Commercial.

Guelph Markets.

The new year has opened with a tendency improved and advanced prices for all nds of grain and produce, with few expitions, mamely, barley, peas, butter, de, itsh are not so digerly sought after by years as other things.

On reference to the quotations, which we pend, it will be reen that wheat on the calph Market for the past few days has ken quite a jump, but although this is ease, millers complain and say that ur is not sateable at anything like a pro-reionate price.

Mour is not calcable at anything like a proportionate price.

Onto keep firm at from 40 to 42cts. Bardey dull and sich. No demand for it of any account, and the same remark can be applied to peas, but not to the same extent.

Dressed hogs advance daily, owing we green to the Western States Markets, which gradually improve every day, and from present appearances promise to continue so for some time hence. We may vaniture to advise such of our town people as gequire some pork for their own private mae, to scoure their supplies as soon as possible. Our country friends of course will be quick in understanding our remarks which no doubt, they will take every addage of.
