Word was sent to four of our mighty hunters that a bear was seen in its den near the Don farm, a distance of ten miles from their homes. So on the first day of April the mighty nimrods went in pursuit. They reached there in a short time with Roy Bell—a goer. It proved to be a porcupine. A good April Fool was it not? Hal hal hal!

The Star "Springfield" did not arrive at Public Landing, Westfield, on Saturday as was expected, which is perhaps owing to the fact that she has not yet undergone the necessary inspection.

Wild geese are quite plentiful and there is the usual excitement among local sportsmen, many of whom are armed with Snider-Enfields, and are prepared to shoot at any range. As may be expected the killed are few.

The illegal shooting of wild geese at night, by the use of lights, is being carried on by some unscrupulous parties, much to the annoyance of our more conscientious hunters, who would like to see it stopped.

April 24.—Up to date there has been no note of the burning of Mr. Charles McAlpine's house which was consumed two weeks ago Saturday last.

A spark from the chimney caught under the clapboards, the whole end of the building was in flames when discovered. Everything was lost upstairs including thirty dollars worth of nests. Great sympathy is expressed for Mr. McAlpine over the loss, there being no insurance.

The water is rising very fast to-day; the low-water wharves are completely covered. The ice which has been running since Friday is about done, there being a few floating cakes in the river yet. We are anxiously looking for the noble steamers "Victoria," David Weston and May Queen, some of which may be here to-day.

Some of the farmers have started this plough, others are making preparations to start work this week. Only the very dry ridges are in a fit state to plough.

On Thursday last a number of the young people, thirty in number, gathered at the residence of the Misses Mary and Margaret Heustis, also in behalf of Mrs. Robert Jones, for the purpose of cutting wood. The ladies prepared everything that was necessary to make the table look nice, and I can assure you it was a satisfactory moment for those who looked upon it. Those who visited the busy scene of action during the afternoon were cordially invited to stop and partake of the luxuriant repast provided. During the evening candy was made by Miss Emma White whom we have a right to thank for the efforts put forth in making it a success. A very pleasant evening was spent in playing games, singing and music.

April 20.—Spring has come, bringing with it renewed life and activity, and the long silent echoes, which have slumbered in the embrace of a dreary winter, are now once more awakened by the merry voice and tuneful song of the hardy farmer.

Miss Dora Thorne who has been spending the past fortnight with her mother, returned by Monday's train to St. John.

Mr. Bliss Thorne will be employed during the summer by Mr. Thos. Hetherington, Cody's Star.

It is understood that in the near future Oakham will lose two of its most prominent citizens.

Mr. Robert Hibson after paying a E.

ing visit to his home, returned to the Millstream.

Temperance Workers and the Plebiscite.

Mr. George A. Wilson seems greatly exercised over some of the plebiscite talk lately published in your paper. He deserves the undying gratitude of Mr. Pearce for coming up to his help "against the mighty." But he seems to have lost sight of the cause of all the trouble.

The people of Queens County have, during the last ten years, become quite accustomed to hearing political speeches from active temperance workers, denouncing the late Conservative Government and its attitude toward prohibition.

If I mistake not, one of the foremost of these orators was Mr. Pearce. The Royal Commission to investigate the Prohibition question, he and others took the high moral ground that intemperance was on the same plane as any other crime.

We wanted no commissioners to decide whether or not murder or theft should be legislated against; we needed none to inquire into the advisability of enacting laws against the importation and sale of alcohol. Many will remember the fine speech to which these gentlemen held up the party who would waste twenty-six thousand dollars, (I think that was the sum), collecting evidence on a question that any child, who knew the difference between right and wrong, was competent to pronounce upon.

In those "spying times," we heard nothing of inability to enforce prohibitory legislation.

We have had a change of Government. We were allowed to enter the campaign in the belief that, in this, as in other cases, where there has been an appeal to the popular vote, the will of the majority would rule. If not this, what was the Plebiscite for? In the Province of Quebec we had three members of the government and one independent member working against us. One of these was J. Israel Tarte—the man who not long since caused the discharge of a teacher in an Industrial School out west, because he would not allow Mr. Tarte and his friends to bring liquor into the institution, when they were out there on a jangling tour.

In this same province there were shameful irregularities allowed in the voting in order to roll up a majority against prohibition. Despite all this, the temperance people beat the rum party by a majority large enough to constitute a good sized army. Then we were told that we had been expected to beat the rum party—dead men, stay-at-homes, residents, repeaters and what not—by getting a majority of all the recorded votes in the Dominion. No party ever did that, since North America was settled. The Premier deliberately admits he steered us up against what any child knows is an impossibility.

But in this Plebiscite campaign the Government distributed a quarter of a million dollars amongst its devoted followers. In the parish of Cambridge two polling stations were opened in the same house and two sets of officers employed that a larger number of the faithful might participate in plebiscite dividends. Now where are these gentlemen who were so severely denunciatory when the Royal Commission was appointed? They are either silent, or making excuses for the Government. Their reference to 23 percent of the electorate as "a small percentage" is not very consistent when we remember that the great Government they support holds power by virtue of the votes of twenty nine per cent of the people.

The moral aspect of the question has changed since '91. It is little wonder then that they dislike the mention of the word "Plebiscite"; and still less that those who now know for a certainty what the major part of their fiery oratory really meant, hesitate not to stir them up a little, by reminding them of their change of base.

Of religious and temperance workers tampering with rum, in the recent Provincial election, I know nothing save by report. But I do know that on the day Mr. Blair was elected to the Dominion Parliament, two cases of liquor stood for some time on the piazza of a Queens county religious and temperance worker; that later they were transferred to his barn, from which, during the day, their contents were distributed to "Good Liberals," as well as thirty and, presumably, purchasable Conservatives.

The writer also knows that a member of the church and Chief Templar of an I. O. G. T. Lodge, well known to Mr. Wilson, as well as several other "temperance workers" of the same stripe violated their pledge that day. He believes, with good reason, Mr. Wilson is cognizant of these facts. Therefore, the less he says about "religious and temperance workers," and the elections, the better—unless he is trying for a record in the chief characteristic of his wing of the temperance party—inconsistency.

Neither can he, with a very good face, denounce the man who does not write over his own name. For, in the truth,

were known, few men have had published more unigned correspondence in the GAZETTE than he. It makes all the difference imaginable whose ox is gored.

He will not answer us if we don't publish our names! That's a terrible threat. Surely he'll think better of it. But, if he shouldn't we'll try to keep up with becoming fortitude. And, if he should, he cannot by means and means of letters, rub out one of the hard, ugly facts connecting the plebiscite and his beloved and immaculate party.

As the writer is dealing in facts that are well known to a large number of the GAZETTE's readers, with thanks in advance for space, he craves the Editor's permission to call himself—

DISEASED KIDNEYS

Are Rebuilt and Restored by Dodd's Kidney Pills.

No Kidney Diseases are Found Where Dodd's Kidney Pills are Used—New Brunswick Testimony—Cure of a Prominent Public Man.

OSKABOON, N. B., April 24.—Some little time ago, a report appeared in an Ontario newspaper, stating that Kidney Diseases, (including Bright's Disease, Diabetes, Dropsy, Rheumatism, Gout, Lumbago, Urinary and Bladder Troubles, Diseases of Women, and all Blood Impurities) were decreasing rapidly, in all sections in which Dodd's Kidney Pills were used.

This statement was read by thousands of our people, and by some (who did not know the magical virtue of Dodd's Kidney Pills) it was doubted. The discussion grew warm, and it was decided to investigate, in some locality here, where the pills are in general use, to ascertain whether or not, similar results attended their use in this part of Canada.

A committee appointed to bear evidence concerning the point in dispute, got together a list of names of persons who had been afflicted with Bright's Disease, Diabetes, Dropsy, or other forms of Kidney Disease. These people were questioned and they all testified that they had been cured by Dodd's Kidney Pills. One gentleman answering a question as to whether or not he knew anyone who had had Kidney Disease, and had not used Dodd's Kidney Pills, said, "I do not. They are all dead."

The evidence of Commissioner G. J. Worden, of Wickham, who was cured of Kidney Disease by Dodd's Kidney Pills after twenty-five years' suffering, carries conviction with it. It cannot be doubted. It is the solemn declaration of one of our most popular public men.

Dodd's Kidney Pills are sold by all druggists at 50 cents a box, six boxes \$2.50, or they will be sent on receipt of price, by The Dodd's Medicine Co., Limited, Toronto, Ont.
