have

50 lb. to 60 lb. of meat, 2 cwt. of potatoes, 30 big rye loaves, 280 white rolls,

and when spinach, for instance, is the vegetable given, 80 lb. of spinach.

Well-Behaved and Happy.

I asked if the children paid anything, and was told that those who could af-

or one with rough manners. They are allowed to play in the light, sandy soil

of the forest much as English children play at the seaside, and I saw an

OPEN AIR SCHOOLS

GERMANY SUCCESSFUL

Delicate Youngsters Are Attended By Doctors--Two and a Half Hours' Work Daily.

One of the most interesting educa-air schools is hard work, because the strain is never relaxed. All day long, many at present is at the Wald-Schule, and a German day is very long, the the open air school for sickly children. children must be watched and guarded the first one was set up near Charlot-

A ALTONOMY DESIGNATION OF THE PROPERTY OF THE

woods, far beyond the last houses of the growing city. The soil here is pure sand, and the air in summer is so soft that it seems to lack strength and freshness. But as far out as this it is clean air, and the German doctors must clean air, and the Ger dren who are too alling to receive any instruction, and to this there is atinstruction, and to this there is attached a creche, with twenty beds, for babies and very young children. The third and largest establishment is the celebrated Wald-Schule.

days included, from the end of April to the middle of October, and it educates Take notice that Robt. L. Morse, timberman, of Seattle, Wash., intends to apply for a special timber license over apply for a special timber license over delementary schools of Charlottenburg. were going to sit down to their after-noon meal of bread and milk, and each child was fetching its own mug, hung on a numbered hook. Meals, in fine weather, are taken at long tables in the open air. When it rains they are served in big shelters closed on three sides. Dotted about the forest there are muchroom-shaped shelters, with seats and tables beneath them, sufficient cover in slight showers. There are well-lighted, well-aired classrooms, where the children are taught for 25 minutes at a time. Each child has two and a half hours' work a day; all who are strong enough do gymnastics, and all have baths at school. Each child has its own locker and its own num-

The busy sister who superintends the house-keeping and the hygiene of the school seemed to know how much each child had gone up in weight; and she cold me what quanutities of food were onsumed every day. The kitchen and arder were as clean and shining

> COKE SHORTAGE INTERRUPTS WORK

G. O. Buchanan Discusses Situation -- Railway Commission Can Prohibit Shipments Abroad.

(From Saturday's Daily.) Geo. O. Buchanan, comissioner for

the paying of lead bounties, is registered at the Driard.

In reply to questions Mr. Buchanan said that the smelting industry, owing to the shortage of coke, was rather flat at the present time. The Canadian Consolidated Mining and Smelting Company being unable to secure a supply of coke for its smelter was shipping some of its St. Eugene orez ford it paid from 3d, to 6d, a day for shipping some of its St. Eugene ores their food. The school is kept open all to Europe. But last year, when no through the summer holidays, but no particular shortage of coke was al-work is done then, and two-thirds of leged, the concern shipped part of its the teachers are away. Although the children are at play for the greater part of the day in term time and all not think it was necessarily implied day in the vacation, the headmaster says they give no trouble. There was not a dirty or untidy child to be seen,

"I observe," said he, that Mr. Alexander and Mr. Retalleck are quoted as saying that they do not desire to send ore to Europe and they complain about the lack of home smelting facilities.

elaborate chain of fortresses defended "At the present time there are three lead smelters in British Columbia at Trail, Nelson and Marysville. The Marysville smelter treats chiefly its friend who took me over the school, I was allowed to hear a lesson in mental own ore from the Sullivan mine. It arithmetic given in one of the classrooms—the boys sitting on one side and
the girls on the other; and I found that
the girls on the other; and I was a side and the son and Trail smelters say they have the girls on the other; and I found that they can take mirably taught and well advanced for mirably taught and well advanced for of the coke supply. The Trail smelter of the coke supply. and may need to give it the preference if it cannot get coke for both.

"I understand," said Mr. Buchanan, of Europe this summer, and I was

etween construction of the Great Northern railway, by which the department of railways, represented now no doubt by the railway commission, can prohibit such shipments when necessary. The associated boards of trade, after a strenuous battle, passed a resolution in favor of that railway scheme, but only upon condition that it should never be used to carry away fuel needed at home. Mr. Buchanan was one of a deputation present in Ottawa to represent the views of the board when the bill was before the railway committee and this feature was fully considered, Mr. Tarte being vehement in his presentation of it. At the next meeting of added which was held by all parties to

give ample protection.
"I think," said Mr. Buchanan, "that our mine and smelter managers are not politicians to the extent that in their own interests they should be, and that the protection that the law gives them.'
