The Montreal Exhibition. (Continued from Page 383)

HORSES.

The horse exhibit was, on the whole, not of an extraordinary character. While there were quite good animals in almost every class, the average was not high. The lighter breeds were possibly the better brought out. THOROUGHBREDS

breeds were possibly the better brought out.

THOROUGHBREDS

were only few in number but quite good in character. As at last year's show the contest for 1st place in aged stallions lay between Dawes & Co.'s (Lachine) exhibit and W. C. Edward's (M. P.; Rockland) June Day. They are capital animals of good, useful size. The latter was the favorite of many, but not with the judge, as he placed him 2nd. He is a handsome, round-ribbed brown with capital style and action, while his more successful rival has a bit more breedy appearance. Besides winning 1st in his class he secured the sweepstakes award. The 3rd exhibitor was John Newman, Lachine, who showed good animals in a number of filly classes without opposition. He also won 3rd on aged stallion.

Montreal can always show good things in Roadsters and Standard-breds. The former class especially was well contested, especially in the harness sections. John Newman's stock figured prominently in the younger breeding classes. Nearly all the sections were well contested. The best horse of the class was found in a handsome, finely-formed horse shown by J. J. Roy, Bordeau, while next him in the aged class came a worthy exhibit of D. & J. Greig. In the harness sections the chief exhibitors were T. D. Buzzell, Jas. McVey, the American Stable Co., Geo. Hogg, Montreal, and J. R. McKay, Helena.

In the Standard class, Dawes & Co. led in mature stallion and McVey 2nd on right good, well-bred horses. The best mare was found in an exhibit of Geo. Jordan's, an exhibitor of a number of prize winners. None of the sections were large, but nearly all contained nicely-bred animals of good pattern.

A few nice high-steppers were shown by Montreal exhibitors.

nicely-bred animals of good pattern.

A few nice high-steppers were shown by Montreal exhibitors.

In the Saddle and Hunter classes the awards chiefly remained in Montreal. The exhibits were of quite a high-class character in most of the competing sections. Dr. E. M. Robb was a successful contestant in a number of sections, as was also Jas. McVey, Jas. Johnston, Como, T. D. Buzzell & Co., Mrs. Meredith. and Mrs. Hunter.

The French Coach class was represented by only two horses, shown by A. Stuart, Ste. H. Eustache, and Robt. Ness, Howick, who won as named. Both horses are of strong, useful, nice pattern.

useful, nice pattern.

There is not much to be said about this class. Many prizes offered were not competed for, and a number were taken by thin, indifferent animals, although there were a few good horses present. The 1st and 2nd prize brood mares, shown by Thos. Irving, North Georgetown, and Dawes & Co., were good mares, and good dams as indicated by their promising foals.

CLYDESDALES

were shown by three exhibitors, Messrs. Robt. Ness, Howick; McGerrigle Bros., Ormstown, and American Horse Co., Montreal. The competition lay between the two first-named. Mr. Ness knows a good horse, and will not keep anything else. His stock was not in high fit, but he captured the leading awards in a number of sections, including among others that for mare with two of her progeny, as well as for aged stallions, on his last year's winner, Lawrence Again. McGerrigle Bros. also have right good animals, which were not in higher than nice breeding condition. They are, however, a nice-limbed lot. Their aged stallion, MacInnis, and stallion two years old, are especially of nice Clyde pattern.

Innis, and stallion two yourself in the Civil part of nice Clyde pattern.

Percherons, Shires and Hackneys were represented by one stallion of either breed, while the first-named had also a fine pair of these and a single mare. These while the first-named had also a fine pair of beautiful grays, and a single mare. These were shown by Institute Sourde et Mile End and were well brought out. The Shire, a plainish horse, was shown by Chas. Normandin, Boucherville, and the Hackney, Saxingham Fireaway, a good specimen of the breed, shown by Hermitage Farm, St. John, could guard his own laurels in good competition.

CANADIAN HORSES

are a feature peculiar to Montreal show. They are of French descent, rather nicely put up, about fifteen hands high, moderately clean legged, and of very ordinary action. Most of the awards were taken by Messrs. Jos., J. B., and Henri Deland, Lachine, who showed in most of the sections. Other exhibitors were S. Lecavaber. St. Martin, who won ist on aged stallion; J. J. Anderson, Dominionville, 2nd in same section; and A. Beautus, St. Lauret, who won a couple of premiums.

The pony classes were exceptionally good at this show. Robt. Ness showed a beautiful stallion, also mare in foal, winning list on either. Welsh ponies were shown by C. McGole, who won list on stallion, also on mare in foal, hesides a number of other pony prizes. Mr. G. Boomer and R. Wilson Smith were also successful competitors in pony sections.

ADVERTISE IN THE ADVOCATE.

We recently took the opportunity to visit the works of the John Watson Manufacturing Co. (limited), Ayr, Ont., and found a large number of men employed on fall machinery, especially ensilage cutters. These people make a good machine, that should find ready market among those who need a good machine to put in their corn. Their root pulpers, grain grinders and pneumatic feed elevators, wood saws, horse powers, harrel trucks, etc., are all of good pattern and strong. Their catalogue should be written for.

A. C. Hallman, Naw Dundee, Ont., writes:

should be written for.

A. C. Hallman, New Dundee, Ont., writes:
Sales in Holsteins have been good, and in Tamworths unsurpassed. My herd of Holsteins are quite up to their usual high standard. I have just decided to make an exhibit of Tamworths at Toronto, and would kindly invite my numerous friends to again meet me there. I will rest on laurels won for a year on my Holsteins, and try to bring my Tamworths before the public in the same way. I shall exhibit my old stock boar Nimrod 174, which has never yet contested."

174, which has never yet contested."

MR. ROBERTSON'S SALE OF AVRSHIRES.

The announcement in our advertising columns of the dispersion sale on Oct. 28th of the entire herd of high-class Ayrshire cattle belonging to Mr. R. Robertson, Compton, Que, will be of peculiar interest to Ayrshire breeders and to dairymen generally all over the Dominion. Mr. Robertson having accepted the position of director of experimental farms of Maritime Provinces the whole herd will be sold without reserve. It is probably safe to say that no herd of Ayrshires in Canada combines the blood of a greater number of the best milking strains of the breed, and Mr. Robertson being acknowledged to be one of the best judges of Ayrshires in the Dominion, and always careful in making his selection of sires, the public may depend upon the character of the cattle, as well as that of the man, being reliable. The herd includes all the females in the 1st prize young herd at the World's Fair, and many of their produce, and is at present headed by Matchlers, the magnificent two-year-old son of the great cow, imported Nellie Osborne, 1st prize ow at the World's Fair at Chicago, and of Mr. Reford's grand old bull, imported Glencairn, one of the best of the breed that has ever figured in this country. This young bull, which will be sold at the sale, is full of high-class quality, a show bull in any company, and fit to head the best herd on the continent creditably. while as a breeder he is already making his mark as we would expect him to do, by getting first-class calves, showing great promise as milkers. There are in the herd, besides a full complement of promising helfers of all ages, about twenty high-class breeding and milking cows, including the famous matron Nancy, the dam of Tom Brown, winner of first prize and sweepstakes as best bull, any age, at the World's Columbian Exposition. Selections from this herd have won in the milking test competition that has ever been met at any show in Canada. The herd numbers about 40 head of registered Ayrshires, MR. ROBERTSON'S SALE OF AYRSHIRES.

WM. BUTLER & SON, DEREHAM CENTRE, ONT.

In this fine herd of Guernsey cattle are sixteen head, ten of which are females. Messrs. Butler & Son had the honor of capturing the herd prize at the Montreal exhibition this year. The herd was originally founded from Ontario Agricultural College stock, as well as by importations made from Elliott Warren, North Carolina, where the silver medal cow at Toronto, also a three-year-old and yearling, also first prize winners at Toronto, was purchased. The stock bull, May's Roseberry \$423, by Ontario's Pride, and out of May Queen, is now six years old, and in good form. As a show record he won the silver medal for two successive years at Toronto. He has also proven himself a worthy sire. The four bull calves in the herd are by May's Roseberry, while the yearling was imported from Elliott Warren. He was sired by Prince of Primrose and out of Irma. He is a promising growthy fellow, possessing much strength of constitution. Irma (imported), now ten years old, has raised three calves on the farm, and has proven herself a dairy producer. She came into Mr. Butler's hands with a record of 70 lbs. milk per day, and 3 lbs. butter, and Mr. Butler says although she has never been conditioned for a test with them she has produced over forty pounds milk, testing 6.8. Lady Luke was bred by William Davis, and is now six years old. She is carrying her second calf since purchased. On test she has produced seventeen pounds butter per week. She is an animal possessing much sweetness of quality. There are also a pair of two-year-old heifers that promise well, as well as a pair of yearlings, one of which, Effie Rose of Sunnyspring 9077, by May's Roseberry, and out of Lady Luke 3rd, possessing a good constitution.

In the Chester White pens are some forty animals, at the head of which is the stock WM BUTLER & SON, DEREHAM CENTRE, ONT In this fine herd of Guernsey cattle are six

Rose of Sunnyspring 9077, by May's Roseberry, and out of Lady Luke 3rd, possessing a good constitution.

In the Chester White pens are some forty animals, at the head of which is the stock boar Prince Alexander 337, now five years old; he has been shown all his life, and always winning first honore, which speaks for his quality, possessing great depth and thickness of substance. They have also a very fine hog under one year by Prince Alexander, which promises to equal his sire in the showring and as a stock producer. Ambitious Choice 710 possesses immense substance, being but thirty months old and weighing over 700 pounds. His stock are coming in fine form. Two exceptionally choice yearling sows are deserving of special notice, and are in excellent form, one being lately imported. Rose 806, two-year-old, will weigh about 670 pounds, and possesses an immense back and quarter. She has been a successful breeder says Mr. B., her stock being the kind that are in demand in the market. Two young sows out of Annie Laurie are shown in excellent form, and possess immense depth of body.

In Duroc-Jerseys the firm are showing sixteen head, one aged boar, one yearling, and one under a year. The aged sows were bred by John H. Banghardt, Lansing, Mich., and were imported this season, and, considering that her litter was weaned in July, the aged sow is in fine form.

W. F. STEPHENS' (TROUT RIVER) AVRSHIRES.

In the herd of W. F. Stephens, Trout River, Que., are some 23 matrons which will commence dropping their calves in September. This herd was founded in 1869 from stock purchased from Thos. Irving, Montreal, and the bulls have been obtained from such breeders as Gibbs. Drummond and Irving; the present one, Uncle Sam, being a son of the noted Nellie Osborne, and by Baron Renfrew by Mansuraes (imp). Uncle Sam was the first calf dropped at the World's Fair, Chicago, and has grown into a strong, stylish fellow, full of quality and ambition, yet of a good disposition and a producer of creditable stock. Heather Queen 4746, by Duke of Argyle 2921, and out of Nettie 2910, is still regarded as a valuable cow, having been a regular producer—all her stock finding ready buyers. She has a record of 56 lbs. milk per day, and several first premiums have been placed to her credit. Nettie 2nd 4747, by Duke of Argyle 2921, and out of Dew Drop 2914, has also been a winner in the showring, as well as a successful breeder. She has a record to her credit of 63 lbs. milk per day. Fedora 5532, by Golden Guinea 4454, and out of Lady Dufferin 3rd, also possesses much superior quality. Her sire was the sweepstakes bull in the Province for several years. She has a milk record of 55 lbs. per day. She is a lowset, business-looking cow, and has won the admiration of good judges. Duchess of Fife is a five-year-old cow by Allan Gordon 5311, and out of Dora 5814, due to drop her third calf in January. She has also taken prominent places in many showrings. Of such animals as the above the entire herd is composed, and are in the pink of condition, without the appearance of having been pampered. Of the 16 heifers, the two-year-olds are by Allan Gordon, while the yearlings were sired by Uncle Sam, and are a smooth, strongly-constituted lot. In fact, they are a herd within themselves. The yearlings by Uncle Sam are of somewhat more rangy type, with good solid bodies—the kind from which to expect producers. W. F. STEPHENS' (TROUT RIVER) AVRSHIRES. within themselves. The yearlings by Uncle Sam are of somewhat more rangy type, with good solid bodies—the kind from which to expect producers. Right calves were also shown us, seven of which are females. The bull was lately sold to go to Ontario. Mr. Stephen reports a very active demand for Ayrshires.
