ST. JOHN STAR, TUESDAY, OCTOBER 15, 1901.

THE MAYOR'S OPINION.

With regard to the work performed
on the King street arch on Sunday, the
mayor is reported to have said that
the press made the most fuss about
the matter. His worship is in error.
The press has given expression to the
views of clergymen and others, in the
same way that it gives publicity to his
worship's remarks, and those of the
other members of the committee.
Among those who bow to a day, and
those who bend to an arch or a cere-
monial, and those who are of a stiff-
necked generation, the press calmly
endeavors to gather the news and
give it to the public.

GUESS AGAIN, MR. KRUGER.

Ex-President Paul Kruger, at a safe
distance from the scene of operations,
and surrounded by all the comforts
and luxuries made possible by the
money he took with him from the
Transvaal in his somewhat hurried ex-
it, is reported to have said lately: "In
this impious war upon us we will de-
fend ourselves and our country with
an energy and patience that England
will find exhaustless. It will be the
English who terminate the war by
abandoning our territory, or God will
end it by giving us the victory." The
ex-president makes the mistake of be-
lieving there are but these two alterna-
tives. From present appearances it
would seem that this is a somewhat
grave and serious error on the part
of the old gentleman. There is the like-
lihood that others of the Boers may,
guided by his example, pick up all the
valuables that are within reaching dis-
tance and find all the comforts of home
in a foreign land. There is also the
probability amounting in fact to a cer-
tainty, that Britain will not tire and
that victory will again and again be
granted to her arms.

MUNICIPAL TAXATION.

The city of Auckland has lately de-
clared against the method of levying
municipal taxation by means of the
system of "rating on unimproved val-
ues." By this plan land alone is tax-
ed, and that on which no buildings are
erected is liable to the same tax as
land carrying valuable buildings. For
about ten years the system has been
in vogue in Queensland and a number
of the districts in New Zealand have
been by vote adopted this method. The
government introduced a bill making
it the only basis of municipal ruling.
The defeat of the system in the large
municipality of Auckland came soon
after the introduction of the bill. It
is as yet uncertain whether the gov-
ernment will push its bill through af-
ter the somewhat severe check it re-
ceived in the largest city of the colony.
The vote stood almost two to one
against the change from the old meth-
od of taxing buildings as well as land.

NO BOUQUETS.

A despatch states that a large num-
ber of express packages containing
flowers and fruit have been sent by
Christian societies to Albany for Col-
goz, along with letters to console him
in his last moments. The prison au-
thorities have rightly determined to
give none of them to the assassin. If
he desires spiritual counsel it may be
had for the asking, and has been freely
offered. Beyond that there should be
no display of morbid sentiment. It
has been too much the fashion to pre-
sent criminals with bouquets. While
there should be no needless cruelty in
dealing with them, neither should jus-
tice be tarnished by a silly and mis-
guided sentimentalism.

A HEATHEN'S VIEW.

The Chinese minister at Washing-
ton, Wu Ting Fang, in speaking of
the Jews and Chinese, says that they
have both been despised and persecut-
ed because of their industry, economy,
perseverance, thrift and business abil-
ity. These good qualities the minister
says are possessed by the Jews to a
remarkable degree and are shared by
the Chinese. Instead of being angry
however at the persecution, Wu Ting
Fang says they should be thankful, as
it is an evidence of their superior qual-
ities, and makes them more careful.
It stimulates them and puts them on
their mettle.

The appeal of Chief Clark printed
in another column, will be cordially
responded to by the order-loving people
of St. John. The route of the royal
procession is a long one, and there will
be ample room for the people to wit-
ness it from one or another position
along its way. The chief's letter is
timely and in exactly the right spirit.

LETTERS FROM THE PEOPLE.

THEAT SUNDAY WORK.

To the Editor of the Star:

Sir,—The men who worked on the
arch Sunday were last night, by resolu-
tion of the citizens' committee, just-
ified. There is now no more need for
any qualms of conscience, or feeling of
guilt for the time being, as the commit-
tee in their composition has taken away the
aim and upon the shoulders of the
newspapers the iniquity of it all has
been laid. It is well to have such a
committee. It renders unnecessary the
possessing and the conscience, and stands
as it were, the justification of man.
Any old fashioned thought that might
have been lingering around, in the
heads of any of the citizens that Sun-
day was the Lord's day will now be
dispelled. It is a grievous error like
many another myth of its kind, blown
away by the breath of other wise men.
Sunday belongs to the citizens' com-
mittee and should be used as a day of
work for all employees laboring to do
the Lord's work in six days. Great is
the citizens' committee and the arch
is its profit.

Yours,
WEEK DAY.

ST. JOHN PRESBYTERY.

Held a Regular Session this Morning.

The regular meeting of the St. John
Presbytery was held this morning in
one of the school rooms of St. An-
drew's church. Rev. Jas. Burgess, Mod-
erator; Rev. Dr. Fotheringham, Sec-
retary; Rev. Dr. J. Fraser, Rev. Dr.
Morrison, Rev. L. G. Macneil, J. Burton
Morgan, Judge Forbes.

This brought him into collision with
not less a person than Bismarck, who
challenged him to a duel after Vir-
chow had managed to defeat the Prus-
sian ministry's proposals for the cre-
ation of a navy. He resigned his seat
in parliament in 1873, but his frank ex-
pression of ultra-liberal views brought
about his dismissal from the rectorship
of the university in 1887.

His best known writings deal with
cholera (1848-9), typhoid fever, trichin-
osis (1880), typhus in Hungary in 1888
and the pathology of tumors. Through
subsequent investigations have shown
some of his positions to be untenable
or to require modification, scientists
are fully agreed as to the great merit
and value of his life work.

BOER PRISONERS IN INDIA.

(Toronto Globe.)

The lot of a Boer prisoner in India
is not so uncomfortable as some opo-
nents of the British government have
been anxious to make us believe, if we
may judge by the extracts from a let-
ter of a young Englishman in India
to his father at home. He writes:—
"They are actually starting schools for
the Boer prisoners, and poor old Brun-
ton has been sent, after being in Se-
conded nearly five years, to Trincom-
opoly to open a school for them
there and get it in working order. He
is to run it for two months, and then
appoint an acting schoolmaster from
the Boers, who is to get one shilling
per diem, also assistants. And now
comes the anomaly—our assistants get
fivepence per day extra duty pay, but
the Boers are to get ninepence (the
English rate). Ye gods! What next?
They are already provided with blind
sticks, cricketing materials and long-
sleeved, and yet some people wonder
they do not try more to escape. The
Trincomopoly case is not isolated, as
the same procedure has been carried
out at the other stations where there
are Boer prisoners. I. e., the school-
master has been taken from his own
school to do duty with the Boers."

WINTER ARRANGEMENTS.

Changes of time on the Canadian
Pacific Railway and the International
S. S. Company went into effect yester-
day.

Under the new C. P. R. time table
there will be two trains daily between
this city and Boston.

The International arrangement is for
three trips a week. The Tuesday and
Saturday night will be discontinued.
The I. C. R. winter arrangement will
go into effect on Monday next.

WILL CONTEST THE LAW.

The Dominion Trading Stamp Co.,
Limited, who have been in many of
the principal cities of Ontario, have
definitely announced their intention to
fight the legality of the "Anti-Trading
Stamp Act," passed at the last session
of the Ontario Legislature, which em-
powered municipalities to prohibit the
use of trading stamps within their
bounds. The company will contest the
act on the ground that the provincial
legislature have no right or power to
pass such legislation.

BUSINESS INSTINCT.

It is generally supposed that people
of artistic temperament are not likely
to have the business instinct. Feder-
oval spent this history by closely his
Spanish and Italian engagements to
come to America. Chicago Herald.

TO ALL CITIZENS.

An Appeal From Chief Clark Re the
Royal Visitors.

To the Citizens of St. John:

I wish to get through a few of the con-
ditions that will prevail on the day of
the arrival of their Royal Highnesses,
and to point out a few matters where-
by the citizens of St. John can greatly
assist in making the reception a credit
and a success.

1. Each citizen ought to be satisfied
to see the procession from one point
only. He should decide beforehand as
to the location from which he wishes
to view the procession, and should get
there early.

There will be more than one oppor-
tunity to see the royal party.

2. The I. C. R. station and grounds
will be absolutely closed to the pub-
lic. No person will be allowed in the
space between the railway station and
grounds and Front street, as the whole
of it will be required for the royal
party and its escort.

3. The royal procession will leave
the railway station about 2:30 p. m.
(local time), proceeding via Mill street,
Dock street, Market square, King
street, north side of King square,
Sydney street, north side of Queen
square, Charlotte street, Broad street,
Sydney street to the Exhibition Build-
ing, accompanied solely by the neces-
sary escort. All persons should keep
their positions for a few minutes after
the procession passes, as crowding on
the rear of the procession must be
avoided.

4. Let each citizen of St. John do
his best to assist the police in keeping
order. It is to every citizen's interest
to show what an orderly city we have,
and I hope every one will take an in-
terest in seeing that order prevails,
and will help the police whenever pos-
sible, and if necessary, put up with a
little inconvenience for the sake of
showing strangers what we can do.

5. The route after the troops have
lined up on the streets will be closed
to all wheel traffic, including bicycles
and baby carriages, for fifteen minutes
after the procession has passed.

6. Horse-play, unnecessary pushing
and crowding by young men and boys
will be severely dealt with, as ladies
and children, who are unable to pro-
tect themselves, are generally the ones
who suffer from such actions.

7. Remember, Keep cool! Do not
rush from place to place. Let every
citizen assist in preserving order.

Asking for your hearty co-operation
in keeping order during the visit of
the royal party to our city, I remain,
Yours respectfully,
W. WALKER CLARK,
Chief of Police.

A CARNEGIE STORY.

(Timber Trades Journal.)

Dr. Carnegie's gifts of library build-
ings to Scotch towns is, of course, help-
ing the timber trade, and at the pres-
ent time "Carnegie" Free Library
buildings are in course of erection in
various parts of the country, and in
some places these are the only build-
ings of importance now being erected.
In Falkirk, where building has not been
so brisk as in former years, Judge
Christie, of Christie & Miller, cabinet-
makers, is to lay the foundation stone
of the library there on Saturday of
next week. But Dr. Carnegie's applica-
tions do not always come from particu-
larly desirous of having libraries erect-
ed. His mail runs from 800 to 800 let-
ters per day, most of them begging
letters. Here are the terms of one let-
ter which a well-known wit is stated
to have addressed to the millionaire.

"My dear Carnegie,—I see by the pa-
per that you are prosperous. I want
to get a hymn-book; it costs 6s. If
you send me this hymn-book I will
bless you; Heaven will bless you, and
it will be a great deal of good."

"Where's that?"

"P. S.—Don't send me the hymn
book; send me the 6s!"

BE LONGED TO A QUEEN.

A metal box, belonging to an Egypt-
ian queen of the seventh century be-
fore Christ, has been found to be made
of an amalgam of platinum and gold
by M. Berthelot, the French chemist.
The box was discovered at Thebes and
the platinum may come from the alu-
minal deposits in the upper Nile valley.

Germs, Germs.

We hear a great deal about
them these days, and rightly
too; for they are the direct
cause of whooping-cough,
diphtheria, scarlet fever and
other diseases of childhood.
When any of these are in the neigh-
borhood, you should use Vapo-Cresolene.
Every evening purify their
sleeping rooms with this perfectly
safe remedy. It is so easy to prevent
the disease in this way. For whoop-
ing cough and croup, the doctors say
it is a perfect specific.

Vapo-Cresolene is sold by druggists every-
where. A Vapo-Cresolene outfit, including the Vapo-Cresolene
bottle, which should last a life-time, and a bottle of
the "Vapo-Cresolene" ointment, is sent free of charge to
any one who sends for it. Illustrated booklet contain-
ing myriads of testimonials free upon request. Write
