of the Waterloo Tavern, Coatham, Yorkshire, late of the Life Guards, dated September 28th, 1848. To Professor Holloway.

Six,-For a long time I was a martyr to Rheumatism Sik.—For a long time I was a martyr to Rheumatism and Rheumatie Gout, and for ten weeks previous to using your medicines, I was so bad as not to be able to walk. I had tried doctoring and medicines of every kind, but all to no avail, indeed I daily got worse, and felt that I must shortly die. From seeing your remedies advertised in the paper I take in, I thought I would give them a trial. I did so: I rubbed the Omtment in as directed, and kept cabbage leaves to the parts thickly spread with it, and took the Fills night and morning. In three weeks I was enabled to waik about for an hour or two in the day with a stick, and in seven weeks I could go any where with-

enabled to walk about for an hour or two in the day with a stick, and in seven weeks I could go any where without one. I am new, by the blessing of God and your medicines, quite well, and have been attending to my business more than seven months, without any symptoms of the return of my old complaint.

Besides my case of Rheumatic Gout, I have lately had proof that your Pills and Ointment will heal any old wound or ulcer, as a married woman, living near me, had had a bad leg for four years, which no one could cure, and I gave her some of your Pills and Ointment, which soundly healed it when nothing else would do it. For your information I had the honour to serve my country for twenty-five years in the first regiment of Life Guards, and was eighteen years a corpogal. I was two years in the Fenianalar War, and was at the Battle of Waterloo. I was discharged with a pension on the 2nd September, the refinalization war, and was at the Battle of Waterloo.

I was discharged with a pension on the 2nd September,

To Professor Holloway.

Sis,—With pleasure and gratitude I have to inform you that after suffering for 21 years with a bad leg, which yielded to no kind of treatment, although I consulted, at different times, every medical man of eminence in this part of the country, but all to no purpose. I was frequently unable to work; and the ain and agony I often endured no one can tell. My leg is now as sound as ever it was in my life by means of your I'ills and Olatment, which I purchased from Mr. I. Davideon, Druggist, Barwick-upon-Tweed, who knows my case well, and will, I am sure, be happy to certify with me, if necessary, as to the truth of this wonderful eare.

Sia,—I was superintending, about six months ago, the erection of one of our Railway Bridges, and by the fall of a large stone my right foot was exciously bruised, which ultimately got so had, that I was advised to go to Edinburgh to consult some of the eminent Surgeous, which I did, and was told that in order to save my foot, two of my toes must be taken off. In despair, I returned home to impart the melancholy news to my wife, intending to submit to the operation, it was then a thought struck me to try your valuable Olintment and Pills, which I did, and was by their means in three weeks emabled to resume my usual occupation, and at this time my toes are perfectly cured.
