## Highways Dispute Settled Yesterday

Municipal Council Arranged  
for an Overdraft Not to  
Exceed \$2,500 to be Taken  
Care of in 1921 Assessment  
—The Indiantown Ferry.

At the meeting of the municipal  
council held yesterday morning the  
Lancaster Highway dispute was set-  
tled by arranging an overdraft not to  
exceed \$2,500, the overdraft to be  
taken care of in the 1921 assessment.  
The building committee were author-  
ized to expend a sum not exceeding  
\$600 in obtaining tentative plans for  
a new municipal building.

In connection with the Indiantown  
ferry it was decided to purchase a  
boat the sum of \$2,500 to be charged  
to the Parish of Lancaster and a like  
sum from the City of St. John, the  
same arrangement as now obtains for  
maintenance to be continued.

A motion by Councillor O'Brien and  
seconded by Councillor Campbell, that  
\$10,000 of twenty year six per cent.  
bonds be issued for the purpose of  
providing playgrounds for Lancaster  
was adopted.

## Common Council Regular Meeting

Decided Yesterday to Proceed  
With Enquiry Into Cutting  
of Timber on Civic Lands  
— Other Business Trans-  
acted.

At the meeting of the City Council  
yesterday Com. Jones was authorized  
to proceed with the inquiry into the  
cutting of timber on civic lands, and  
the Mayor was authorized to arrange  
for the entertainment of the West  
Indian delegation and the Press Con-  
ference.

Readers will be called by the City  
for the coal required by the several  
departments and services for the  
season of 1920-21.

A lease will issue to Andrew J. Mul-  
cahy of lot No. 819 Brooks Ward for  
7 years from 1st May instant at \$25.00  
per annum rental. Mr. Hughes to be  
tenant in lease that he will enter the  
main sewer from his premises when  
erected.

The fee simple in lot No. 362 Prince  
Ward was sold to James Stirling the  
present lessee for the sum of \$500.  
James Kennedy was appointed a  
surveyor and measurer of lumber for  
the City of St. John.

The Department of Soldiers' Civil Re-  
establishment was granted permis-  
sion to install a 220 gallon Bowser  
gasoline tank on the premises used  
by the Department as a garage at No.  
65 Charlotte street.

The usual two weeks' holiday will  
be granted to the city officials and  
employees.

The petition of taxpayers asking  
for increase in rates for double team  
from \$8.00 to \$10.00 per day was refer-  
red to the Commissioner of Public  
Works.

The report of the Commissioner of  
Public Safety on his interview with  
the General Manager of the N. B.  
Power Company with reference to the  
placing of concrete under the truck  
sections of the railway in City Road,  
Douglas Avenue and Prince William  
street and the lands on which the city  
should be paid by the Company for its  
proportion of the cost was approved  
and placed on file for reference.

The tender of the International Con-  
struction Company for excavating and  
redrilling trench for service pipes in  
City Road was accepted, namely  
rock \$6.00 per ft. and earth 4 cents  
per ft. Estimated total cost \$2560.

The Retail Merchants Association  
of Canada will be notified with refer-  
ence to their complaint of 20th April  
last with reference to the nonob-  
servance of the Sunday closing Act by  
a large number of small shops in the  
city, that the city solicitor has given  
his opinion that the Chief of Police is  
quite correct in stating that he must  
first obtain permission from the At-  
torney General for prosecutions of  
that character which prosecutions  
must be made within 90 days from the  
commission of the offence and that he  
does not know of any action which  
can be taken other than the Chief of  
Police to report cases to the Attorney  
General and await his approval.

The committee of the whole recom-  
mended that C. Simon and Co. be  
granted the franchise for trench digg-  
ing on Hawthorne Avenue.

Com. Jones said C. Simon and Co.  
had never had a contract from the  
city. He moved that the matter be  
laid over till the engineer enquired  
into their capability to do the work.

Mayor—They are willing to put up  
\$1,000 as a guarantee.  
The awarding of the contract was  
laid over.

C. Simpson were also the lowest ten-  
ders for excavating for service pipes  
in Douglas Avenue but this matter  
was also laid over.

A letter was received from Ottawa  
saying the matter of providing a pilot  
boat for St. John was under consid-  
eration.

Notice was received that K. J. Mac-  
Rae had been elected captain and J.  
Harvey Tapley Lieutenant of Salvage  
Corps; that W. H. Riddick had resign-  
ed and H. B. Galt elected.

Gordon Leavitt wrote that there was  
a vacancy on the School Board, caused  
by the death of J. Russell. Action de-  
ferred.

Com. Frink brought forward the  
matter of providing for repairs for No.  
1 stone crusher; two jaws were need-  
ed at a cost of \$321. He was author-  
ized to purchase.

Com. Thornton—Can you get the  
jaws in Canada?

Com. Frink—The crusher was pur-  
chased from the States. It would be  
difficult to purchase the parts in Can-  
ada.

Com. Frink said the Elco Motor  
truck had been out of commission  
since last September. One part was  
needed; the company would only sell  
two parts. The cost of one part was  
\$150, and of two parts \$312. He was  
authorized to purchase.

Com. Jones said the County Housing  
Board want water on Kiel street Fair-  
ville. The Board would make the  
trenches if the city would supply the  
pipe. The cost would be \$2,000, but as  
15 houses would be erected the re-  
venue would be \$222. The expenditure  
might come out of water maintenance.

On motion it was decided to meet  
the request of the Housing Board.  
Com. Jones brought up the matter  
of timber cutting on city lands, and  
read G. G. Murdoch's report. The city

## The Collection Is Most Complete

Natural History Society Has  
Received Three Very Rare  
Birds of New Brunswick—  
Two from Dr. L. A. Lang-  
stroth and One from A. L.  
McIntosh.

The Natural History Society have  
been made the possessors of three  
very rare birds which will make a  
decided acquisition to their collection  
of the birds of New Brunswick, which  
is perhaps the most complete of any  
in existence.

All three of the birds are remark-  
able in that they all violated the gen-  
eral habits which govern their par-  
ticular species and straying far from  
their usual habitat finally wandered  
into our own province of New Brun-  
swick.

Two of the birds have been don-  
ated by Dr. L. A. Langstroth of this  
city, one of them, a Great Grey Owl,  
was shot by his father the late Dr.  
H. H. Langstroth, near Sussex some  
years ago. It is remarkable that the  
bird should have strayed so far south  
as New Brunswick, as its habitat is  
located in the Arctic forests of the  
Dominion, northward to the limit of  
trees.

The bird is one of the most magni-  
ficent species of the Owl family. It is  
about twenty-seven inches in length,  
its general color is grey mottled with  
white and black, the legs are heavily  
feathered, as is the case with all Ar-  
ctic birds.

The second bird donated by Dr.  
Langstroth is a Louisiana Heron. In  
common with the Great Grey Owl,  
this bird is an exceptional one, and  
must have broken all records of its  
kind in straying so far north as New  
Brunswick. The University of New  
York, in one of their publications of  
1910—"The Birds of New York"—has  
this to say about the bird, "The Loui-  
siana Heron, ranges the tropical and  
subtropical regions of North America,  
from the Gulf of Mexico to the north  
to Indiana or New Jersey, but  
one bird was ever found in New York,  
and that in the year 1836."

The particular record of its kind  
which Dr. Langstroth has presented  
to the Society, was shot by him on  
the Hammond River in April, 1892.  
Another was shot by A. L. McIntosh  
in St. John County some few years  
ago.

Like all herons, the bird is of a  
delicate build, with a long and slender  
bill and legs. Its head and neck are  
of a rich maroon chestnut, and the  
rest of its plumage of a dark blue  
slate color. Some beautiful plumes,  
or aigrettes, hang from the top of its  
head and over its back.

The third bird, a Snowy Owl, is a  
bird of great beauty, and one of the  
whitest of its species. It was present-  
ed to the museum by Mrs. Mark Taggart  
of Sussex, and is one of a collection  
of twenty from which the aigrettes,  
of the Society, William McIntosh, was  
given his choice. As the collection  
was an excellent one, it would be  
hard to find a better specimen of the  
species than that which has been don-  
ated to the Natural History Society.

The home of the Snowy Owl is in  
the barren grounds of the holarctic,  
although it sometimes comes south-  
ward, and on rare occasions has been  
encountered in large numbers in this  
province.

During a particular hard winter  
some years ago, a number of these  
birds visited Sable Island, and spent  
the winter there. The island had  
been previously over-run with rab-  
bits, but with the coming of Spring  
and the departure of the owls it was  
found that they had swept the island,  
and not a bunny survived to tell the  
tale.

As may be gathered from its name,  
the plumage of the Snowy Owl is of  
pure white, although its breast is  
somewhat mottled with grey. Its  
length is twenty-five inches, and with  
its great black beak and large eyes of  
a ferocious yellow, which stand out  
in a distinct contrast in their setting  
of white, form a most striking com-  
bination. It might almost be said that  
the bird rivals in its bold and fierce  
appearance, even the regal eagle.

has 1670 acres of timber lands, and

it was estimated that 100,000 feet of

lumber had been cut in the last few

years. In addition there was a lot of

knives and piling cut, and some pulp-

wood—the latter probably through in-

advertence.

He had asked city officials, but felt

they ought to have had more infor-

mation than they were able to give. Ex-

Com. Wignmore had not authorized

anyone to invade city property.

Since publication of report one party

came to him, and asked if a settle-

ment could be reached. He replied it  
was now a matter for inquiry. He  
knew the names of the people who  
had been cutting, but had no further  
information.

On motion the commissioners were  
constituted a court of enquiry with  
Com. Jones as chairman. The city  
solicitor will attend.

The Mayor brought forward the en-  
tertainment of West Indian delega-  
tion and the Imperial Press dele-  
gation. The West Indian delegation was  
due on May 25. They were going to  
Ottawa, but would be in St. John long  
enough for a civic entertainment.

The press delegation would be en-  
tertained here by the Power Boat Club  
and the Automobile Club but the city  
should take some part.

Com. Frink moved that the Mayor
