

abroad and of diverting the attention of the people at home.

Our readers will perceive by referring to the map of South America, that Paraguay and its capital, Asuncion, can only be reached by navigating for a long distance the river Parana, which is not without dangers, capable of harassing, if not defeating the smaller vessels which must necessarily perform this part of the business.

Paraguay, besides, has an army of over 30,000 men, which may not be disposed tamely to submit to the dictation of a foreign power, and if they remain obstinate and refuse apology or atonement for the alleged injury the struggle may be a protracted one. The Americans doubtless expect that the appearance of the squadron at the mouth of their outlet to the sea, and the blockade which will necessarily follow, will suffice to over-awe them into obedience. It is intimated that in connection with the expedition to Paraguay, accounts sometime outstanding will also be settled with some of the other South American republics. The fleet consists of ten vessels, the largest of which is a crew of 600, and is armed with fifty thirty-two pounders and two ten-inch shell guns. This is the flag ship of the squadron, and has on board Judge Bowlin as plenipotentiary-extraordinary to propose terms of peace or the alternative of war. Commodore Shubrick is the commander of the squadron.

SUMMARY OF NEWS.

General Williams, whose name will be remembered in connection with the Crimean War, as the hero of Kara, is now in this country; and the officials and chief citizens of Toronto and elsewhere have been delighting to do him honor. In the capital city of the West, especially, the officers of the Militia, the members of the corporation and others met in the St. Lawrence Hall, where an address was presented and speeches made in honor of his presence in this country. His Excellency, the Governor General, was also present upon this occasion, which cannot but have been gratifying to the feelings of the honored guest. General Williams is a native of one of the Eastern Provinces.

An exciting balloon race has just come off in the United States between Mr. J. H. Steiner, an American, and Mons. Godard, a French aeronaut. The party who made the greatest distance irrespective of time, was according to previous arrangements to be declared the winner. Mr. Steiner was the successful competitor.

The London Economist has published a letter from "A Canadian," now in England, who undertakes to defend the late Ministerial doings in this country, and especially, to apologize for Sir Edmund Head.

A rumor obtained circulation among the English Press to the effect that Lord Bury was being sent out to this country to ascertain the views and feelings of the people of the Provinces in reference to their federation; but it turns out that the story was unfounded. Lord Bury and Lady are coming to Canada to visit his father-in-law, Sir Allan McNab, and not with any such instructions as those referred to.

A steamer of a novel construction is being built by the Messrs. Wiggins, at Baltimore. It has no keel, no masts, no rigging, in shape it will closely resemble a huge cigar, or a log tapering to a point at both ends. It will be driven forward by means of a wheel revolving around the centre with buckets striking the water in such a way as to move her forward. It is expected that a very high rate of speed will be attained from the fact that she offers so slight a surface to the resistance of the winds and waves.

CLAYTON FAIR.

The semi-annual Fair at Clayton will, as usual, take place on the second Wednesday in November, being, this year, the 11th inst. This Fair is considered one of the best in the North Riding, and is well worthy the attention of buyers and others.

We understand that the Rev. R. G. Cox, Rector, will preach to the Orangemen in St. James' Church, Carleton Place, at 11 a.m., and again at Clayton, at 3 p.m. on the 5th instant.

THE VICTORIA TUBULAR BRIDGE.—The pier for the Tubular Bridge will be raised above the water this fall. There are at present scaffolding up for thirteen tubes, all of which will be completed this season—fourteen would have been laid, but one was unfortunately lost. It is the determination of the managers to have the Bridge wholly completed next year—probably by October.

The Montreal Witness thinks that, from the vigor which is beginning to be displayed in all kinds of business, it may fairly be inferred that the tide of prosperity which commenced rapidly to ebb about a year ago, has at last turned, and is beginning to flow again.

A STEAM LINE BETWEEN THE BAHAMAS AND NEW YORK.—The Commercial understands from good authority that the British Government have completed a route of steamers to run a line of steamers between the Bahama Islands and New York, and also to convey the mails to and from England, Nassau, New Providence, and the port in the Bahamas.

THE ATLANTIC TELEGRAPH.—All appearances indicate that the present subscription to the Atlantic Cable will be given up; and we should be glad that the costly experience which has been gained may be used in the construction of its successors. There can be no doubt of this. We have only to pursue our respective courses, the Americans taking up the personalities of the question, and the English confining themselves to its more practical aspects; and by the time the former have proved themselves the cleverest people in the world, we shall have produced a working cable.—Times, Oct. 5.

A young lawyer of Buffalo recently defended a negro charged with larceny, and while he was addressing the jury, the negro picked up his pocket of a wallet and pocket handkerchief.

PETERBORO CORRESPONDENCE.

THE COUNTY MEETING.

Ma. Editor.—It might have been expected that I should sooner have said something in reference to the County Meeting which recently came off in our chief town; but the fact is, that although reporters from the Leader and Globe were present, and one represented the meeting as a great failure and the other as a grand triumph, it can neither be regarded honestly as the one nor the other, since in reality it was not a "County" meeting at all, but a gathering of persons most zealously affected in political matters from the immediate vicinity of the town itself. People residing in the country, outside of the circle immediately connected with the news and influence of the town were utterly unaware of the existence of the adjourned meeting, and very many persons of intelligence and reading habits received the first intimation of such a gathering from the Globe or the Leader which contained their respective narratives of the event. Under these circumstances the importance of the "County" meeting is greatly exaggerated by those who represent it as a political triumph one way or the other. Certain resolutions were passed condemning the ministry and the Governor General and asking for his recall, and certain amendments were made to those resolutions amid much confusion and declared passed too, and so the matter remains each party claiming a victory and neither much hurt. So ends the story of our "Grand County demonstration!"

OUR ROADS.

The six thousand pounds which our County Council raised by means of debentures is likely to work wonders in our leading thoroughfares. Jobs have been auctioned off, on the downward scale throughout the entire county, and in consequence the work is being done at unprecedentedly low prices. Along almost every half mile of the leading roads, men and teams are at work, grubbing, plowing, digging, shovelling, and the result is likely to prove highly satisfactory. Large stumps with prominent roots which have long been the terror and annoyance of the traveling public are disappearing as if by magic. Hills are being cut down and low places raised up, the curdcurves are being heavily covered, and in short never before was money laid out to more advantage, in the long run.

It is true that the remainder of the season until the frost sets in many of the new turnpikes will be bad enough, possibly almost impassable, but partly from the slackness of the season, and partly from the scarcity of money an immense amount of good will be done by means of a comparatively small outlay, and the present inconvenience we must bear in anticipation of the future good. Would not some such scheme as this be an admirable one for certain portions of the County of Lanark?

BARN BURNED.

A fire which has been perpetrated in the burning of a fine new frame barn and shed, filled with grain and produce, the property of Robert Wiggins, Esq., one of our most respected residents, and Lieutenant Colonel of the Third Battalion of the Peterboro Militia. There is too much reason to believe that the fire was the work of an incendiary. Every good man and true will earnestly desire to see justice dealt out to the fullest extent to the perpetrators of so dastardly a deed.

To the Editor of the C.P. Herald.

Sir—I wish, through you, to convey my thanks to your "Sporting" correspondent, DEMACRENE, for the very interesting Essays on "Woodcraft," with which he has favored your numerous readers, and myself in particular.

From the pleasure and profit with which I have perused these articles, so far, I am sure a similar expression would meet with general concurrence by all who have read them. It is not flattering the gentleman who has thus been catering to our taste for manly pastimes, to say that he is a poet as well as a sportsman, so eloquently does he descend upon the beauties of nature and the charms of rural scenery.

Trusting that your correspondent, in thus "letting his light shine," may experience the truth of the proverb, that "it brings a blessing to bless;" and with many thanks to him and yourself, I remain,

Your obliged friend,

AN AMATEUR SPORTSMAN.

Almonte, October 29th, 1858.

MEETING IN DALHOUSIE.

Mr. Editor.—Pursuant to notice published in the Perth Courier, a Meeting of the Freeholders of Dalhousie was held in the Town Hall on Wednesday, the 20th instant at 12 o'clock noon, for the purpose of expressing their views on the political state of the Province, and the Parliamentary course of their representatives, R. Bell, Esq., M.P.P.

Mr. George Blair was called to the Chair, and Mr. J. K. Esquire was requested to act as Secretary.

The Chairman having briefly stated the object of the Meeting, called upon Mr. Bell to give an explanation of the proceedings of last Session of Parliament.

Mr. Bell then addressed the Meeting at length, exposing the intrigue that caused the resignation of the Brown Donion Ministry, and showing up the corruption of the present Government in reference to the "Baby Contracts," "Hamilton Debenture," Customs Officers, &c.

Mr. Andrew McLean then moved, seconded by Mr. William Thomson, and it was Resolved—that this Meeting views with indignation the conduct of His Excellency's present Advisers in accepting office, and swearing before God and man to perform his duties belonging to the same, when they had no intention of holding the offices, their sole object being to escape the Constitutional obligation of going back to their constituents for re-election; and we regret that His Excellency allowed the present Administration to retain their seats by fraud, and continue to govern the country without the confidence of the people.

Moved by Mr. Edward Conroy, seconded by Mr. John Scott, and

Resolved—that this Meeting condemns the present Ministry for their reckless ex-

travagance in the creation of useless offices, and for their neglect to settle the vexed questions now agitating the country.

Moved by Mr. William Purton, seconded by Mr. Hugh McLean, and

Resolved—that this Meeting has entire confidence in the Brown Donion Administration, and will hail with pleasure their return to power as the best security for Constitutional Government, the safety of the Province, and our connection with the British Crown.

Moved by Mr. Peter Cumming, seconded by Mr. William May, and

Resolved—that on account of the unconstitutional conduct of the Governor General this Meeting is of opinion that Her Majesty should recall him immediately.

Moved by Mr. Peter Cumming, seconded by Mr. William May, and

Resolved—that this Meeting has entire confidence in our Representative, Robert Bell, Esq., M.P.P., and approves of his consistent course throughout the late Session of Parliament.

The Meeting then adjourned to the 30th at the 9th Lane, where Mr. Bell gave a Lecture "On the extent and Resources of the Hudson's Bay Territory." The evening was spent in the most agreeable manner, being enlivened with excellent music by Messrs. McLean and Allan of Perth.

J. K. Esquire, Sec'y.

Dalhousie, Oct. 24, 1858.

FORSYTH, BELL & Co.'s PRICES CURRENT OF TIMBER, DEALS, &c. QUEBEC, October 23, 1858.

White Pine, in the Raft, for interior and exterior work, measured off, 4 a 0 5/4 for superior, measured off, 0 6 1/4 a 0 9 1/4 in shipping order, according to average and quality, 0 5 a 0 9 Red Pine, in the Raft, measured off, 0 9 a 1 0 in shipping order 40 a 1 1 0 Oak ordinary by the Dram 0 16 1/4 a 0 17 Lake St. Clair measured off by the Dram 17 a 0 19 Elm by the Raft, according to average and quality, 1 0 a 1 2 in shipping order, 25 to 40 feet 1 0 a 1 3 Lumber square, according to size in the Raft 0 4 a 0 7 Flatted do 0 4 a 0 0 Staves, Std. merchantable 240 a 1 1 0 Do. All Pine 420 a 10 a 245 0 Do. W.O. Punched, merchantable 212 10 a 213 0 Deals, Bright, 212 10 to 214 for 1st, and 3rd for 2nd, do. do. 212 10 to 213 for 1st, and 3rd for 2nd, do. Spruce 212 10 for 1st, 2nd and 3rd for 2nd.

N.B.—Parties in England will bear in mind that timber sold in the raft subjects the purchaser to a great expense in dressing, and at times heavy loss for cuts—in shipping order, the expense of shipping only to be added.

REMARKS.

During the last fourteen days we have not had the same animation in our markets as was observable the month previous, as the fall fleet has not been large. The number of really prime rafts for sale is however very limited, and holders do not seem inclined to submit to any reduction. A good deal of inferior and ordinary timber is on sale, and the market and find buyers with difficulty at from 4d to 5 1/2d. The price in England still continues low and depressed, but as our exports are on a moderate scale (no London excepted), and as money continues easy and abundant we anticipate a re-action ere long and a healthy state of things both there and here provided the manufacture during winter is on a moderate scale.

Red Pine is in good demand for good quality and size. Oak is lower than in September, occasioned by the manufacture of some 300,000 feet in summer in consequence of high prices in spring, and good buyers are inclined to wait, and we must guard parties against getting out heavy stocks in anticipation of good prices. A paragraph copied from a New York paper and extensively circulated in both Provinces states that a contract has been made to a large extent with the Lords of the Admiralty for ship building timber. We cannot trace this to an authentic source, and we must warn our friends in the Upper Provinces against being stimulated to any excess in manufacture in consequence of this report.

Elm is by no means plenty and there is a little more enquiry than there has been all summer. Staves have been sold at 242 10s for a very fine specification, and 213 15s for West India of superior quality, but the demand is not by any means as good as it was a month ago, parties not caring to wait over at a high price seeing that they can be had down early in the spring through the facilities of transport by the Great Western Railway to the shores of Lake Ontario.

In deals there has been a large business done, and bright have become scarce. Flooded have been sold at from 212 to 213 for 1st and 2nd and 3rd in proportion according to specification.

Freights are rather better and vessels scarce as the season is now drawing to a close and few more arrivals anticipated.

FORSYTH, BELL & Co.

FROM WASHINGTON.

The Times' correspondent says that Sir Wm. Gore Ouseley will leave for Central America to-day. The treaty he is instructed to negotiate, drafts of which have already been prepared, will be entirely satisfactory to our Government.

By the bark Virginia, Demerara dates are to Sept. 29th. The sugar crop was nearly all gathered in, and is one of the most abundant for several years. Business was dull at Barbice and Demerara. Several of the houses which succumbed during the spring pressure, had again commenced business under favorable auspices.

The steamship City of Baltimore sailed to-day for Liverpool, with 204 passengers, and \$365,000 in specie.

On Saturday, the 10th inst., the Streetsville Review, two very serious accidents occurred, displaying a most remarkable coincidence. It appears that Mr. James Wiggins, of Chingacousy, while driving in his gig, near Brampton, overtook a Mr. Allison, to whom he offered a seat, to assist him home.

The horse suddenly taking fright as Mr. Allison was about getting into the vehicle, the wheel came in forcible contact with him, causing serious injuries, as in a few days after to result in his death. During the same afternoon, Mr. Wiggins pursued his journey towards Whaley's Corners, where he proposed visiting some friends, when, having reached the Credit, at Cheneville, he loosed the check rein in order that his horse might drink in the stream. Upon attempting to get in his gig, in the same manner as poor Mr. Allison, the restive animal again suddenly sprang forward, forcing the wheel violently against him, causing serious damage to the spinal cord—so much so as to have completely paralyzed him some persons traveling in that direction, and removed to Mr. John Whaley's, where he now lies in a helpless state, and in the most imminent danger of his life.

The lump of gold recently found in Columbia by Mr. Strain had been melted, and run into a bar, weighing upwards of 400 oz., and sold for nearly \$7,500.

The Brampton Standard says, that the Ebenezer Church, at 15 Center Road, Chingacousy, was entered on Saturday night, 10th inst., by some persons, and the silver communion service stolen.

APPOINTMENTS.

Secretary's Office, Toronto, 28th October, 1858. His Excellency the Governor General has been pleased to make the following appointments, viz:

Richard Corrigan, Esquire, Associate Coroner, County of Hastings. George Southwick, Esquire, M.D. Associate Coroner, County of Oxford. Charles Lewis, Esquire, Associate Coroner, County of Oxford.

Wm. M. Shaw, of Perth, Esquire, Barrister at Law, to be a Notary Public in Upper Canada. Marcellus Crombie, of the City of Toronto, Attorney at Law to be a Notary Public in Upper Canada.

John Hutchinson Esq., of New Market, Esquire, to be a Notary Public in Upper Canada.

His Excellency the Governor General has been pleased to grant Licenses to Hiram Noble, of the Township of Georgina, Esquire, M.D., and Henry Esquire, M.D., to enable them to practice Physic, Surgery and Midwifery in Upper Canada.

SABBATH QUESTION.—England is again on the eve of a struggle in regard to the Sabbath question. A number of leading literary men, headed by Lord Stanley, have petitioned for the opening of museums, picture galleries, and other places of public instruction and amusement. The Crystal Palace Company have also determined by a large majority to open the palace and grounds for the proprietors and their families on Sundays. The case is to be brought before the courts of law.

The following is one of the proclamations of the Imperial Commissioner addressed to the Chinese soldiery: 1st. Whoever catches an English or French rebel chief will receive a reward of \$5,000. 2. Whoever cuts off the head of a rebel barbarian will receive a reward of \$50. 3. Whoever catches a rebel barbarian alive will receive a reward of \$100. 4. Whoever catches a traitor will, on producing satisfactory evidence, receive a reward of \$20. 5. Whoever can manage to burn or take a large war steamer will receive a reward of \$10,000. 6. Whoever can manage to burn or take a shallow water steamer will receive \$2,000, and be recommended for further reward.

DIED.

At Bristol, Canada East, on the 26th ult. Robert Burns, aged 82 years, a native of Dumfrieshire, Scotland.

STRAYED OR STOLEN.

MEDICAL DISPENSARY.

DR. MCGILLIS has moved from the Village of Pakenham, to the HOUSE, half way between PAKENHAM and ARNPRIOR, where the Doctor will keep a MEDICAL DISPENSARY. Dr. McGillis will have the assistance of an able and well experienced Medical Gentleman, a Graduate of Edinburgh, who has Practised in this Country since '34, and on whom will devolve the Country Practice. This Dr. McGillis considers a great inducement and acquisition to the public as well as to the department.
