### GOSSIP.

At a draft sale of Shorthorns, from the herd  
of Miss Alice de Rothschild, at Waddesdon  
Manor, England, July 5th, the 41 head sold  
averaged £39 7s. 6d. The highest price was 455  
guineas for the young bull, Bashful Youth,  
by Brave Archer, bought for South America.  
Jessie Elmhurst brought 120 guineas, the high-  
est price for a female, being bought by Mr.  
Macleanman for South America. Sixty-two  
guineas was the next highest price.

We learn from the London, Eng., *Farmer and  
Stock Breeder* that Mr. Robert Miller, of Stouff-  
ville, Ont., has purchased from Mr. Robert  
Taylor, of Pittville, Scotland, five Shorthorn  
cows and heifers for Mr. Kelly, of Ohio. The  
particulars are as under: Cows: Lady Mary  
2nd, roan, calved February 14th, 1897, of  
Lord Lovat's Broadhooks tribe; Countess of  
Pittville, roan, of the same family, calved March  
4th, 1898; Fairplay 4th, roan, calved February  
25th, 1898, bred by Mr. Durhie; also her bull  
calf, Pittville Commander, roan, calved April  
3rd, 1900, sire Scotland Crown 7532, the bull  
sold to Professor Curtis, Iowa Agricultural  
College last year. Heifers: Dora Pittville, red,  
calved March 5th, 1898, of Lord Lovat's Julia  
tribe; Nellie of Carlogie 4th, roan, calved  
March 2nd, 1899, sire Sir Wilfred Laurier 73658,  
of the well-known 1 per cent. Missie tribe. All  
these cows and heifers are served by Bapton  
Ensign, first pick of Mr. Deane Willis' 1890  
calves.

### AYRSHIRES FOR CANADA.

A recent issue of the *North British Agricultur-  
ist*, published in Edinburgh, contains the follow-  
ing: "A good few transactions in Ayrshire  
cattle have recently been effected. At the Ayr  
show, Mr. Hunter, from Montreal, purchased  
from Messrs. Kerr the beautiful three-year-old  
quey, Senorita, which not only won the Derby,  
but was first also amongst the three-year-olds  
in milk, besides getting the Herd Book prize as  
the best cow or quey. She is one of the best  
queys that has yet won at Ayr, and will be a  
substantial addition to the Ayrshire interest in  
Canada. Mr. Hunter also bought from Messrs.  
McAlister, Mid-Ascog, the excellent quey  
which was first in the Kilmarnock Derby and  
seventh at Ayr. This is also a very superior  
quey, showing both quality and breeding. At  
the Glasgow show, the same gentleman also  
bought from Mr. McKean, Dam of Aber, the  
splendid bull, Douglassdale, which won the male  
championship, and the prime two-year-old  
heifer, Lady Montrose, which was first in per-  
haps the strongest class of the age that has  
ever been seen in Glasgow. These are also a  
pair of very superior animals, as the positions  
they took in such company will abundantly  
testify. Douglassdale and Lady Montrose will  
be accompanied from Dam of Aber by the ex-  
cellent cow, Lady Flora 1st of Orchardton,  
bought at the Orchardton sale. The dam of this  
cow, Lady Flora, was in her day first at the  
Highland Society, and the kind of them have  
always done well. The whole of these cattle,  
besides several others which Mr. Hunter has  
bought, are for W. W. Ogilvie & Company, of  
Lachine, Montreal, who imported an impor-  
tant draft of Ayrshires two years ago, but their  
group of this year when completed will be one  
of the best that has ever left the country, and  
will probably be unique in that it includes two  
champion winners at the leading shows, one of  
them actually the winner of the Ayrshire blue  
ribbon of the year—the Ayr Derby."

### G. W. CLEMONS & SON'S HOLSTEINS.

The Maple Hill Holstein-Friesian herd of  
Messrs. Clemmons, at St. George, Ont., is well  
holding its place in the front rank of the breed  
in America, being bred and selected for the  
combined virtues of handsome conformation,  
mellow handling, well shaped udders, and deep-  
milking records. The blood of the noted De  
Kol 2nd now predominates in the herd, there  
being about 20 females of that blood on the  
farm. The first importation of the family com-  
prised the two grand cows, Queen De Kol and  
Inka Rose Pietertje De Kol, and their descend-  
ants figure largely in the herd at the present  
time. The last named cow was the winner of  
first prize at Toronto as a 2-year-old, and first  
at Ottawa in 1897, and made a record of 64  
pounds of milk at 4 years old, while her dam,  
also in the herd, at maturity gave 75 pounds  
daily. Queen De Kol 2nd, daughter of Queen  
De Kol, won first prize at the Brantford Pro-  
vincial Dairy Show, and the Prince of Wales's  
sweepstakes prize as the best cow in the test  
under 36 months. Mondamin's Daisy Harrington  
ton, who made a record of 62 pounds milk daily  
at 2 years old, and an average of 50 pounds for  
6 months as a 2-year-old, and won 11 first  
prizes and 3 sweepstakes, was also imported in  
calf to De Kol 2nd, with the result that she  
added a heifer to the herd in Daisy Harrington  
De Kol, one of the most desirable sort, and  
worthy of the family name. These heifers,  
born on the farm to Empress Josephine 3rd's Sir  
Mechthilde, came under the official test at the  
London Dairy Show in 1899. Daisy Harrington  
De Kol gave at 25 months at the rate of 11 lbs.  
8 ozs. in a week; Queen De Kol 2nd, 10 lbs. 5  
months after calving. At the Provincial Dairy  
Show at Brantford in 1897, the three cows win-  
ning the first prize for herd of dairy cows, open  
to all breeds, by test, were from the Maple Hill  
herd, the cows having been milking for several  
months previously. The last crop of calves  
from the cows named was by De Kol's 2nd Paul  
De Kol Duke, now in service, with the result  
that 8 young females of this blood are added to  
the herd. Among the many useful cows doing  
high-class dairy work is Cornelia Apple, by  
Cornelia Tenson's Mink Mercedes, a first prize  
Toronto winner, with a 4-year-old record of 64  
pounds milk daily, after an attack of milk  
fever. She is a granddaughter of the fine old  
cow, Cornelia Tenson, a noted prize-winner and  
producer. The stock bull, Count Mink Mer-  
cedes, winner of first prize and the champion  
ship at Toronto last year, is still in service, and  
is regarded by his owners as the best sire of  
females in the breed in this country, producing  
them uniformly, with well shaped udders and  
covered with the fine, medium quality of skin,  
which characterizes himself. The two grand  
bulls, Daisy De Kol, 2nd, and Daisy De Kol, 1st,  
great show cows, De Kol's 2nd, 20 lbs. 5 pounds,  
and Daisy De Kol, 1st, 20 lbs. 5 pounds, are the  
best of the breed in this country. Write now for  
prices, stating what you want.

This is

## Mr. Pardo's Barn

As it appears completed.

WHAT MR. T. L. PARDO SAYS:

ESTATE OF JOHN BATTLE, THOROLD, ONT.

ORDRE SPRINGS, KENT COUNTY, ONT., Nov. 21, 1899.

DEAR SIRS, I write to say that we have now fully completed the stabling in my new barn, and I am  
well pleased with the work done throughout the whole building, which is 54 x 100 feet, with basement  
walls 9 feet high, and a silo 14 x 14 feet, same height as walls, built in a corner of the basement wall,  
there being a concrete floor throughout the whole building. We used in all 200 bbls. of your Thorold  
Cement in this work, with the result that our walls and floors are as hard as rock itself. The work was  
all done under the supervision of your travelling agent, Mr. Marcus A. Ware, a man who appears to be  
completely master of his trade, and who is always in a hurry, but never slights his work. I send you  
photo of building under separate cover.

Yours truly,

T. L. PARDO.

## Estate of John Battle, Thorold, Ontario.

## THE NATIONAL FARM Cream Separator

Manufactured by the Raymond Mfg. Co. of  
Guelph, Limited, manufacturers of the  
celebrated Raymond Sewing  
Machines.

THE National is an up-to-date machine,  
leading all others in separating cream  
by centrifugal force. It is the farmers'  
choice, because it runs easy, skims fast and  
clean, and makes a perfect cream, contain-  
ing any per cent. of butter fat desired. It is  
also easier to clean than any other. The  
National is built of the very best material  
suitable for the construction of a high-speed  
machine, and with proper care should last a  
lifetime. The bearings are interchangeable  
and easily adjusted. Every machine is guar-  
anteed to do good work, and a trial of the  
"National" is solicited before purchasing  
any other. The already large sale of the  
"National," and the growing demand for it,  
shows how much the Canadian farmers ap-  
preciate a Canadian-made machine that does  
its work so easily and well, and at the same  
time returns such a large profit on the small  
investment. Ask for the "National," try  
it and buy it.
