By instructions of the Hon. Minissingle night is all that is ter of agriculture, another distribution OneDay ples of the most productive sorts of grain to Canadian farmers for the im OneMill provement of seed. The stock for distribution is of the very best, and has been secured by the Director of Experimental Farm from the recordbreaking crops recently had in the Canadian Northwest. It will be worth while for farmers generally to renew their seed of oats when varieties which have produced more than 100 bushels to the acre can be had. The distribution this spring will consist of samples of oats, spring wheat, barley, field peas, Indian corn, and potatoes. Every farmer may apply, but only one sample can be sent to each applicant, hence if an individual also receive one of wheat, barley or potatoes, and applications for more than one sample for one household cannot be entertained. These samples will be sent free of charge through pure Welsh ponies on the American

to the Director of Experimental North Wales. Liewellyn was never farms, Ottawa, and may be sent in beaten at the Welsh shows, and mated beaten at the Welsh shows, and mated with a brand of imported mares equally the earliest symptom of lung trauble steps on with the cold gray eye. Am I any time before the 15th of March.

MILK IS FATTENING. - If milk does be sipped rather slowly, as it turns gastric juices of the stomach, and favor. SCOURGE MAY BE STATED.

Statistics Prove That More Deaths Occur From Consumption Than From all Other Contagious Diseases Combined—How to Combat it.

The ravages of consumption throughout Canada is something appalling. In the province of Ontario, where statistics of leaths from all discuss of the claims of necessity and mercy allow, to rest the body and train the soul.—(The Defender) eaths from all diseases are carefully occurring during the year 1901 were due to consumption, or about 40 per cent. more than the number of deaths occurring from all other contagious diseases combined.

These figures are startling and show the Quebec, has probably the best strain of pure Welsh ponies on the American urgent necessity for taking every available continent, Some years ago he purmeane for combatting a disease that yearly chased Liewellyn II. at a very high claims so many victims. The time to cure better the condition of any part of the to the Director of Experimental North Wales.
