souri, made the fact apparent to the dullest comprehension. But as soon as the Governor had fulminated his treasonable designs, he fled from faintinated are treasonable designs, he ned from the capital to summon and put his forces in bat-tle array-mafter having burnt a few bridges, of course. But it seems that Gen. Lyon knew his man, and had detachments and boats in readiness for the memory of the second for the pursuit. r the pursuit. On Friday he moved up the Missouvi river and took possession of Jefferson City. Having

learned that Gov. Jackson and his general, Price, were either at Booneville or at Arrow Rock (60 miles up the river), he started on Monday with two steamers loaded down with troops. He came "pon the enemy's forces at Booneville, attacked them, caused them to retreat into the woods, drew them out by a successful feint, and then routed them, killing three hundred and capturing six hundred. This is about all the information we have of the affair. The number of rebels engaged is not known, but on Friday it was telegraphed that there were 2000 at Booneville and 1000 on the opposite side of the river. At any rate, the nucleus of the proposed 50,000 was there, led by Gen. Price, who is reported to be mortally wounded. If these statements be substantially correct,

on all attempts to organize ony rebel army with-in the State. All the important strategic points --St. Louis, Jefferson City, St. Josephs, Han-nibal, Kansas City, &c.-are now held by the nibal, Kansas City, &c.—are now held by the United States forces. The Iowa troops have moved down on the Northern part of the State, and Illinois troops are in a position to co-oper-ate, while Kansas forces are in readiness to nove on Western Mussouri. Constant vigilance, with here and there a timely movement, makes Mis-souri all safe and sound for the Union. Ger-Lyon is manifestly the right man in the right place, and Frank Blair is his worthy associate." It is rumored that the leaders of the Confeder-asy are becoming more peaceful in their disposi-tions than formerly. The Boston Journal copies a special despatch to the New York World which rooptis that Jeffreson Davis having become tho-roughly frightened, has, in a semi-official manner-made overtures to our government." When his made overtures to our government. "When his made overtures to our government." When his commissioners reached the capital they were desired to state their case, and tell what they wish-ed. They submitted two propositions: First, Thet the United States unconditionally

recogniza the existence of the Southern Confeder-acy, and that the latter be permitted for a term of one, two, or three years, to carrry on their govern-ment as an experiment. That the expenses of the war thus far incurred, be equifibly arranged be-tween the two sections, and that each do its best for the maintenance of friendly feeling and inter-

for the maintenance of friendly feeling and inter-source between the the two peoples. And that if, at the expiration of the time agreed upon, it be found that the experiment cannot succeed, v com-mission be appointed to reconstruct a union. This proposition was *percentfortus rejected*, where-upon they modesily put forth another as follows : Second, The South will be content if the govern-ment will pedce itself to uses at the comber enment will pledge itself to pass, at the coming ses-sion of Congress, an irrepealable constitutional provision recognizing and legalizing forever the inprovision recognizing and legalizing forever the in-stitution of alavery below thirty six thirty, which is the southern boundary line of the State of Mis-souri. This done, the Southern provisional gov-ernment piedges, itself instantly to abandon the war, and to re-establish peace and the most cor-dial relationship, so far as its section is concerned; to redirect the course of trade into its accustomed channels, and in every the tore the happy days of our forefathers.
