NEWCASTLE, MARCH 30, 1904 THE NEEDED DREDGING.

We have repeatedly urged upor those in authority the great neces sity of improving the North Wes branch of our river by dredging o otherwise the bar or shoal which located about one mile below the Redbank wharf. And the insistance is again renewed at the urgency of business men and others to whom the services of the steamer Rustler is invaluable. Mr. Daniel Aiton has just completed the erection of a new steam saw mill at a point below the wharf and above the bar, and unless something is done, and done quickly too, would not be at liberty half an hour. Editor's Mail. o the Editor Dear sir:

Overshadowing the improtance i the municipal election is the appalling amount of drunkeness in the town. Day after day are to be seen men reeling along the streets. These men are supplied with drink by some one-and illegally. The Scott Act is an act placed on the Statut Book by the Federal Government. To sell drink or its being dispeased in Newcastle to-day is illegal. Those who sell are law reakers-disloyal citizens of this country.

Biliousness, constipation prevent re-covery. Cure these with Ayer's Pills. It is a question that has often puzzled me why these drunks are not put in gaol as a tone in some places. Is the policentin. NATIONAL STRENGTH.

_ Egotism and complacency are not easily distinguished from confidence and self-reliance. Canada may learn the difference at the present moment by studying the difference between Emulsion. Russia and Japan. Russia represents egotism and complacency, Japan confidence and self reliance.

Russia is a despetism with all the weaknesses of that form of government-incompetency in public service, favorites in high places, lack of from sick blood. administrative system suited to modern conditions, huge public debt oppression, ignorance. Japan has all these weaknesses no doubt, but she has reduced them to such small proportions that they are not to be to why it does what it does. considered beside the great virtues which she has struggled to acquire.

Canada may learn the lesson. This fullest in strength, least in country needs a fresh baptism of national spirit. We are somewhat egotistic and complacent. We imagine we know much more than we do. We have no national literature, no national library, no national museum, no national art gallery, no national navy, no army that is worth mentioning, comparatively few public ,men without eye-lid weakness. There are the beginnings of all these things-but they are only beginnings. Our sons should go abroad more than they do
