Old Warrior Takes Warpath. Galveston, Tex., July 10.—The old Apache warrior Caronimo, who terrorized the southwest for many years by his bloodthirsty band, while attending a celebration at Cache under parole as the guest of the Comanche Chief Quana Parker, made an attempt to escape across the Texas Panhandle into New Mexico. He was captured several hours later. The old warrior had heard of the troubles of the Apaches in Arizona, who, according to reports, have threatened to go on the warpath, and says he wanted to go and help them fight.

PASSED BOGUS BILLS

Alleged Counterfeiters Are Arrested by the Police.

Charles Burke Apprehended at Lindsay and Two Canadians in Sault Ste. Marie—Plant is Located—Hundreds of Spurious Bills Found—Men Believed to Be Working Together.

Lindsay, July 10.—No further arrests had been made here up to a late hour last night as a result of the arrest of Charles Burke here and R. Wynn and A. Bryane at Sault Ste. Marie on charges of circulating counterfeit notes of the Montreal, Dominion and Traders' banks.

Detectives Parkinson and Cowan of Toronto are still here, however, and several citizens are under surveillance, pending, it is said, the rounding up of a gang of counterfeiters.

At Montreal a young Englishman named Evely was taken in by the police, but his partner, Bob Logie, well-known here, escaped and is said to be across the line.

Charles Burke, aged 60, reputed to be worth \$15,000, and a life-long resident of Lindsay, who was arrested at his home on Monday, is supposed to be the "man behind." Yesterday his home was searched, revealing dies, a photographic outfit, bank bills, paper and all the necessary equipment for an expert counterfeiting establishment. Several other houses in the neighborhood were also searched, when the bunch of bills and other paraphernalia were found.

A Man of Mystery. Burke has been a mysterious quantity in this town for several years. He was in the saw mill business up the river for some time. The mill was burned down 15 years ago, and since then Burke has been accumulating a bank account, and the citizens have wondered at his apparent prosperity.

The story that leaks out now is that several years ago a citizen had a fake counterfeiting machine, which so interested Burke that he wanted to go into business with the man, guaranteeing to pass the bills if he would make them, not knowing that the machine was a fake. Shortly after this he took up the study of photography, and was known around as an expert photographer.

Four years ago Bob Logie came on the scene, and at the same time bogus Bank of Montreal bills were circulated in Lindsay, but no trace of the counterfeiters was found.

During the last three years it has been the custom of Burke and Logie to go west for the summer, and it will be remembered that during these periods vivid reports of counterfeit money in circulation came back from the west.

This year, it is supposed, the gang contemplated the biggest coup that has yet been attempted. Wynn and Bonyea were sent to the west to cover the ground formerly covered by Burke and Logie, while Evely and Logie were to work in the east, and Burke was to remain in Lindsay, working all the smaller towns in the surrounding counties.

At present there is a lot of bogus money in circulation throughout the country. Twelve years ago three men named Murphy were convicted for making bad money and it is alleged that Burke had some connection with this gang.

Burke will come up for preliminary trial on Monday next.

Caught in the Act. Sault Ste. Marie, Ont., July 10.—Richard Wynn and Arthur Bonyea were taken into custody on the American side of the river on a charge of circulating counterfeit money in the Canadian currency. When arrested Bonyea had \$900 of the spurious currency in his possession and Wynn \$75. The arrest followed an attempt made by Wynn to pass a bogus bill at the store of Baldwin & Besner, where he made some purchases. The bill was soon questioned and the police were notified, with the above result. The men were brought to the Canadian side of the river and lodged in the cells.

Upon appearing before the magistrate they acknowledge the charge and stated that they had procured the money from Burke of Lindsay. The men, who are both over 60 years of age, were remanded for eight days.

TRADE WITH AUSTRALIA. Returns Show Imports From Canada Increased By \$350,000.

Ottawa, July 10.—The Department of Trade and Commerce has received a report from J. S. Larke and D. H. Ross, Canadian trade agents in Sydney and Melbourne, Australia, respectively.

This year's harvest in Australia will probably be below the average owing to the dry weather. Good prospects for developing a good leather trade with Australia are reported, provided Canadian firms will devote sufficient attention to the Australian market.

Canada's trade with Australia shows a satisfactory increase. Australian imports from Canada last year totaled \$303,751, an increase over the preceding year of over \$50,000. The increase was principally in textiles, drugs, apparel, paper, spirits and vegetables. On the other hand, Canadian exports to Australia decreased in lumber, agricultural implements and fish. Canada's imports from Australia totaled last year \$72,838, an increase of about \$30,000 over the preceding year. The principal increases were in meat, butter, wool, tin and coconut oil.

Canada imported butter to the value of over \$15,000 last year from Australia.

More Laughter, Less Suffering.

The physiological benefits of laughter cannot be overestimated. It shakes up the diaphragm, sets the pulses beating to a lively measure, stimulates the blood corpuscles, enlivens the brain and sometimes produces dislocation of the jaw when indulged in too heartily by a man with a large mouth. Used with discretion, laughter is as inspiring as a sea breeze, as refreshing as an August shower. Its moral effect is beyond computation. It has killed more ridiculous superstitions by its rollicking roars of unbelief than any other agency. What can be more derisive than a laugh? The man who laughs never kills himself.—Exchange.

CANADA IN IRELAND.

Success of the Dominion Pavilion At the Dublin Exhibition.

The Canadian Pavilion, and its contents, at the Dublin Exhibition is an impressive display, as an illustration of the great industrial, agricultural and mineral resources, as well as possibilities of Canada, yet in the initial stage of its development. The scheme of decoration of the interior of the Canadian Pavilion is beautiful in conception and of artistic design, in which the corn, wheat and grasses of the country, the landscape of Northwest farms and ranches in the background that lends a beautiful effect, and a source of study for the European.

The refrigerating machinery in the centre of the large hall is kept in continual operation and of special interest to the visitors. It is utilized for the preservation of butter and other perishable products on exhibition.

A unique feature in the Pavilion is the model of a Canadian farmhouse and yard, entirely constructed in butter, which is a beautiful piece of work. The house, barn, trees, water effects, cows grazing, fowl and little chickens are entirely made of butter, and are beautiful in their artistic construction. Wreaths of roses form the frame-work, the shape and curve of each petal being brought out with an exactitude that suggests the real article.

The panoramic view of the fauna of the country is another of the many artistic features of the Canadian Pavilion. Here are shown the settler and the various stages of progress made by him, commencing with the first, to his tenth year, together with fine specimens of buffalo, moose, bear, beaver, wolf and a variety of other animals of the Canadian wild, constituting a very interesting museum.

The exhibit also contains a lavish display of maple, fruit products, forest products and agriculture.

There are also a number of pictures executed by means of a new art of photography on canvas, which present various stages of the Canadian farm life, mill industries, etc., that are turned into transparent effects at night, and prominently before the gaze of the visitor is the life-size painting of King Edward and his Royal consort, while opposite at either side of a large advertising card of Canada's greatness and progress are portraits of Sir Wilfrid Laurier, Sir John A. Macdonald, Earl Grey, and Lord Strathcona.

The "rounds in front and at all sides of the Canadian Pavilion are splendidly laid out in garden plots and arranged with Canadian plants, flowers, etc., that give the surroundings a most pleasing appearance, and at once catch the eye of the visitor.

Road to Larder Lake.

Hon. Dr. Reame, Minister of Public Works, Ontario, has stated that his department will at once undertake the building of a wagon road from Boston on the Temiskaming & Northern Ontario Railway to Larder Lake, a distance of about 14 miles. Mr. A. W. Campbell, Deputy Minister of Public Works, will have supervision of the survey, the preliminary work on which had already been completed. The work will be carried out as rapidly as is consistent with the making of the serviceable road.

C. P. R.'S NEW CROSS-CONTINENT FLYER.

"Trans-Canada" Makes Fastest Time Across America.

The business of the country is growing to such an extent that the C. P. R. finds it necessary to run an additional train between Montreal and Vancouver, making three trips a week during July and August. This train, which will be known as the "Trans-Canada Limited," will make the fastest time of any time across the American continent. It will carry baggage car, dining car and a sleeping car only, of the very latest design and with most modern appointments, and only first-class passengers will be carried. She will leave Montreal on the first trip July 2nd. Berths can be reserved in Toronto for passage from North Bay to the west of Winnipeg, at which the "Trans-Canada Limited" stops. No passengers will be carried from Toronto for Winnipeg or points east thereof, as Winnipeg passengers arrive only one hour later by
