THE DISTRICT.

TILBURY

April 10.—Mrs. A. Coutts and Miss McVean have returned from Chatham.

Miss Kerr, of Chatham, is visiting Miss Mamie Maine Smith here. Mr. Thibodeau, Queen St., is seriously ill.

There is a good deal of talk just now among citizens of applying to council for a new fire hall. It is worthy of remark that most of these people were conspicuous by their absence at the late fire and, wonderful to relate, are generally non-taxpayers.

The vestry meeting in St. Andrew's English Church last evening was very satisfactory. The following were the officials elected:

Delegate to Synod—Henry Wilson.

Vestry Clerk—Arthur Wilson.

Auditors—W. A. Shaw and George Munroe.

A vote of thanks was tendered to the organist and choir.

The Daily Planet is on sale at Johnston's Drug Store.

NERVOUS DYSPEPSIA.

A CURE FOR IT.

Not a Patent Cure, but a Modern Miracle, but Simply a Rational Cure for Dyspepsia.

In these days of humbuggery and deception, the manufacturers of patent medicines, as a rule, seem to think their medicines will not sell unless they claim that it will cure every disease under the sun. And they never think of leaving out dyspepsia and stomach troubles. They are sure to claim that their medicine is absolutely certain to cure every dyspeptic and he need look no further.

In the face of these absurd claims it is refreshing to note that the proprietors of Stuart's Dyspepsia Tablets have carefully refrained from making any undue claims or false representations regarding the merits of this most excellent remedy for dyspepsia and stomach troubles. They make but one claim for it, and that is, that for indigestion and various stomach troubles Stuart's Dyspepsia Tablets is a radical cure. They go no further than this and any man or woman suffering from indigestion chronic or nervous dyspepsia, who will give the remedy a trial, will find that nothing is claimed for it, that the facts will not fully sustain.

It is a modern discovery, composed of harmless vegetable ingredients, acceptable to the weakest or most delicate stomach. Its great success in curing stomach troubles is due to the fact that the medical properties are such that it will digest whatever wholesome food is taken into the stomach, no matter whether the stomach is in good working order or not. It rests the overworked organ and replenishes the body, the blood, the nerves, creating a healthy appetite, gives refreshing sleep and the blessings which always accompany a good digestion and proper assimilation of food.

In using Stuart's Dyspepsia Tablets no dieting is required. Simply take plenty of wholesome food and take these Tablets at each meal, thus assisting and resting the stomach which properly regains its proper digestive power, when Tablets will no longer be required.

Nervous dyspepsia is simply a condition in which some portion or portions of the whole food are not properly nourished. Good digestion invigorates the nervous system and every organ in the body.

Stuart's Dyspepsia Tablets are sold by all druggists at 50 cents per package.

They are manufactured by the F. A. Stuart Co., of Marshall, Mich.

BAD WELLS THE CAUSE OF TROUBLE

More so Than Tubercular Cows According to This Correspondent.

To The Planet.—There has been quite a stir among scientific men about the danger of using milk from cows that have responded to the test for tuberculosis. Now is not the danger more imaginary than real? Can any of the gentlemen point out a single case where any tubercular disease has been communicated to the human species; with any reasonable degree of certainty? I think that if they would extend their researches in another direction they would find a more prolific source of disease. I allude to the wells from which the drinking water for the farmer's family and animals is obtained. Call at a farm house in the summer for a drink of water, and in many cases you will notice something wrong. Now uncover the well and what you will see, will quench your thirst very quickly—a toad, or rat, or perhaps a snake, bloated up and floating on top of the water in the last stages of decomposition. Pump out the water and you will find a full of skeletons of former victims, as well as a collection of bugs, worms, et cetera, that would turn the stomach of a hog. I do not say that time, as well as through the country are in that condition, but many of them are, and this water is used for drinking by the farmer's family, as well as for watering all milk vessels and the butter made under such conditions is carried to market and pronounced lovely. I think the danger from disease in food of this kind, under such circumstances, from the using of the milk from a cow having a few tubercles in her lungs.

AT THE THEATRE.

The Fenberg Stock Co. which opens a three night's engagement at the Grand tomorrow evening is credited by the papers and house managers in Hamilton, St. Catharines, London and Brantford with being the best repertoire company that Manager London, of Hamilton, has let into his house in three years and he writes Mr. Cairns that the performances given were much better than many of the high-priced attractions he has played this season. The Fenberg Co. made a new house record in Hamilton in the matter of receipts, the house being entirely sold out every night.

The company is playing a return engagement of three nights this week in London to immense business. It carries a full load of special scenery and effects and has no less than three machines for moving pictures and illustrated song work.

Mr. Cairns has refused time to at least a dozen repertoire shows in the last month because he was in doubt as to their quality and says that this company will be found to be far above the average of such organizations.

"On the Suwanee River," which comes to the Grand May 1 is in Brooklyn all this week, goes from there to Montreal for a week, then to Toronto for a week, and then to Hamilton, London and Chatham. Chatham is thus one of the three one-night stands in all Canada to get this delightful piece.

Walter E. Perkins in that funniest of all farces, "The Man From Mexico," will probably be at the Grand April 20.

Arrangements are just about closed for the appearance of "Way Down East" at the Grand May 14.

The next number in the Lyceum Course will be the New York Musical Club April 26. Edmund Vance Cooke, another number in this course will probably be here the following week.
