tended Into a National Work

OTTAWA, Aug. 4 .- It is probable that the government will take steps to extend the powers of the National Batyear to take charge of the Champlain Tercentenary celebration at Quebec and to carry out the project of converting the battlefields at Quebec into a national park. When the commission was appointed the suggestion was made that its scope be widened to include the whole work of preserving for the people of Canada as a whole the various places and sites of historic interest throughout the Domin-

ion. At the time this larger scheme was left in abeyance, but it has been forgotten. There are many old forts and places of great historic interest in the Maritime Provinces and in Ontario and Quebec which are now being left cargo of 2,000 cords of pulpwood for same position as he was before in re-

The other cases where a reduction of duty is provided for in the Paym tariff apply to the highly specialize industries which even in a free trade basis could exist, or to goods required as raw material for manufacturing pun poses. The lowering of the rates is of little importance, so far as the Canadian exporter is concerned.
