

The IDEAL Green Feed Silo

**NOT AN EXPERIMENT
BUT A TIME-PROVEN FACT**

Don't waste your time and money on an experiment. Our silos have been tried and proved for years. Are built from lumber thoroughly treated with a specially-prepared wood preservative, and have other important points of superiority. Free catalogue on application.

Ormsby Grange Stock Farm, Ormstown, P. Que., Canada

IMPORTED CLYDE FILLIES

Owing to the rough voyage experienced by my May importation only six were offered for sale, and were sold. The balance, consisting of two three-year-olds, one four-year-old, two two-year-olds and six yearlings have now completely recovered condition. These, with a few home-bred ones, including two yearling stallions of great promise, are now for sale at very low prices, considering their quality and breeding. Don't miss this opportunity of securing heavy-boned, highly-bred young ones cheaper by far than you can import them. Terms liberal.

DUNCAN McEACHRAN.

CLYDESDALES AND PERCHERONS

To all lovers of Clydesdale and Percheron horses in Canada, I wish to say that about Aug. 1st I will sail for Scotland and France for another shipment, and intend to bring a high-class lot of show horses. Wait until you see them. Look up my exhibit at Toronto Exhibition.

T. D. ELLIOTT, BOLTON, ONT.

Mount Victoria Stock Farm, Hudson Heights, P. Q.

left. A well-bred colt that will make a ton horse. Price right for quick sale.
BARBER BROS.
GATINEAU PT., QUEBEC.

IMPORTED CLYDESDALE FILLIES

My latest importation arrived June 6, 1911, ranging in ages from 1 to 4 years, and are all of good quality and large type. Have also a couple of stallions for sale at right prices. Long-distance phone
GEORGE G. STEWART, Howick, Que.

NEW IMPORTATION OF CLYDESDALES

Just arrived. A grand lot of fillies and stallions. Everything that could be desired as to size and quality. Phone connection.

JOHN A. BOAG & SON, QUEENSVILLE, ONT.

Peachblow Clydesdales and Ayrshires—In Clydesdales I am offering several stallions from 1 to 6 years of age, Imp. and Canadian-bred, high-class in type, quality and breeding. Ayrshires of all ages in females, big, well balanced, choice in quality and producers, and one young bull fit for service. Prices very easy.
R. T. BROWNLEE, Hemmingford, Que.

QUESTIONS AND ANSWERS. Miscellaneous.

SCRATCHES.

Give a reliable remedy for scratches in horses.
J. P.

Ans.—Purge with a ball consisting of 9 drams of aloes and 2 drams ginger after feeding a bran mash or two. Poultice the heels with linseed meal and a little powdered charcoal for two days and nights, putting on fresh poultices every eight hours, and then dress three times daily with a lotion consisting of 1 ounce each of sulphate of zinc and acetate of lead and 2 drams of carbolic acid to a pint of water. Do not wash the legs. If they get wet, rub them dry.

BROME AND OTHER GRASSES.

Do you know if Australian Brome grass will stand the Canadian winters, and if it is a good kind of grass to sow for pasture, where a person could get the seed, and what time of the year is best to sow it? What time of the year is best to sow other grasses, and which are the best kinds for pasture?
J. Mc.

Ans.—Brome grass stands the Canadian winters very well, but often does not make good growth the first year. It can endure any amount of cold, and also stands heat well, and does well on light soil. It is a very good pasture grass, being more suitable for pasture than for hay. The seed can be obtained from any of the large seed firms, and should be sown in the early spring with a nurse crop. It may be sown in June, or in August or September, without a nurse crop, on land that has been summer-fallowed. The nurse-crop method is the better. Most grasses and clovers are sown with a nurse crop in the spring. For pasture for two or more years: Red clover, 6 pounds; alsike clover, 3 pounds; orchard grass, 3 pounds; meadow fescue, 3 pounds; timothy, 3 pounds, sown in the spring.

HESSIAN FLY.

What treatment could fall wheat be given to protect it from the ravages of the "fly"?
P. A. L.

Ans.—The following six precautions are the best known against the ravages of the Hessian fly, and we presume this is the fly referred to:

1. Choose only good, plump seed for sowing.
2. Do not sow wheat in the same fields as were infected this year, but rotate the crops.
3. Prepare the soil with extra care, in order to produce as rapid growing and vigorous plants as possible. This helps to enable them to recover from attacks.
4. Do not sow your wheat before September 15th. The damp weather of August practically insures that the flies will nearly all have emerged and laid their eggs before the sowing.
5. Plow down the volunteer wheat, barley or rye growing in the stubble fields not later than the end of September, because if the young larvae are left longer they may emerge next year in spite of the plowing.
6. Often much benefit has been gained by burning all rubbish from threshing. This destroys many of the immature insects.

Veterinary.

MARE WITH COUGH.

Mare eleven years old has a very bad cough when standing in barn or when working; has a wheezing in head, and sometimes a discharge from her nose.

SUBSCRIBER.

Cumberland Co., N. B.

Ans.—Get 1½ ounces of iodide of potassium, divide into 12 powders and give one powder morning and evening on her food till done. Keep the nostrils washed clean. If no improvement results, a veterinary surgeon ought to be consulted, because the symptoms suggest the possibility of nasal gleet, which, if present, well require an opening to be made through the bones of the face to allow the pus to escape.
V.

HORSE OWNERS! USE

CAUSTIC BALSAM.

A safe, speedy and positive cure. The safest, Best BLISTER ever used. Removes all blemishes from horses. Impossible to produce scar or blemish. Send for circulars. Special advice free.
