### WOLFVILLE AND ACADIA

One of the chief topics of conversation during the past week has been relating to the proposed building operations to be undertaken in the near future by the Governors of Acadia University. Plans are now fully matured for the rebuilding of College Hall on a larger and grander scale at a total cost of well up to \$300,000, and it is expected that the work will very soon be commenced. Other operations, including the new plant for Acadia Seminary, will involve very heavy expenditure, the result of which will materially affect the prosperity of Wolfville and surrounding country.

In the campaign soon to be launched to provide funds for these undertakings this town will very naturally be expected to make a liberal contribution. Business men and property owners will certainly realize that the carrying out of the contemplated enlargement of the University's plant and the inevitable increase in the attendance and influence along all lines will mean very much to them, and will look upon the undertaking as one in which they will desire to have a hand. Not so long ago, when the problem of Acadia's future was under discussion, the fear was freely expressed that dire disaster would result if it was decided to remove the University to some other section. Now that the matter has been definitely settled and when plans for a bigger and more prosperous Acadia are under way it is only natural that the people of this vicinity should manifest a willingness to render material assistance to an undertaking that promises to contribute to their prosperity. It is understood that a number of very generous contributions have been made by wealthy friends of the institution, and while these cannot be duplicated in kind by Wolfville citizens, we believe that much smaller offerings freely made will be accepted with the same appreciation and as a token of friendly interest on the part of near at hand friends of Acadia.

### THE TOURIST BUSINESS AN ASSET

A better provision should be made for supplying authentic information to the many summer visitors who annually visit this favored section. Those who act in the capacity of guides ought to be required to prove qualified before being allowed to do so and should be obliged to register and have a badge granted to them. There is plenty of historical and descriptive data to interest tourists without making it necessary to resort to the absurd fabrications often reported. Frequently THE ACADIAN is called upon to pronounce upon the accuracy of these stories, some of which would be ludicrous if their effect was not so damaging. The tourist deserves decent treatment at our hands. It is not good policy—even from a business standpoint—to impose upon his credulity and overcharge for the services which he desires. Properly dealt with the yearly influx of summer visitors should prove a source of prosperity well worth taking into consideration.

In the province of British Columbia it is estimated that from tourist travel more revenue is received than from their fisheries, which is a very important industry, while, in the some of the New England States it furnishes the chief factor in the financial welfare of the people. This being the case it is full time that we should systematically set ourselves to a thorough understanding of the whole matter and lay immediate plans for the wise and generous development of what is destined to be a great source of prosperity. The method too often followed is nothing less than folly.

### THE THREE COUNTIES EXHIBITION

This is Kings County's year for the three counties exhibition. It was Wolfville's turn and the show might have been held here had our citizens manifested sufficient interest. They did not, however, and the shiretown went after and landed it.

These exhibitions are held alternately in Kings, Hants and Annapolis counties and some of the best of them have been held in Kings. October 2nd, 3rd and 4th are the dates selected for holding the exhibition this year and a good committee of competent men I have in charge. If our people generally get behind the management, the show can be made the best yet held. Annapolis and Hants counties will no doubt do their part as they have always done in past years but the brunt of the undertaking devolves upon the people of Kings.

THE ACADIAN has no hesitation in urging the importance of the undertaking and bespeaks for it the honest and hearty co-operation of our people generally. It is none too early to begin now. Make your arrangements for entries in as many departments as possible and be sure to plan your work so as to attend. Let it not be a Kentville Exhibition nor a Kings County Fair, but indeed as it is in name a "Three Counties Exhibition" with honest and fair competition, and a determination to make it a credit to all concerned.

### HOLIDAYS AND THEIR MEANING

As a general rule our public holidays are devoted to feasting, merry-making and the like. We make them holidays and forget that they are holy-days. Each of these days which the government sets apart has its significance which should not be lost sight of. We may on them lay aside our customary work and indulge in amusements of various kinds, but unless some emphasis is placed upon the real purpose of the festival its value to the community is very largely lost.

Thanksgiving Day may be a very proper time for eating turkey and family reunions, but primarily it should be a day of thankfulness to the Giver of all that we enjoy. Labor Day may be a very proper time for athletic amusements, auto trips, etc., but it should mean much more. It should teach the dignity of labor and should result in a better understanding between labor and capital and their dependence one upon the other. Christmas and New Years have their particular message, and the birthday of the King is a fitting opportunity for inculcating a love of country for which the sovereign stands.

These festivals deserve a public observance for which the community should assume responsibility. THE ACADIAN would suggest the arrangement of a comprehensive program of all our national holidays in such a manner as to make their purpose fully understood especially by the youth of our land.

### NOVA SCOTIA AHEAD IN APPLE PRODUCTION

OTTAWA, Sept. 6.—Nova Scotia occupied the premier position in the Dominion as an apple producing province last year, according to figures just made public by the Dominion Bureau of Statistics, while

British Columbia was second and Ontario third. Nova Scotia produced last year 1,891,000 barrels; British Columbia 1,000,000; Ontario 809,000; Quebec 112,000, and New Brunswick 25,000. The total production for the Dominion last year is placed at 3,838,000, as compared with 4,046,000 in 1921.

### SIX INJURED IN BAD AUTO SMASH NEAR KENTVILLE

Kentville, Aug. 31.—A bad auto accident occurred this afternoon at the west end of town limit, near the residence of Fred Mitchell. A McLaughlin car, driven by Ainslie Hiscoe, with passengers S. L. Cross, Monson Carroll, J. W. McKay and J. F. Outhit, was leaving Kentville to attend the funeral of the late Archibald Foster, at Kingston, when it collided with a large Studebaker car from Yarmouth, driven by Dr. Putnam. The two cars were passing on a sharp turn. Mr. Hiscoe, in trying to avoid the accident went into the ditch, his car being badly smashed up. All the occupants were badly cut about the head and face and severely shaken up. Monson Carroll had his scalp partly torn from his head, necessitating several stitches. Mr. Cross was also very badly cut. They were rushed to the office of Dr. A. S. Burns, who attended to their injuries, after which they were conveyed to their homes. Dr. Putnam was also cut about the head and his car was badly damaged.

### CROP REPORT

The Bank of Montreal crop report under date of August 30th has the following to say concerning conditions in the Maritime Provinces:

New Brunswick—conditions generally improving. St. John Valley hay crop light, but mostly harvested in good condition. Potatoes promise fair yield. In the Northern district crops now making fairly good progress and in the Eastern district hay and grass pasture good. Nova Scotia and Prince Edward Island grass pasture excellent and large hay crop of first quality harvested. Everything promises well, but crops are late and warm weather is needed. In the Annapolis Valley recent gales destroyed 20% of the early apples, but all varieties clean and of good quality. Pears and plums are poor.

**Getting More Out of Your Farm**

If you could increase your production a little and reduce your expenses even slightly, it might mean the difference between a fair living and failure in some seasons.

Sheep, poultry, hogs, and a regular "milk cheque" have saved the day for many a farmer when his crops have failed.

Shelters from the heat, rain or snow for your live stock and protection from the weather for your outbuildings, machinery and implements, will minimize your losses and reduce your yearly repair bills by many a dollar.
