The Keenest Edges Ever Made

Poets have sung and historians told of the razor-edged blades of Damascus steel with which men used to carve each other.

Those were wonderful products of the steel-worker's art—for the time and generation. But modern Science knows where those men guessed, and its keenest products,

GILLETTE Safety Razor Blades

carry edges uniformly sharper and harder than the best the old steel-workers turned out. Every piece of steel from which Gillette blades are made has to come up to a carefully-worked-out chemical analysis, so searching that any defect is quickly detected. Then each paper-thin blade is hardened through and through by electricity, at a temperature regulated to a fraction of a degree, giving an even, perfectly hardened metal that hand-forging and rule-of-thumb methods could never equal.

At your Druggist's, Jeweler's or Hardware Dealer's, buy a Gillette—you'll enjoy its lasting keenness. Standard Sets \$5.00—Pocket Editions \$5.00 to \$6.00—Combination Sets \$6.50 up.
