## Home Made Electricity

How a Farmer May Utilize a Little River.

Why not more electricity for our farmers?

Easy to get, and mighty cheap, if there be on the farm even a tiny stream.

There are scattered throughout the country innumerable brooks and streamlets capable of supplying enough electric power for all farm and domestic needs.

A brook ten feet wide, with an average depth of two feet and flowing two feet per second under a "head" of five feet, can supply ten horse-power continuously—enough to light the average farmstead and leave enough over to operate motors for many of the needs of power on the farm.

Electricity on the farm is as helpful to the farmer's wife as to the farmer. It may be so utilized as to relieve her of much drudgery.

The first thing for the farmer with a brook at hand to consider is how much power he requires—the unit of electrical power being the "watt." One horse-power is the equivalent of 746 watts.

To run a twelve-inch electric fan requires forty watts; a toaster, 400 watts; a four-inch disk heater, 450 watts; a coffee percolator, 500 watts; a small hot-water heater, 1,500 watts. Lights consume ordinarily twenty-five or forty watts.

To run a churn takes half a horse-power, a cream separator the same, a milking machine the same, an ice cream freezer the same, a washing machine the same, a grindstone half that much, a wood-saw three horse-power, a hay press the same, a feed grinder five horse-power.

Even an insignificant streamlet may supply all the current needed on a farm, for lighting if for no other purpose, when properly harnessed. With storage batteries provided it can use all of its energy throughout the twenty-four hours in loading them—the power to be drawn off during only a few hours each day.

Hydro-electric outfits suitable for farm use are inexpensive, and their upkeep costs almost nothing.

### Where Wood Is Money.

Who ever heard of wooden money? The only known currency of this kind is issued by the Hudson Bay Company, and circulates all over the vast territory controlled by that powerful trading concern.

It is a coinage consisting of pieces of wood known as "castors," which are stamped with a die. These are accepted everywhere in that territory as cash, and are exchangeable for all sorts of supplies and commodities at the widely scattered stations of the corporation.

The area governed by the company is vast. In one straight line it extends as far as from London to Mecca; from King's Posts to the Belly Banks is further than from Paris to Sarmacand. Over all of this region the corporation exercise a complete dominion, employing the native Indians, chiefly Ojibway and Crees, to collect the furs which furnish its revenue.

Hudson Bay is about two-thirds the size of the Gulf of Mexico. It is an almost landlocked sea, with 3,000 miles of coast line. More than 300 years ago Hendrik Hudson, trying to find the northwest passage, wintered there. His crew mutinied and set him adrift in an open boat with his son and seven others. He and his companions were never seen again. The unit of value in that part of the world is a beaver skin. Two martens are equal to one beaver, and twenty muskrats are equivalent to one marten. The trapping is done in winter, and in spring the Indians bring the pelts to the stations, receiving in payment for them wooden money. With the latter they buy what supplies they need at the store maintained by the company at the stations.

### Bill's Pension.

"Well, Bill, what are you going to do when you gets demobilized?"  
"Live on me pension, of course."  
"You don't think yer goin' to get a pension from the army, do yer?"  
"No, not army—old-age pension, I mean."

### Time Lost In Disputes.

The time lost on account of industrial disputes in Canada during April was much greater than during either March, 1919, or April, 1918. There were in existence during the month 37 strikes, involving 12,415 workpeople and resulting in a time loss of 111,083. Twenty-seven strikes were reported as having commenced during April. At the end of the month 14 strikes affecting approximately 1812 workpeople remained un-terminated.

## The New School

Work on Waterdown's fine new \$75,000 Public school began last Monday when Architect Arms staked out the grounds. The work of erecting tool shed and storage room for cement has been finished and the excavating will be proceeded with at once.

As the contract calls for the completing of the building this year the work will be rushed as rapidly as men and material can be secured.

The school, when completed, will be one of the finest village schools in Ontario and equal to any city school in Canada. It will contain its own private water system, steam heating plant, electric fans and other modern improvements. The building is being erected on the old Fair grounds, which was purchased by the School Board some time ago, and will front on Mill street. An ideal location. Mr. Henry Slater of this village has the contract for the entire construction of the building.

### Song Service

Next Sunday evening there will be a special service of song in the Methodist church to which everyone is invited and will be cordially welcomed. The choir will be assisted by Miss Chrystal Sharpe, soprano soloist of Ancaster, and Messrs. Galivan and Langton, violinist. The following music will be given.

Organ	Andante in G	Batiste
Anthem	Awake, Awake	The Choir
Trio	O for a Closer Walk with God	
	Mrs. Thomas, Misses Featherston and G. Everitt	
Solo	Thy Will Be Done	Marsten
	Miss F. Dale Sinclair	
Male Quartette	My Anchor Holds	
	Messrs. Sawell, Sparks, Smith and Allen	
Violin Offertory	Air from Il Trovatore	
	Mr. C. Galvan	
Solo	Miss Chrystal Sharpe	
Anthem	"Sail On"	E. Sparks and Choir

### It Pays to Smile

It pays to wear a smiling face,  
And laugh our troubles down,  
For all our troubles wait  
Our laughter or our frown.  
Beneath the magic of a smile,  
Our doubts will fade away  
As melts the frost in early spring  
Beneath the sunny ray.

It pays to make a worthy cause  
By helping it, our own,  
To give the current of our lives,  
A true and noble tone.  
It pays to comfort heavy hearts  
Oppressed with dull despair,  
And leave in sorrow darkened hearts  
A gleam of brightness there.

It pays to give a helping hand  
To eager earnest youth,  
To note with all their waywardness  
Their courage and their truth;  
To strive with sympathy and love  
Their confidence to win;  
It pays to open wide the heart  
And let the sunshine in.

MARIE

### Yeoman-Buchan Wedding

A quiet wedding was solemnized at Grace church on Saturday afternoon last. Rev. H. J. Leake officiating, when Miss Mary Mabel Buchan, youngest daughter of John and Mrs. Buchan, Dundas street, was united in marriage to Mr. John Yeoman of Hamilton. The young couple was unattended, and only immediate relatives of the contracting parties were present at the ceremony. The bride, who is one of Waterdown's fairest and popular daughters, was the recipient of a number of useful and costly presents which amply testify to the high esteem in which she is held by a large circle of friends who will wish the young couple many years of happy married life. Their future home will be in Hamilton.

## Mrs. Marion Inksetter

After an illness of many months duration, death relieved the patient suffering of Mrs. Marion Inksetter last Friday at her home here. Deceased was the widow of the late Col. Geo. A. Inksetter of the 2nd Divisional Engineers who was killed at the Somme in October 1916. She was the youngest daughter of Thos. Gibson of Copetown, where she was born 31 years ago. She was widely known and highly respected by a large circle of friends who regret her death and extend to the sorrowing relatives heartfelt sympathies.

The funeral took place Sunday afternoon from her late residence here to Christie's cemetery, services at the home and grave being conducted by the Rev. J. F. Wedderburn, pastor of Knox church. A large number of friends attended to pay a last tribute of respect to a kind and noble woman.

The pallbearers were D. Meyers, Thos. Work, J. Inksetter, R. Smith, W. Smith and Thos. Foran, all relatives of deceased.

### Stanley Bean Electrocuted

Mount Elgin, July 15 —The funeral was held yesterday, from Dereham Centre Church to Mount Elgin cemetery, of Stanley, the ten-year-old son of Rev. J. W. Bean, of Dereham Centre, formerly of Onagh, Halton County, who was killed on Thursday afternoon by coming in contact with a high voltage Hydro wire, which had been broken down by limbs of trees, torn off by the high winds and which was lying by the roadside. Apparently he did not see the wire, screened by leaves. Rev. Dr. Ross conducted the service, assisted by several other ministers. Sunday School class-mates of the little lad bore the floral tributes. Relatives and friends were present from Kitchener, Woodstock, Ingersoll, St. George, Millgrove and Hamilton.

The Rev. J. W. Bean was a former pastor of the Millgrove Church and well known in this locality. The many friends of the family will be sorry to learn of their sad bereavement.

### Died of Wounds

Sergt. J. H. Robertson, who was reported missing on Oct. 1st 1918, is now officially announced to have died of wounds on or after Oct. 1st, 1918. Word to that effect having reached his wife and family here last week.

### Millgrove

A number from here attended the funeral of Stanley Bean which took place at Dereham Centre.

Mr. and Mrs. Moorehouse of Sault Ste. Marie is visiting at Arthur Mc Intyres this week.

Vivian Smith of Hamilton is spending her holidays in the neighborhood.

Mrs. Mosher of Toronto is visiting with her daughter, Mrs. Kenneth Cummins.

Mr. and Mrs. Hugh Drummond of Hamilton attended church here last Sunday.

Mrs. Lindsay, of St. Thomas, is ill at the home of her daughter, Mrs. Roland Cummins.

A large number of our young people attended the Grocers' Picnic at Wabasso Park and the Garden Party at Waterdown last week.

Harry Allen another of soldier boys has returned home, and is staying at Geo. Lises.

A Community meeting was held here last Tuesday evening in the interests of our returned soldiers.
