

The Sure Sign of Absolute Purity on Any Preserved Fruit or Jam

"AS MOTHER DOES"

Government Bulletin No. 119, in its report on the purity of Canadian made Jams, states that out of 22 samples found pure and bearing the names of Canadian manufacturers almost half—46%—were made by E. D. SMITH. The remaining 54% was made up of 11 different concerns—i. e., only one other firm succeeds in having more than one of its samples certified pure. All of E. D. SMITH'S Fruits and Jams were pure.

THE ONLY DIFFERENCE

between our fruits and your own home preserved is the great loss of strength, nerve and good temper you endure over the fruit basket and steaming boiler plus the risk you run of having an accident occur to spoil the fruit completely, plus the excellence of our fruit which stands but one day between Niagara's orchards and Smith's preserving kettles.

I GUARANTEE my preserved fruits to contain nothing but best fruits, finest sugar and purest water.
