Belgians are Starving While Canadians Have Plenty

Our Heroic Allies Deserve More Help than We are Giving

An accident of geography, and the fortunes of war, have subjected Belgium to the cold-blooded, calculated cruelty and attempted starvation of the German conquerors—while we in Canada, secure from danger, are making money out of the War.

Legitimate though our profits are, we surely owe a substantial share of them to our Allies, who are destitute because they dared stand up for their rights and defy the enemy.

We have given much-but barely enough to help keep the Belgians alive. More of them every week are calling for help, as their own resources are exhausted, and every one of the millions should have something more than the three slices of bread and the pint of soup which is all the Relief Commission can supply out of present contributions.

Whatever you can afford to give, send your subscription weekly, monthly, or in one lump sum to Local or Provincial Committees, or
