MISCELLANEOUS INFORMATION.

RULES FOR KEYHOLDERS.

In pulling a box for fire, remember you are winding up a piece of clock-work, and no jerking or unusual force is required. A steady turn on the handle, or a steady pull on the door, will insure a proper alarm.

Never give an alarm, except from the box nearest the fire, unless you have first ascertained that the box nearest the fire has not been pulled, or will not work.

Do not pull a box for a chimney on fire, of a fire outside the city limits.

Leave your key in the door, the Chief or officer in charge will release and return it to you.

Never open the box, except in case of fire.

Always await, if possible, the arrival of the Fire Department, and direct them to fire, if not visible.

Two blows of the bell is a signal that the fire is out.
