WHY CROUP IS FATAL.

When croup attacks your child you must be ready for it. It comes as an accompaniment to an ordinary ough, or it may attack without warning. All ills of children develor quickly, and when any kind of cough appears there should be something at hand to stop it with promptness. Many a child has choked to death with croup because the right remedy was not convenient. Every one should know that the right safeguard for a child's cough or any cough is Adamson's Botanic Cough Balsam. With this soothing compound in the house, croup is always easily checked and relieved.

To give a child a "cough mixture" containing a narcotic is a very serious matter, yet most preparations contain something of this kind. Adamson's Botanic Balsam is prepared from the purest extracts of barks and roo's and gums of trees, and is health-giving in every component part of it. Wherever it touches an inflamed surface, it heals and soothes it. "Nothing ever compounded for cough is so harmless, and nothing so efficacious. Adamson's Balsam is an old remedy and it has never lost a friend through failure to help. Keep it in the house. Try it on your own cough and do your child a good turn by being ready for any emergency. Price 25c. at any druggist's.

On Saturday the Norwegian barque Cambusdoon, Captain Saxegaard, arrived in Boston harbor after a voyage of 101 days from Singapore. She brought a valuable cargo of Oriental goods, rattans, gambier, tapioca and sago flour and fragrant gums and spices.

The Cambusdoon has returned to American shores after 18 months of voyaging in content waters. n eastern waters.
Incidentally her crew discovered South Sea island, which now bears the name of her captain, "Saxegaard Island." It was about noon on the 21st of August, 1900. The Cambusdoon was on her

way from Newcastle, N. S. W., to Manila. A strong westerly current had carried her out of her course.

The island came in sight. It was wooded and small. Myriads of sea fowl hovered over it. Shoals of fish were warming around it.

Captain Saxegaard consulted his chart. There was no island marked on his chart nearer the spot than Tribel Island, 10 miles away. The Cambusdoon went no closer than a mile to the strange island for fear of shoals or rocks.

When Manila was reached the discovery

was reported. The news was cabled to Washington, so that future charts will

have "Saxegaard Island' marked upon them for the benefit of mariners. The yet died cut.

The voyage from Singapore to this port was without unusual incidents.—Boston
